

Docket # OOD-1598, OON-1396

2/7/01

Dear FDA Commissioner,

As a consumer I demand to know what is in all the food I eat, hence I strongly support & advise labeling of all food in the market. If this is not heeded, I will expect yourself, as well as these giant Bioengineers to provide health care for the risks you are unwillingly imposing upon me. Thank you, Cynthia Burke
