To FDA Commissioner;

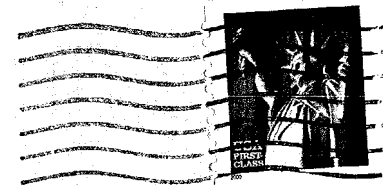

5539 '01 MAR 19 P4:19

As an avid food consumer, I'm writing in concern of the genetically engineered food that is being put on the supermarket shelves. I as a consumer I would appreciate it if you as a FDA commissioner would test the food that is genetically engineered. Also, label the food that is genetically engineered, that way, I, as a food consumer have the right and choice to pick out the type of food that is healthy for me as well as for the people I choose the food for. As for the ~~voluntary~~ voluntary labeling that is an extremely bad joke. Why do you think you have the right the volunteer you should automatically label Genetically engineered food.

000-1598

Upset and waiting,
C 2764
