FPR Cooperators' Parking Lot

- Regulatory sideboards concerning Desired Conditions
- Creation of a (data) clearinghouse, preferably web-based for data and inventory info on current conditions/capability/Comprehensive Evaluation
- Citizens' 2005 input on sites for Desired Conditions (e.g. copies of forms)
- "REMI" Economic Analysis model... use in FPR?
- Example of Desired Conditions>>> mapping with reference to "diamondgram"
- LTSY v.v. TSPQ
- Suggestion: Use a mapping example to show how the Desired Conditions are tracked through the process using the clear vision example (ie: though the open/narrow/close
- Law Enforcement:
- Adequate personnel should be in place to enforce winter range restrictions, prevent motorized vehicle damage, and off-road travel restrictions
- Review regulations: re what is enforceable.
- Where does elk feeding fit into the plan?
- How do we reconcile effects of overcoming [elk] winter habitat limitations on summer habitat & other uses?
- Do we need guidelines re: undercutting timber or to set a timber cut range?
- How will the plan address activities pertaining to desired conditions if we are unable to monitor the progress those activities make toward desired conditions?
- Are we only monitoring those things we do well?
- FS must have in the administrative record all studies on which management decisions are based and maintain a record of their analysis of them.
- Send PFC to Group
- Need to discuss... Roadless as special areas/process for identifying
- Website — hard to find details on the meetings (per an observer)

**KEY FOREST PLAN REVISION DATES
THROUGH 9/2008**

2/27/08: Cooperators' meeting, Jackson

3/26/08: Public workshop—northern BTNF scenarios, Afton
3/27/08: Public workshop—northern BTNF scenarios, Jackson

4/28/08: Public workshop—southern BTNF scenarios, Pinedale
4/29/08: Public workshop—southern BTNF scenarios, Rock Springs

Scenario review w/ Public: TBD (*summer?*)
Scenario review w/ Cooperators: TBD (*9/08 @ Togwotee?*)

KEMMERER (?)

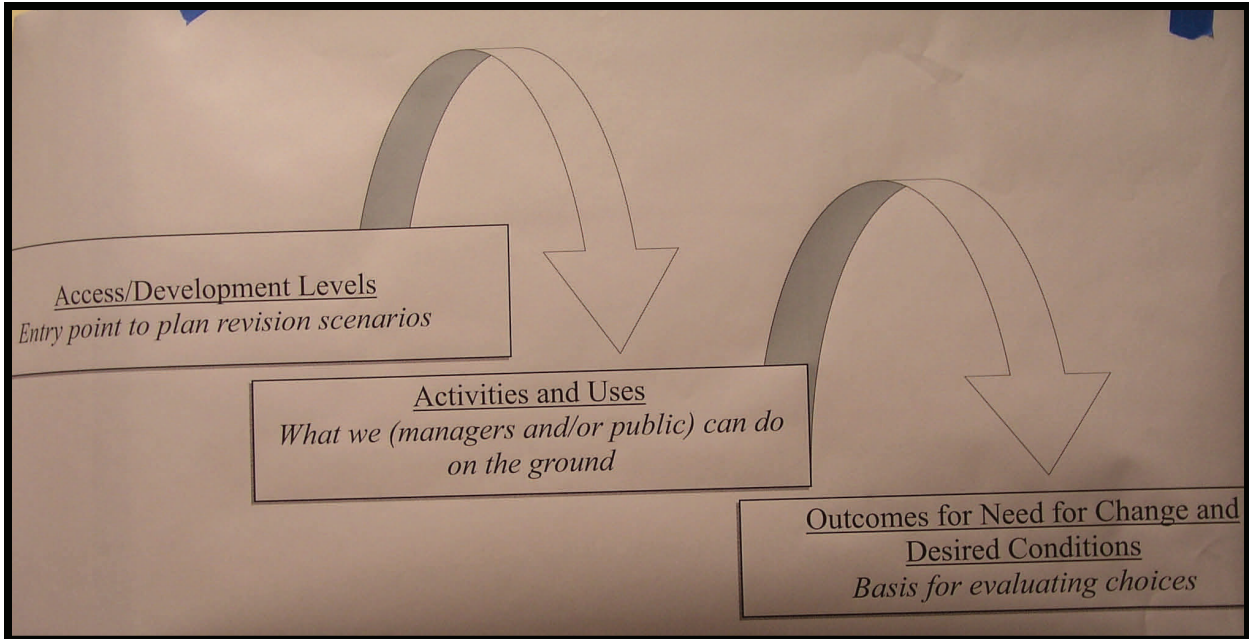

Desired Outcome

BTEOTMWWH: Insight into the process of connecting “Need for Change” items to places on the ground, so that we can better prepare for the upcoming public meetings.

Planning Team	~30 min
Cooperator Questions	~15 min
Lunch/Small Group	~20 min
Large Group Report	~25 min

Please...

- 1) Use a private parking lot to capture your Q's
- 2) Capture Plus/Delta elements in handout (so we can collect your thoughts)

Access / Development Levels

- Wilderness
- Non-motorized Backcountry
- Motorized Backcountry
- Roadside Environments - Restricted Vehicle Access
- Roadside Environments
- Concentrated Public Use Areas - Roaded
- Concentrated Public Use Areas - Unroaded
- Private

COOPERATOR Q's

How FAST CAN YOU HAVE IMPACT? How FAST WILL THIS MOVE? IE WBP? TREATMENT?
SCALE & TIMING? PROJECT PLANNING

OF GEOGRAPHIC AREAS - SIZE?

TARGET GA'S AT EACH LOCATION

Pg 4: HAVE MORE DESCRIPTIONS ON NFC ELEMENTS
⇒ DISTRIBUTE B/4 PUBLIC MTGS

WHY DESIGNATE AREAS AT ALL?

HOW DO REGIONS BUMP UP AGAINST EACH OTHER?

H² RESPOND TO GUT REACTION
"OH NO! GREEN TO BLUE!"
