I. OVERVIEW

A. User Guide

The purpose of this User's Guide is to guide users through the process of using the ETA Data Reporting and Validation System (DRVS) Version 5.2 to produce the Workforce Investment Act (WIA) 9090 quarterly report for submission to ETA. DRVS 5.2 incorporates ETA's new common measures reporting requirements specified in TEGL 28-04 and approved under OMB Control Number 1205-0420. DRVS 5.2 covers both WIA and Labor Exchange (LX) reporting as specified in these guidance documents. For WIA, future versions of this software will include functionality to produce local level reports, annual reports including Table O, and the Option B Literacy and Numeracy Rate. Future versions will also include the functionality to conduct report validation and data element validation, and to upload validation results to ETA.

This User's Guide contains the following sections:

II. **Installation:** Provides a step-by-step description of how to install the software on your PC, or in a limited client/server setup, for both MSDE and SQL Server users. Also includes instructions for logging on.

III. **Tutorial:** Provides information on the menus and functions of the software. Describes how to build a WIASRD-formatted extract file, import data, generate a quarterly report, and data enter that report on ETA's Enterprise Business Support System (EBSS). Also describes the DRVS database management functions.

IV. **Reference Guide:** Provides a condensed list of all the menus and functions for quick reference.

Appendix A. **Reporting Schedule:** Provides the quarterly report due dates and the participant and exiter cohorts to be included on each quarterly report.

Appendix B. **Record Layout:** Provides the record layout for the participant records. This record layout provides a list of field level and cross field edit checks and the accompanying error messages that may occur during a data import.

I. OVERVIEW

Appendix C. **Performance Outcome Groups:** Specifies the performance outcome groups used in calculating the entered employment, retention, earnings increase, credential, and youth performance measures.

Please contact **Mathematica Policy Research, Inc.** at WIATA@mathematica-mpr.com for information about application installation, WIA data files, performance reports, or any other issues related to DRVS 5.2.

B. Overview of Data Directories

The DRVS uses a number of data directories. The following table provides a list of the data directories that the user is most likely to access.

Application Folder or File	Directory Location
Application default directory	C:\Program Files\DRVS (user can rename directory or install in another location)
Database default	C:\ProgramFiles\DRVS\User Data\ (user can create own named databases)
Error log default	C:\Program Files\DRVS\Logs
Exported numerators and denominators default	C:\Program Files\DRVS\Performance Groups Export\
DRVS User Guides	C:\Program Files\DRVS\Help Documents\

II. INSTALLATION

This chapter provides DRVS system requirements and installation instructions.

Step 1—Minimum System Requirements

Following are the minimum system requirements. Recommendations for greater than minimum requirements are indicated in parentheses where applicable.

Item	Requirement
Processor	Pentium 4 CPU 1.80GHZ (more is recommended)
Operating System	Windows 2000 or Windows XP
Memory	512 MB (more is recommended)
Application Hard Disk Space	350 MB (more is recommended)
Database Hard Disk Space	Varies by state.
Database	Varies by state. States that exceed MSDE maximum per database must install SQL Server.
Display	1024x768 or higher-resolution display with 256 colors
Other	MSDE or SQL Server must be installed prior to installing DRVS 5.2. Latest Windows service packs and critical updates should also be installed.

II. INSTALLATION

Hard disk requirements will vary depending on the state's database size. For example, some states may exceed the current MSDE 2 GB per database size limit. If any database exceeds the MSDE limit, users will need to license, install, and set up Microsoft SQL Server to run the DRVS. Any licensed version of SQL Server should allow the user to install and run the DRVS. SQL Express (MSDE 2005) is not fully compatible with the DRVS. The DRVS will install all required .Net and Crystal Reports components.

DRVS installation requires Read/Write access to the system registry, Program Files folder, Windows\System32 folder and the Global Assembly Cache. Registry entries are made in HKEY_LOCAL_MACHINE\SOFTWARE\DRVS and in HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft uninstall areas. DRVS users will need Read access to the registry and Read/Write access to the Program File folders, as well as Read/Write/Delete access to the SQL database.

Step 2—Uninstalling Prior Versions

Users should uninstall previous versions of the software before installing the DRVS. Because DRVS 5.2 reflects substantial changes to the WIA reporting requirements, states must use versions 3.1.2 or prior of the software to analyze or amend reports for Program Year 2004 and earlier. The participant counts and performance measures generated by DRVS 5.2 are in general not comparable to those generated by prior versions of the application.

Following are instructions for uninstalling WIA version 2.0 or later on a Windows 2000 or Windows XP machine. Procedures for uninstalling may differ slightly on different machines, but are generally self-explanatory. On any machine, users should be sure to uninstall through the control panel rather than by deleting the installation directory for the prior version; uninstalling by deleting the installation directory may cause problems with the subsequent installation.

