

“eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission’s mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission’s Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Any filings must bear in all capital letters the title “COMMENTS”, “PROTEST”, or “MOTION TO INTERVENE”, as applicable, and the Project Number of the particular application to which the filing refers.

p. *Agency Comments:* Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency’s comments must also be sent to the Applicant’s representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site at <http://www.ferc.gov> under the “e-Filing” link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP08-152-000; CP01-23-006; PF07-11-000]

North Baja Pipeline, LLC; Notice of Application

April 24, 2008.

Take notice that on April 15, 2008, North Baja Pipeline, LLC (North Baja), 1400 SW., Fifth Avenue, Suite 900, Portland, Oregon 97201, filed in the above dockets, an application, pursuant to sections 7 and 3 of the Natural Gas Act (NGA), for a certificate authorizing the construction and operation of the Yuma Lateral and an amendment to North Baja’s existing Presidential Permit to allow the construction of additional facilities at the United States-Mexico border for the purposes of importing natural gas, including revaporized liquefied natural gas (LNG) from Mexico. North Baja’s proposal is more fully described as set forth in the application that is on file with the Commission and open to public inspection. This filing may also be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. There is an “eSubscription” link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Specifically, North Baja seeks authorization to construct: (1) A new direct interconnection with the facilities of Gasoducto Bajanorte at the United States-Mexico border; (2) a new, 3.27 mile, 12-inch diameter pipeline extending from the international border a the Colorado River to the Yucca Power Plant in Yuma, Arizona; and (3) the Yuma #1 Delivery Meter Station. North Baja estimates that the proposed facilities will cost \$8,533,914. North Baja states that the purpose of the facilities is to provide 81,250 Dth per day of firm natural gas transportation service to the Yucca Power Plant owned by Arizona Public Service Company. North Baja proposes new incremental rates under Rate Schedule LAT-1 for service on the Yuma Lateral.

Any questions regarding this application should be directed to Henry P. Morse, Jr., General Manager, North Baja Pipeline, LLC, 1400 SW., Fifth

Avenue, Suite 900, Portland, Oregon 97201, at (503) 833-4108.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to

the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

On June 21, 2007, the Commission staff granted North Baja's request to utilize the Pre-Filing Process and assigned Docket No. PF07-11-000 to staff activities involving CIG's proposal. Now, as of the filing of North Baja's application on April 15, 2008, the Pre-Filing Process for this project has officially concluded. And while the PF Docket Number is now closed, all of the information contained in the Pre-Filing Process will become part of the certificate proceeding. From this time forward, CIG's proceeding will be conducted in Docket Nos. CP08-152-000 and CP01-23-006, as noted in the caption of this Notice. All future correspondence should refer to these CP docket numbers only.

Comment Date: May 15, 2008.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP08-33-000]

Dominion Transmission, Inc.; Notice of Availability of the Environmental Assessment for the Proposed Hub I Project

April 28, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline and compression facilities proposed by Dominion Transmission, Inc. (Dominion) in the above-referenced docket. Dominion's proposal (the Hub I Project) is to construct a 4,700 horsepower compressor station and about 2.0 miles of 20-inch-diameter pipeline (in two segments) in Westmoreland County, Pennsylvania.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act of 1969. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed Hub I Project. The purpose of the project is to provide about 200 million dekatherms per day (MMDt/d) of service in the summer months and 150 MMDt/d in the winter months.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426.

Copies of the EA have been mailed to federal, state, and local agencies; newspapers and libraries in the project area; parties to this proceeding; and those who have expressed an interest in this project by returning the January 11, 2008 *Notice of Intent to Prepare an Environmental Assessment for the Proposed Hub I Project and Request for Comments on Environmental Issues* Mailing List Form.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments as specified below. Please carefully follow these instructions to ensure that your

comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of Gas Branch 1, PJ-11.1;
- Reference Docket No. CP08-33-000; and
- Mail your comments so that they will be received in Washington, DC on or before May 28, 2008.

The Commission strongly encourages electronic filing of any comments. See 18 Code of Federal Regulations 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the link to "Documents and Filings" and "e-Filing." eFiling is a file attachment process and requires that you prepare your submission in the same manner as you would if filing on paper, and save it to a file on your hard drive. New eFiling users must first create an account by clicking on "Sign up" or "eRegister." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing." In addition, there is a "Quick Comment" option available, which is an easy method for interested persons to submit text only comments on a project. The *Quick-Comment user Guide* can be viewed at <http://www.ferc.gov/docs-filing/efiling/quick-comment-guide.pdf>. Quick Comment does not require a FERC eRegistration account; however, you will be asked to provide a valid e-mail address. All comments submitted under either eFiling or the Quick Comment option are placed in the public record for the specified docket or project number(s).

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214). Only intervenors have the right to seek rehearing of the Commission's decision. Anyone may intervene in this proceeding based on this EA. You must file your request to intervene as specified above.¹ (You do not need intervenor status to have your comments considered).

Additional information about the project is available from the Commission's Office of External Affairs,

¹ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion of filing comments electronically.
