SUGGESTED USE
Take one cup of Sedivitax tea before going to bed.

HOW TO USE
An herbal tea-bag and water (about 150 ml) is all that you need to prepare the tea. Pour boiling water into a cup with the herbal tea-bag and let it steep for five to seven minutes, making sure to cover the container to avoid evaporation of the tea's essence. The aromatic herbs grant a good taste to the tea without adding sugar. If a sweetener is desired we suggest to add honey.