- Click the Start button, then select Settings, Control Panel.
- Click on Add/Remove Programs.
- Click on the WIA icon. (Click on the DRVS icon to uninstall DRVS 5.1.)

II. INSTALLATION

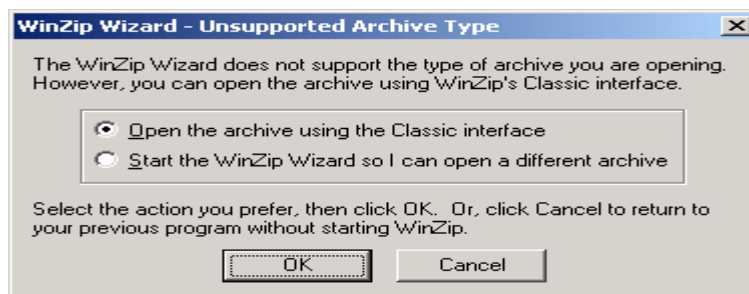

- Click on the Change/Remove button.
- On the Select Uninstall Method screen, select Automatic and then click on Next.
- On the Perform Rollback screen, click on No and then click on Next.
- On the Perform Uninstall screen click on Finish.
- If a Remove Shared Component message displays, click on Yes to All.
- Close the Add/Remove Programs window.

Users may need to contact their system administrator to uninstall the application.

Step 3—Download from the Internet

To download DRVS 5.2 from the Internet:

1. Open your Internet browser and go to www.uses.doleta.gov/performance/reporting/tools_datavalidation.cfm.
2. Click on the DRVS 5.2 link from the "In this section" side bar.
3. If a file download message displays, click on Save.
4. Select the location where you want to store the installation file. Suggestion: C:\Temp. Click on Save.
5. A dialog box will chart the progress of the download of the installation file. When the "Download Complete" message box appears, click on Open.
6. A "WinZip Wizard – Unsupported Archive Type" message box may display. Choose "Open the archive using the classic interface" and then click on OK.

II. INSTALLATION

7. Click on the DRVS.exe file and then click on **Extract** from the tool bar at the top of the WinZip application screen.
8. Select a location for the extraction of the zip file. C:\Temp is the default.
9. Click on the Extract button.
10. If a Confirm File Overwrite message displays, click Yes.
11. Close the WinZip window.

Step 4—Application Installation

Based on the size of the state's DRVS import file, either Microsoft SQL Server 2000 Desktop Engine (MSDE) or Microsoft SQL Server 2000 must be installed prior to installing the DRVS. MSDE is a free version of SQL Server that can be used with client applications. Users should go to <http://www.microsoft.com/sql/msde/default.mspx> for more information and to download MSDE. SQL Express (MSDE 2005) is not fully compatible with the DRVS.

If the user's estimated database size exceeds the MSDE limit, then Microsoft SQL Server will need to be installed prior to installing the DRVS. Users can find more information about SQL Server at <http://www.microsoft.com/sql/default.mspx>.

Users may need to contact their system administrator to install MSDE or SQL Server. Installation procedures may differ slightly on different machines, but are generally self-explanatory.

Before starting installation of the DRVS, close all applications and programs that are open.

