Dear U.S. Food and Drug Administration

I would like you to enact the petition and docket number - 98P-0151/CP1 which prohibits the slaughter of downed animals.

There is a growing consensus among the livestock industry and government officials that the marketing and slaughter of downed animals is unacceptable.

Downed animals are sick and should be medically treated for their illnesses and not killed and eaten due to contamination possibilities.

Sincerely  
Law Carradine
