

Oregon Parks and Recreation Commission

July 17, 2008

Agenda Item: 12

Action

Topic: Centennial Horizon Approval

Presented by: Kyleen Stone

Background:

After a year and a half of research, deliberation, public meetings and draft documents, the Centennial Horizon publication is presented for approval. Input from commissioners has been synthesized into a final document. Substantive changes to the document since the July 2008 prototype include:

- Reordered action items to better reflect the relative significance of the actions;
- Reworked Principle 3 to strengthen it as a Primary Principle;
- Reworked Principle 5 Strategies and Actions to better reflect the description and vision for the principle; and
- Changed introductory letter to describe the plan as a living document with two-year review processes.

In addition, we made minor grammatical and clarifying edits where needed.

The final prototypes will be distributed to commissioners prior to this meeting. Upon approval, the document will be bound, printed, distributed to staff and made available for interested public and stakeholders. In addition, the document will be available in electronic form on the ORPD website.

Staff will present the action plan for the two-year update cycle at a winter, 2009, commission meeting.

Action Requested: Staff seek commission approval of the Centennial Horizon publication.

Prior Action by Commission: May 10, 2007: Commission approved project.
January 16, 2008, March 11, 2008, May 8, 2008, and July 17, 2008: Commission workshops and staff updates.