1. Open Windows Explorer and go to C:\Temp (or wherever you stored the application files).
2. Double click on DRVS.exe.

II. INSTALLATION

3. If you haven't uninstalled prior versions of the DRVS, the DRVS will display a window asking if you would like to.

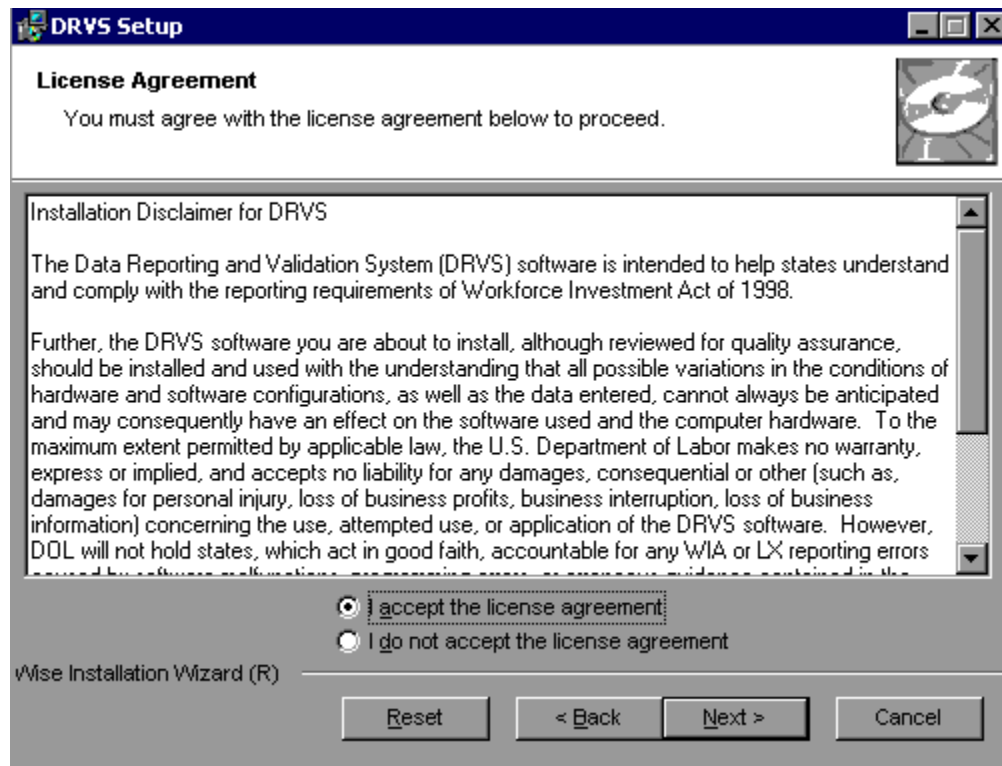

4. Click on Yes to automatically uninstall prior versions. A progress bar will show the status of the uninstall process.
5. At the Welcome to the DRVS Installation Wizard window click on Next. If you are installing the DRVS for the first time, you may be prompted to reboot prior to beginning the installation routine.

II. INSTALLATION

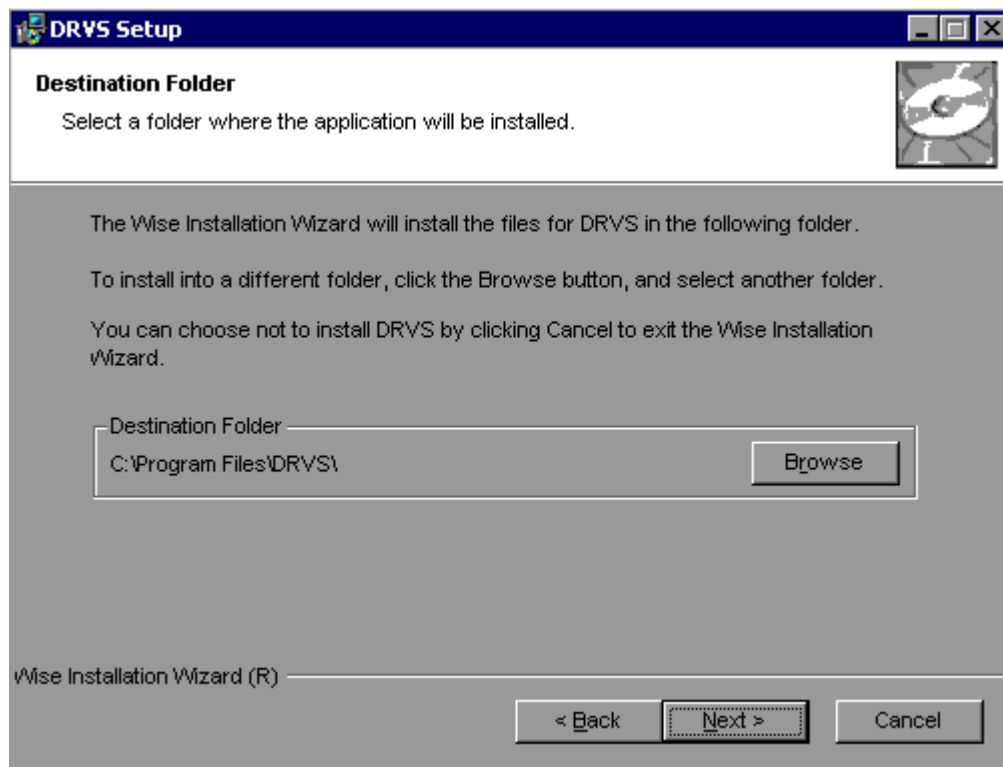

6. Read the License Agreement and, if you accept, click on the “I accept the license agreement” button.

7. Read the Readme Information screen and click on Next.
8. On the User Information screen, make any necessary modifications to the user information. Then click on Next.

II. INSTALLATION

9. On the Destination Folder screen, the destination location will default to C:\Program Files\DRVS.
10. If you prefer a different destination location, click on Browse on the Destination Folder screen to navigate to a different location. Click on Next.

11. In the “SQL Server Connection” window, enter your server name in the SQL Server Name box. If you did not name your database instance, your server name is “(local)”. If you don’t know the name of your database instance, contact your system administrator.

II. INSTALLATION

12. For Database Authentication, click on Windows NT Authentication. If you can't use Windows Authentication (e.g. Win 98 or ME users), click on SQL Authentication and complete the SQL User Name and SQL Password boxes. Click on Next.

