DEPARTMENT OF EDUCATION

Privacy Act of 1974; System of Records—Early Reading First National Evaluation

AGENCY: Institute of Education Sciences, Department of Education.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (Privacy Act), the Department of Education (Department) publishes this notice of a new system of records entitled Early Reading First National Evaluation (18-13-08). The system will contain information about participants in the Early Reading First program (Title I, Part B, Subpart 2, Elementary and Secondary Education Act of 1965 (ESEA)), as well as about children attending preschools that applied for but did not receive Early Reading First program funds.

The evaluation obtained a sample of sites from the universe of applicants that applied for Early Reading First (ERF) grants that were awarded in 2003. The treatment group consists of 28 grantees that received ERF funds. The comparison group consists of 37 applicants that did not receive ERF funds and that received average scores from peer reviewers in the interval below the average score of the lowest-scoring funded application. A random sample of three to five preschool classrooms was selected from each ERF grantee in the treatment group and each unfunded applicant site in the comparison group. In each site, up to 33 children were randomly selected from those whose parents have given consent for them to participate in the study.

Specific data collection activities will include direct in-person assessments of children, telephone surveys of parents, self-administered teacher surveys and

teacher ratings of children, self-administered preschool director surveys, informal grantee director in-depth interviews, classroom observations, and extraction of records on children. Information collected will include the following: Names; addresses; demographic information such as race/ethnicity, age, educational background, and family income for children in the sample and their parents; preschool staff answers to interview questions; children's results from early literacy and language assessments; and teacher reports of children's social and emotional outcomes.

DATES: The Department seeks comment on this new system of records described in this notice, in accordance with the requirements of the Privacy Act. We must receive your comments on the proposed routine uses for the system of records included in this notice on or before December 15, 2006.

The Department filed a report describing the new system of records covered by this notice with the Chair of the Senate Committee on Homeland Security and Governmental Affairs, the Chair of the House Committee on Government Reform, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on November 9, 2006. This system of records will become effective at the later date of—(1) The expiration of the 40-day period for OMB review on December 19, 2006 or (2) December 15, 2006, unless the system of records needs to be changed as a result of public comment or OMB review.

The treatment group consists of 28 grantees that received ERF funds. The comparison group consists of 37 applicants that did not receive ERF funds and that received average scores from peer reviewers in the interval below the average score of the lowest-

scoring funded application. A random sample of three to five preschool classrooms was selected from each ERF grantee in the treatment group and each unfunded applicant site in the comparison group. Parents of children in those classrooms were asked to sign a consent form with contact information.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of the names and addresses of children in the evaluation and their parents as well as demographic information—such as race/ethnicity, age, educational background, and family income; names of preschool staff in the evaluation; parent and preschool staff responses to survey questions, children's results from early literacy and language assessments and teacher reports of children's social and emotional outcomes. Information collected will include the following: Names; addresses; demographic information such as race/ethnicity, age, educational background, and family income for children in the sample and their parents; and preschool staff answers to interview questions. Specific data collection activities will include direct in-person assessments of children, telephone surveys of parents, self-administered teacher surveys and teacher ratings of children, self-administered preschool director surveys, informal grantee director in-depth interviews, classroom observations, and extraction of records on children.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S.C. 6376, 9561(b) and 9563.

PURPOSE(S):

The information in this system is used for the following purposes: (1) To fulfill the requirements under section 1226 of the Elementary and Secondary Education Act (ESEA), for an evaluation of the Early Reading First program; and (2) to provide information on effective practices in Early Reading First for the purpose of improving the program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

The Department of Education (the Department) may disclose information contained in a record in this system of records under the routine uses listed in this system of records without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. These disclosures may be

made on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Act, under a computer matching agreement. Any disclosure of individually identifiable information from a record in this system must also comply with the requirements of section 183 of the Education Sciences Reform Act (20 U.S.C. 9573) providing for confidentiality standards that apply to all collections, reporting, and publication of data by the Institute of Education Sciences.

Contract Disclosure. If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department shall require the contractor to maintain Privacy Act safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Not applicable to this system notice.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department maintains records on CD-ROM and the contractors maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed by a number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department site, and the sites of Department contractors where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need to know" basis, and controls individual users' ability to access and alter records within the system.

The contractor, Decision Information Resources, Inc. (DIR), and its subcontractors Mathematica Policy Research, Inc. (MPR) and the Center for Improving the Readiness of Children for Learning and Education (CIRCLE) at University of Texas-Houston Health Sciences Center have established a set of

procedures to ensure confidentiality of data. All employees sign a pledge that emphasizes the importance of confidentiality and describes their obligations. Access to sample selection data is limited to those who have direct responsibility for providing the sample and maintaining the sample-locating information. At the conclusion of the research, these data are destroyed. Identifying information is maintained on separate forms and files, which are linked only by sample identification numbers. Access to the file that links sample identification numbers with the respondents' identification and contact information is limited to a small number of individuals who have a need to know this information. Access to the hardcopy documents is strictly limited. Documents are stored in locked files and cabinets. Discarded material is shredded. Computer data files are protected with passwords, and access is limited to specific users. Especially sensitive data are maintained on removable storage devices that are kept physically secure when not in use. An Institutional Review Board (IRB) has reviewed and approved the data collection protocol and the procedures used to ensure confidentiality. The parent consent form required for children's participation in the study states that information collected about the child will be kept confidential. The interviewers' introductory comments given at the beginning of each parent and grantee director interview includes all the information that respondents need for deciding to give informed consent (verbal) for that interview.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules (ED/RDS). In particular, the Department will follow the schedules outlined in Part 3 (Research Projects and Management Study Records) and Part 14 (Electronic Records).

SYSTEM MANAGER AND ADDRESS:
