To Whom It May Concern,

I am urging you to grant petition
98P-0151/CPI to prohibit the slaughter of
downed animals.

It seems a pity that animals too
sick to stand are pushed with tractors or
dragged with chains which result in painful
injuries. Not only are these animals sick
and scared but are put through unnecessary
pain. Also these sick and injured animals
pose a health threat and should not be
allowed to enter the food chain

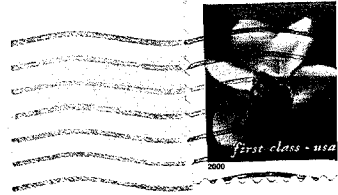

Please do what you could to
help this situation.

Thank you
Sincerely,

(Mrs) Elsie Jogle