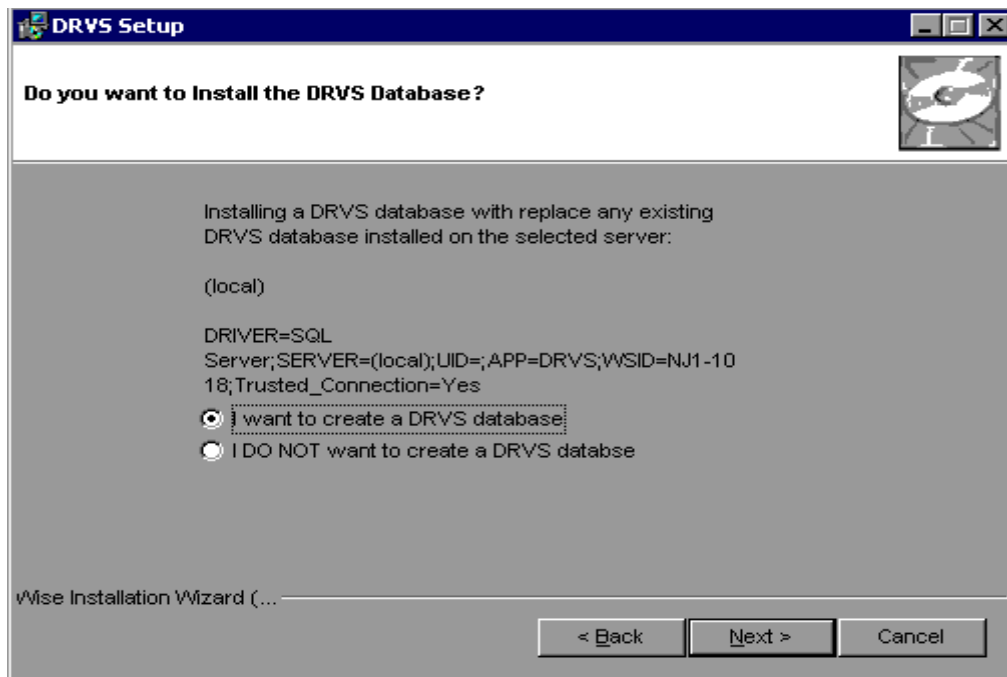

If the DRVS Installation Wizard does not progress beyond this point, the user must determine if an incorrect or inactive server name has been entered in the SQL Server Name field. If a name that does not match any of the state's servers is entered, there will be a delay or a failure to progress to the next screen.

If a name is entered that matches one of the servers, but the server is inactive, the Installation Wizard may also stop at this point. To find out if the server is active go to Start/Settings/Control Panel/Administrative Tools/Services. Microsoft SQL Server should be on the list of services and the task/service should be started. If it

II. INSTALLATION

is on the list but not started, start it and reboot. If it is not on the list, SQL Server was not installed. There should also be a SQL Service icon on the bottom part of your screen, on the desk tray as a little box with a green arrow or red square. The green arrow indicates the service is started and the red square indicates it is not. Right click on the icon to open the SQL Service manager, then start the service.

