

Docket # OON-1396, OOD 1598
Feb/March 2001

Dear Commissioner,

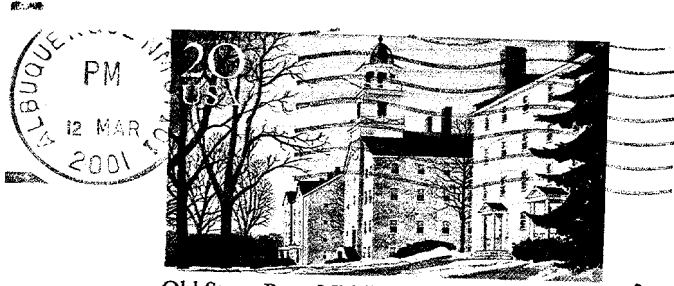

It concerns me that some of the food I eat
could be a danger to my health. I think
my mind would be more at ease if there
was proper labeling and better safety testing
for these foods -- in fact, I know it would.
Thank you for your prompt consideration with
this matter. Sincerely, Kris Meiers
