

Docket numbers 00D-1598  
00N-1396

Dear Commissioner,

In regards to the above proposals, I strongly feel that in the interests of community health, and in the interest of the long-term impact on our environment, the public must know the source of the food we buy and feed to our families. Please do not allow these proposals to pass & continue to require that our food is safety-tested and labelled so we can choose non genetically-modified products.

223 01 FEB 15 P 2 28

Sincerely, Janet Hathaway

00D - 1598