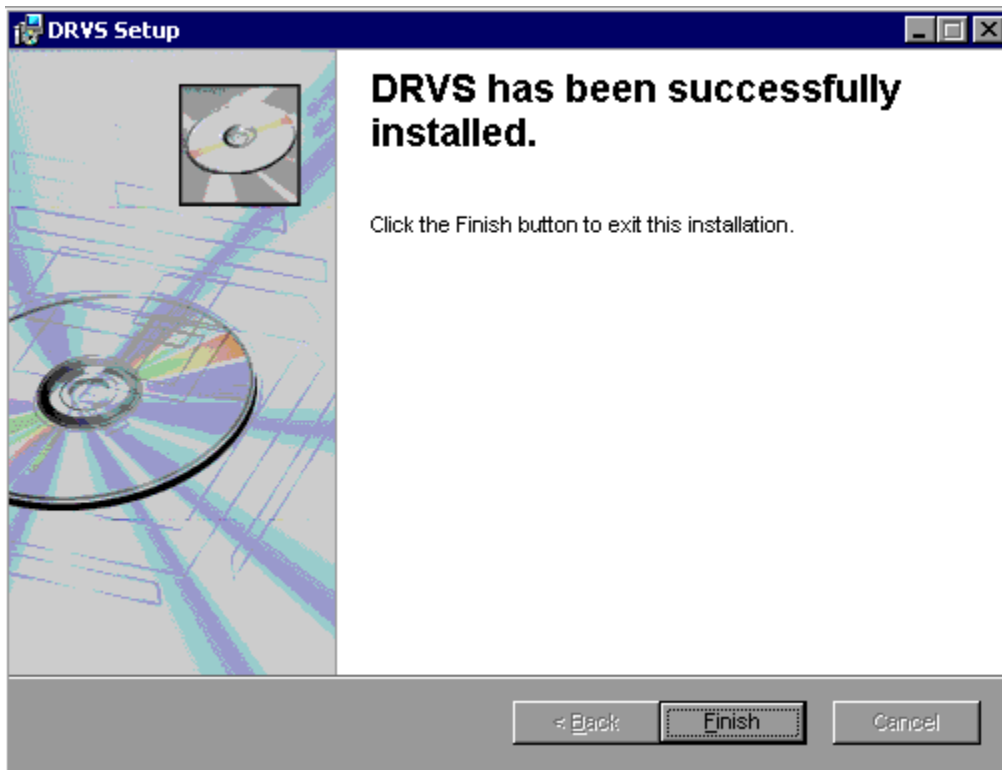

13. On the “Install the DRVS Database Screen” check “I want to create a DRVS database.” If the user selects “I DO NOT want to create a DRVS database,” the application will continue using the database from the prior version of DRVS, yielding results that appear valid but may not be.

14. Click on Next on the “Ready to Install the Application” screen. This screen also allows you to exit the installation wizard or, if necessary, to return to the previous screen to change server connection information.

II. INSTALLATION

15. The “Updating System” screen will display, showing installation progress. However, this screen may display for several minutes with no indication of progress.
16. Click on Finish on the “DRVS has been successfully installed.” screen to exit the DRVS Installation Wizard.

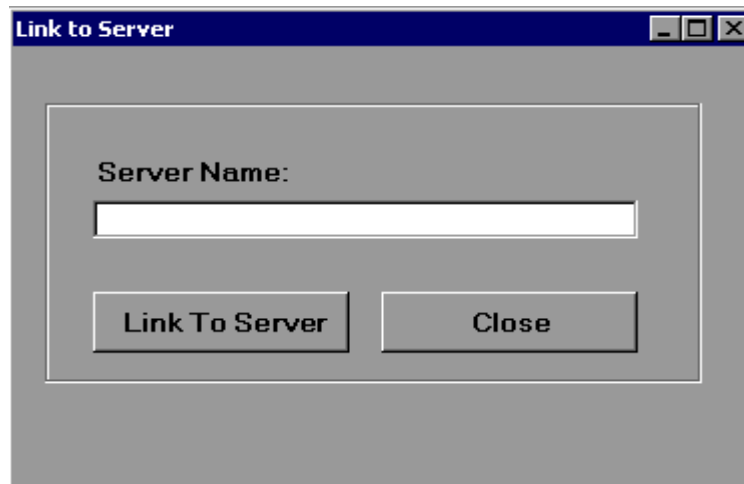

17. Reboot your computer after completing the DRVS installation. You may delete the DRVS.exe used to install the application once the installation process is successfully completed.
18. There are no further installation steps for a PC setup.

II. INSTALLATION

Step 5 – Client/Server Setup

To create a limited client/server setup, the DRVS must be installed on the network server (which must be the named server on the SQL Server Connection Screen). The DRVS must also be installed on the client PC. In addition to either an MSDE or SQL Server platform, the server must have Enterprise Manager. After the DRVS is installed on the client and server machines:

1. Use Enterprise Manager to add the client PC as a “dbowner” to all applicable databases.
2. The user should log in to the application as described in Chapter III. The user should then select the File menu, and the Link to Server function on that menu. In the Link to Server screen, enter the network server name that the client PC should link to, and click on the Link to Server button. Note that users on client PCs can view facsimile/error reports, export LERS formatted files, and export numerators and denominators. However, users on client PCs can not import files.

III. TUTORIAL

This chapter provides information on the various functions of the DRVS software. Users can navigate between functions using the menu bar at the top of the active DRVS window, or by using the side bar at the left of the active DRVS window. Following are brief summaries of each section of the tutorial.

A. Signing In

Section A describes how to open and sign in to the DRVS for specified reporting periods, and how to change reporting options.

B. Importing Records

Section B describes how to build and import files of participant records so the application can produce the ETA 9090 quarterly report. This section also describes how to access and review duplicate detection and error reports of records rejected by the DRVS during the import process.

C. Reporting

Section C describes how to access and review the ETA 9090 quarterly report facsimile, which can be used for data entering the quarterly report into EBSS to fulfill ETA's quarterly reporting requirements. This section also describes how to access and analyze records by performance outcome group and by the numerators and denominators of the performance measures.

D. Database Management

Section D describes how to create new databases to use with the DRVS, how to open existing databases, and how to save databases in alternate locations. This section also describes how to maintain database security.

