

Dear Commissioner of the FDA,

I am extremely concerned over the controversy of genetically engineered ⁵⁵⁴¹¹⁻⁰¹ ~~foods and products~~ ^{PP4.19} products. I am demanding that these products be tested Before they hit Supermarket shelves. These products need to be tested for their impacts in the environment, such as the effects on monarch butterfly populations. Also, these products need to be tested for effects on people as well. We shall not be guinea pigs!

By not labeling these products, our rights as American consumers is being stripped. I demand labeling so I can make an informed decision on what I want to feed my two children.

Thank you for your time on this matter.

Sincerely,

Michelle TenEyck

6767 E. Taft Rd.

E. Syracuse, NY 13057.
