RE: Notification of Nutritional Support Statements

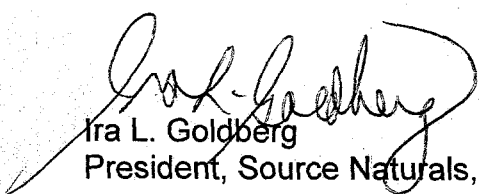

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Genistein (eternal woman label) a dietary supplement. Source Naturals® is the manufacturer of Genistein (eternal woman label).

Statements being made in the labeling of Genistein (eternal woman label):

- (1) Source Naturals *Eternal Woman*™ line is designed for menopausal women to experience the *Freedom to Change*™ naturally.
- (2) Genistein, an isoflavone phytonutrient derived from soybeans, has been the focus of scientific research since 1966. Studies have shown that genistein can bind to the same receptor sites as estrogen.
- (3) Source Naturals Genistein is made from isoflavone rice soybean powder that yields a consistent standardized isoflavone content. The unique chemical-free process requires approximately 400 pounds of soybeans to yield just one pound of finished powder.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals, Inc.