III. TUTORIAL

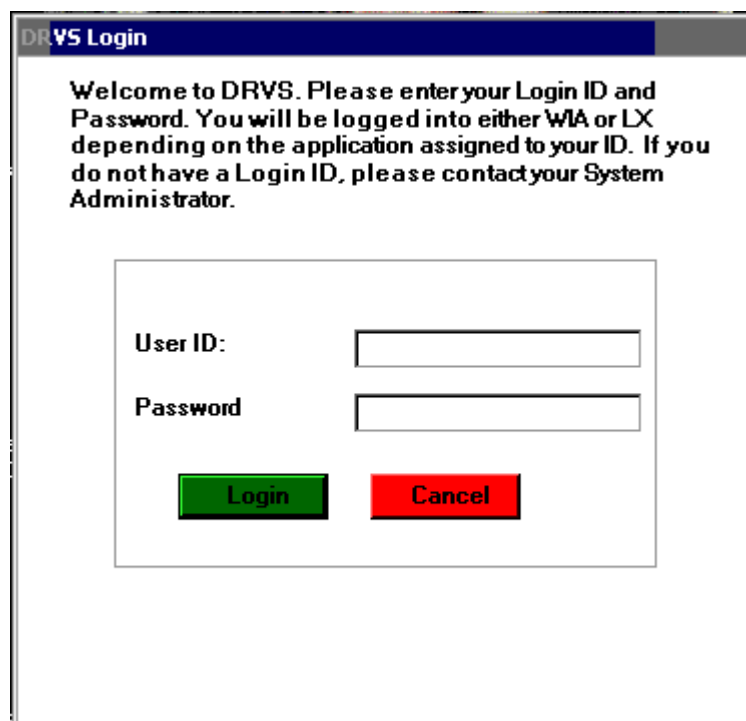

A. Signing In

Step 1—Opening the Application

The installation wizard places a **DRVS icon** on your desktop. Double click on the icon to open the application. Alternatively, click on the **Start** button, click on **Programs**, select **DRVS**, and click on the **DRVS icon** to open the application.

The DRVS Log In screen will display. This is your indication that the application has installed properly. Log on using the default User ID and Password: **WIAAdmin, WIAAdmin**. The User ID is not case sensitive, but the Password is case sensitive.

Click Login.

The screenshot shows a dialog box titled "DRVS Login". The text inside reads: "Welcome to DRVS. Please enter your Login ID and Password. You will be logged into either WIA or LX depending on the application assigned to your ID. If you do not have a Login ID, please contact your System Administrator." Below the text are two input fields: "User ID:" and "Password". At the bottom of the dialog box are two buttons: "Login" (green) and "Cancel" (red).

III. TUTORIAL

This default User ID and Password will provide access to the WIA component of the DRVS. For access to the LX component of the DRVS, the defaults are LXAdmin4, LXAdmin4. As described in the database management section of this chapter, the user may change his or her own password to ensure database security.

If the default User ID and Password are properly entered, but the DRVS generates a critical error with the message: “Object reference not set to an instance of an object”, then the user may have entered the wrong server name in the SQL Server Connection screen/SQL Server Name box during the installation. The Installation Wizard would have finished if any one of the state’s correct server names was entered in that field. However, if the appropriate server name for the DRVS installation was not entered, the problem would appear at log in. To correct the problem, uninstall the DRVS and then repeat the installation, ensuring that the correct server name is entered. The “Object reference not set to an instance of an object” error may also appear if the user does not have read/write access to the DRVS installation folder. The user must have these rights to log in to the DRVS.

Step 2—Reporting Options Screen

After the user logs in with an acceptable User ID and Password, the Reporting Options screen appears. The user should maximize the screen to ensure that all DRVS screens can be viewed in their entirety.

The Reporting Options screen provides several blank fields that the user must complete so that the DRVS will produce the correct quarterly ETA 9090 report.

- Click on Quarterly in the Report box to produce the ETA 9090. The DRVS 5.2 should be preset to Quarterly.
- Select the applicable State name from the drop down menu.
- Select the appropriate Program Year from the drop down menu.

III. TUTORIAL

- Select the report due date from the drop down menu labeled “Report Quarter Due.” The Program Start and End Date fields will automatically fill on the Participant Counts, Entered Employment, Exiters/Youth, and Retention and Earnings Rates tabs. The auto-filled dates are the participant and exiter cohort date ranges for the program year and report due date that were selected.

Report	
<input type="radio"/> Annual <input checked="" type="radio"/> Quarterly	Program Year: PY 2005 State: ALABAMA Report Quarter Due: 02/15 <input type="button" value="Refresh"/>
Participant Counts Entered Employment Exiters/Youth Retention & Earnings Rates Other	
Program Start Date 1/1/2005	Defaults Program Start Date 1/1/2005
Program End Date 12/31/2005	Program End Date 12/31/2005
<input type="button" value="Restore To Default"/>	
<input type="button" value="Save"/> <input type="button" value="Re-Calculate"/>	

III. TUTORIAL

After all options are selected, click on **Save**. “Reporting options saved successfully” will then appear in red type at the bottom left of the screen. The **Refresh** button resets the screen if the user makes a change. The **Clear All** button clears the screen of all dates, and the **Recalculate** button will recalculate the reported values based on changes in the Date Ranges on the Reporting Options screen.

