

FDA Commissioner
Docket No. ODN -1396/OAD 1598
Food and Drug Administration
5630 Fenwick Lane, Room 1041
Rockville, MD 20852

Dear, FDA.

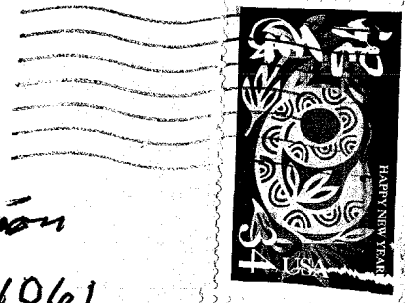

I am writing to express my
opposition to the FDA's new
proposed rule and guidance on
genetically engineered ^(GE) food.
The agency's voluntary labeling
and notification, and my
right to know I support. I
believe is wrong.

All GE food and ingredients
should be labeled so I am
informed and have a choice.

GE food should not be assumed
to be safe and must be subject
to mandatory premarket testing.

Sincerely,

Henry Thomas,
E 51901.650 ave.
menomonie, wi
