

Docket #00N 1396 & #00D 1598

Dear Commissioner,

10 Feb. 2001

Please make it so I can know what's  
in my food, so I can decide what I'm  
consuming or not. <sup>4239.001 FEB 15 P2-29</sup> This is practice for all sorts  
of other ingredients/conditions of foodstuffs, why  
not genetic modification? At least do so until  
thorough & conclusive testing has been conducted  
to ensure the safety of these organisms.  
Thank you.

Sincerely, Sarah McCornaby

00D-1598