The functionality to change other reporting options after the initial sign in will be provided in a future release. For example, the WIB name, case manager, office name, and two user field drop down menus are derived from the unique values in those fields in the import file. The functionality to select on these fields to create substate reports will be provided in a future release.

III. TUTORIAL

B. Importing Records

After signing in, states must import an extract file containing the participant and exiter records for all individuals included in the ETA 9090 quarterly report selected on the Reporting Options screen. See Appendix A for a reporting schedule which specifies the participant and exiter cohorts included on each quarterly 9090 report.

Step 1—Create a File Based on the Record Layout

The WIA participant record layout is in Appendix B of this User's Guide, together with the field level and cross-field edit checks. Users should also download the WIA conversion rules from http://www.doleta.gov/performance/reporting/reporting_requirements.cfm. This document cross-references each field on the current record layout to the corresponding field(s) on the record layout used prior to the DRVS. Both the Appendix B record layout and the conversion rules should be used in building the import file.

The extract file type is ASCII, comma-delimited. Files can be in *.txt or *.csv format, but *.dat or other file types are not accepted. Fields must be in the order listed on the record layout. Two hundred and three (203) fields are accepted by the application. If the exact number of fields or columns listed in the record layout is not included, all the records will be rejected.

The record layout is in the WIASRD format with the addition of six fields. The additional six fields are observation number at the beginning of the file, and WIB name, office name, case manager, and two user fields at the end of the file. The user fields are for any additional data (e.g. participant's name or SSN) that the state wishes to include.

The observation number (field 1), individual identifier (field 2), and date of program participation (field 34) are mandatory fields and, if left blank, will result in the record being rejected. The date of birth (field 3) is mandatory for youth records. Additionally, at least one of the funding stream classifications (fields 36-

III. TUTORIAL

38, 40, 42, and 44-45) must have a value that would enable the application to assign the records to a funding stream. If possible, states should include the participant's Social Security Number (SSN) as the individual identifier (field 2) or in one of the user fields, because SSNs are required to obtain wage records and to measure performance outcomes.

In addition, users should pay special attention to how their participant and exiter files are saved and resaved. There are two fields in the record layout that require two digit numerical codes—field 23/Highest School Grade Completed and field 61/Other Reasons for Exit—and some of the codes have lead zeros. Various file management programs (including .csv) may drop the lead zeros in these two fields as the files are saved and resaved. The DRVS will reject records when codes in these two fields are missing lead zeros. States can treat these two fields as text fields to preserve the lead zeros.

Several fields in the record layout relate to the participant's status as an eligible veteran (field 12), campaign veteran (field 13), disabled or special disabled veteran (field 14), and recently separated veteran (field 15). Appendix B details a number of edit checks that are applied to these fields to ensure that the veteran status data values are consistent within a participant record. If the participant is a campaign, disabled, special disabled, or recently separated veteran as indicated in fields 13 through 15, then the participant's record should have a code of 2=Yes, Eligible Veteran in field 12 even if the participant served in the military for 180 days or less.

Data Values in Post-Exit Fields

Regardless of the participant's exit and employment status, there must be consistency across the post-exit fields in the file. Appendix B details the numerous edit checks that are applied to the post-exit employed fields. These are summarized below.

There are four sequences of post-exit employed fields:

- 1st quarter after exit—fields 84, 85, 98

III. TUTORIAL

- 2nd quarter after exit—fields 89, 90, 99
- 3rd quarter after exit—fields 91, 92, 100
- 4th quarter after exit—fields 93, 94, 101

The first field in each sequence (84, 89, 91, 93) indicates the participant's employment status in the relevant quarter after the exit quarter. There must be a value of 1 (employed), 2 (not employed), or 3 (information not yet available) in each of these four fields. These fields cannot be left blank or the record will be rejected by the DRVS (except younger youth 2nd and 4th quarters after exit).

If the participant exited and was employed in a post-exit quarter, place a 1 in field 84, 89, 91, or 93 respectively. Place a 1, 2, 3, 4, or 5 as appropriate in the corresponding field 85, 90, 92, or 94 (type of employment match). If the type of employment match field has a value of 1, 2, 3, or 4, there should be wages greater than zero in field 98, 99, 100, or 101. If the type of employment match field has a value of 5, then the wages should be 0 or blank in field 98, 99, 100, or 101.

If the participant exited and was unemployed in a post-exit quarter, place a 2 in field 84, 89, 91, or 93 respectively. Place a 0 or blank in the corresponding field 85, 90, 92, or 94 (type of employment match). Place a 0 or blank in field 98, 99, 100, or 101 (wages).

