

Docket # 000-1598 00N-1396

Dear Commissioner, ☺

Food should not be scary!

As a Consumer & American Citizen, I am not only concerned but fearful of our food quality. It is impacting us environmentally as well as spiritually. I plead that you will rethink your position on G.M. food, we need to demand pre-market testing, & labeling of all these foods, so we may make educated decisions. The health of people now & future generations surely rests upon us & you!
