

PIMI AECG CORE LAB ST DATA
PIST.SSD01

VARIABLE NAME	CODES
NEWID	Patient ID
VISIT	Visit type
EPI48	Number of episodes
DUR48	Sum of duration for all episodes
LOWHR	Minimum heart rate
HIHR	Maximum heart rate
MEANHR	Mean heart rate
TOTSEC	Sum of tape duration converted to seconds
MAXSTD48	Maximim ST depression for all episodes (negative number)
SX	Number of ST episodes without angina
SXWANG	Number of ST episodes with angina
MAXHR	Maximum of heart rate over all episodes
MINHRST	Minimum of heart rate at 1mm ST depression over all episodes
MAXHRST	Maximum of heart rate at 1mm ST depression over all episodes
STPR48	Computed value which is the product of MAXSTD48 times DUR48
AFTERMS	1 = Ischemia started after mental task 2
AFTERPS	1 = Ischemia started after physical stress
BEFOREMS	1 = Ischemia started before mental task 1
BEFOREPS	1 = Ischemia started before physical stress
BETWNMS	1 = Ischemia started between mental tasks
DURMS1	1 = Ischemia started during mental task 1
DURMS2	1 = Ischemia started during mental task 2
DURPS	1 = Ischemia started during physical stress
EXISTMS1	1 = Ischemia exists* during mental task 1
EXISTMS2	1 = Ischemia exists* during mental task 2
EXISTPS	1 = Ischemia exists* during physical stress

*exists = started before and continues or started during
