

TICKET #000-1598, CCN 1396

Dear Commissioner,

We all need food to survive, but the quality of the goods we purchase & their history needs to become ~~210 per~~ ~~to~~ ~~the~~ ~~public~~.

I believe that the food & the impact it has on us & ^{the environment} needs to be more fully assessed before putting it on the market.

Please consider my concerns & begin taking responsibility for the goods you are producing & the future of the planet. Thank, Emily Vosla
