*People have already
sickened and died from allergies!!*

As a member of the Center for Science in the Public Interest, I urge you to invest more resources to ensure that:

751A

- food labels completely and accurately list the presence of all known allergens, including those used in flavorings;
- food manufacturers adopt measures to prevent the unintentional contamination of their products with undeclared food allergens; and
- food manufacturers include a toll-free telephone number on their labels that consumers can call for more information about ingredients.

*This is indeed a serious matter. I
formerly had allergies myself. Do not
play games with U.S. consumers' lives!*
