RE: Notification of Nutritional Support Statements

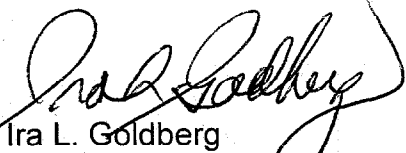

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of **Vitamin B-6**, a dietary supplement. Horizon<sup>®</sup> is the manufacturer of **Vitamin B-6**.

Statements being made in the labeling of Vitamin B-6:

(1) Vitamin B-6 is an essential nutrient required for the metabolism of carbohydrates, proteins and lipids. It assists in the conversion of amino acids from one to another as needed, and is necessary for normal synthesis and function of both hemoglobin and red blood cells. It is also utilized in the synthesis of neurotransmitters and for converting essential fatty acids into prostaglandins (chemical messengers).

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Horizon possesses substantiation that the statements are truthful and not misleading.
