

1/20/2001

Mr. Michael Friedman  
Food & Drug Administration  
Washington DC

5293 DI MAR 19 P3:44

Our family is outraged that  
your organization still requires  
cruel and obsolete animal  
tests for pharmaceutical companies.

There is another more humane  
way to achieve the same goals -  
by substituting in vitro testing.

Please - we demand as  
consumers that you take the  
initiative to stop these  
practices at once.

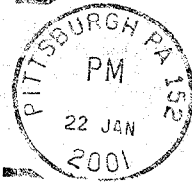

Sincerely  
Evelyn Parent

& 22 members of my family
