

Dear F.D.A. :

3/10/2001

0281 '01 MAR 13 P1:42

I oppose the F.D.A.'s new proposed dictum and the direction concerning genetically engineered foods. Voluntary labeling is unacceptable. All G.E. foods must be labeled.

Long-term testing must be performed on animals and insects. Humans must not be the test subjects for these altered substances. As the F.D.A. surely knows, G.E. foods have proven to be fatal to the Monarch butterfly. So please don't risk the potential damage to future generations of life on earth.

Please feel free to contact me concerning this matter.

Sincerely,

Vincent G. Franze
