

ticket # 000-1598 / 00N-1396

Dear Commissioner,

I am writing to express my support for required labeling of genetically modified food and pre-market safety testing of these products. I believe it is the right of every consumer to know if the food that he/she purchases contains genetically modified ~~to~~ ingredients. Please take the concerns of consumers in mind rather than solely relying on biotech corporations when forming FDA policy.

Sincerely, Patrick Krnich
