

FDA Commissioner
U.S. Food and Drug Administration
Rockville, MD

Dear FDA Commissioner,

I praise FDA approval of Mifepristone. With the FDA approval of Mifepristone, science finally prevailed over anti-abortion politics. I urge that Mifepristone be kept out of the political arena and in the hands of doctors and women. Please resist any efforts to put new restrictions on Mifepristone that would reduce women's access to this medical breakthrough.

Sincerely,

Name: _____

Address: _____

City, State: _____
