

Docket # OOD-1578 and OON-1396

2-7-01

Dear Commissioner,

We need safety testing and explicit labeling of foods and food ingredients arising from genetic engineering just as we do for other new or questionable additives and technologies. Examples: hydrogenated oils, bleached flour.

275 102 FEB 14

Let's be consistent for the sake of safety and consumer choice.

Tom Stewart

OOD-1594