If the participant exited so recently that employment status and wage data are not yet available, or if the participant has not yet exited, place a 3 in field 84, 89, 91, or 93 respectively. Place a 6 in the corresponding field 85, 90, 92, or 94 (type of employment match). Place 999999.99 in field 98, 99, 100, or 101 to indicate that wages are pending.

If the employed data in each sequence of post-exit quarters are not consistent as described above, the DRVS will reject the record.

In addition, if the participant exited and the post-exit fields indicate that employment status and wage data are not yet available, yet sufficient time has passed that these data should be available, the DRVS will change the data values to indicate that the participant was unemployed in the relevant post-exit quarter. A

III. TUTORIAL

warning message will be generated for each record where these data values have been changed.

Step 2—Load Extract Data

Once the data are formatted according to the record layout, click on Import on the menu bar and select Import File. The Load File to Database screen will appear.

The screenshot shows the 'Load File to Database' interface. At the top left is the Department of Labor seal, followed by the text 'Department of Labor' and 'Workforce Investment Act (WIA)'. To the right is a small image of a family. Below this is a horizontal line, and then the title 'Load File to Database'. The main content area contains a radio button selection box with 'Extract' selected and 'Reported' unselected. Below this is a file input field with a 'Browse' button to its right. At the bottom center is a 'Load File' button.

Click on Extract. DRVS 5.2 should be preset to Extract. Then select the file to be imported using the Browse button. Click Open and navigate to find the correct file. Click the Load File button when the correct file appears in the Browse box.

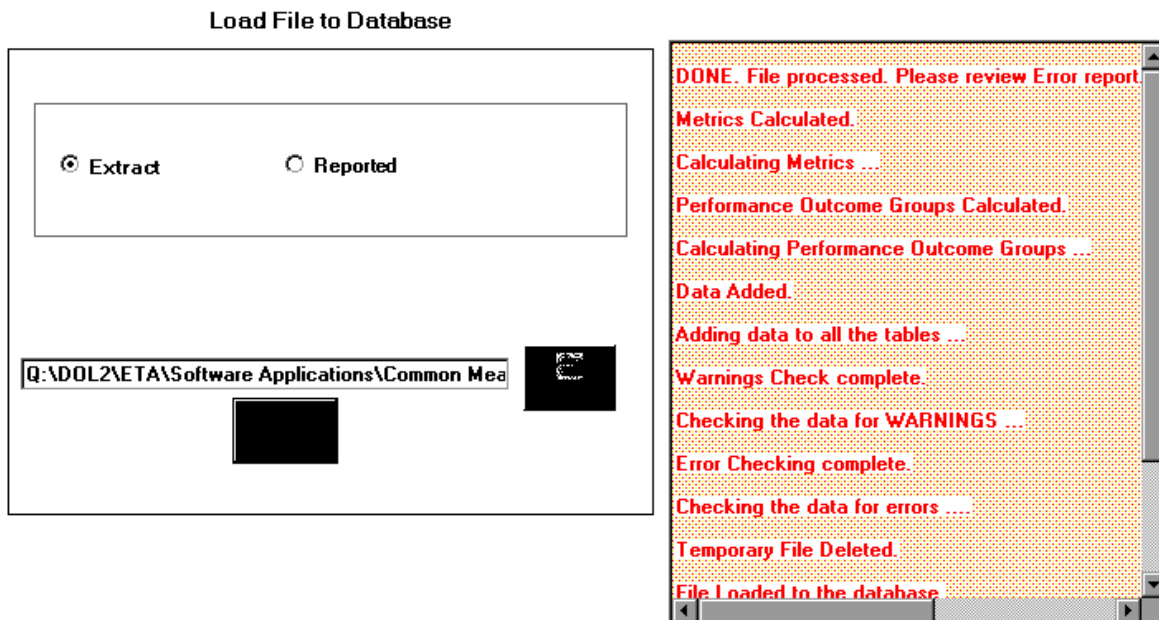

III. TUTORIAL

A message box will appear, asking users to confirm that reporting options have been set. Click on Yes if appropriate, or No to return to the Reporting Options screen.

To terminate the import process, click on the **X** in the upper right corner of the screen.

During import, the Load File to Database screen will display a progress bar and status messages. The status messages appear *from bottom to top*.

III. TUTORIAL

When the import is complete, the progress bar will disappear and the following message will appear at the top of the status message section: “DONE. File processed. Please review Error report.”

The file import time will vary based on system capabilities, the number of records in the extract file, and the density of the records. If the MSDE database has reached its maximum capacity, the software may generate a critical error.

Step 3—View Imported File

To view the imported file click on **Import** from the menu bar and select **View Source Table**. This is a read-only screen and records are displayed in the order in which they appeared in the import file. The source table displays all records that passed the import edit checks or received only “warning” errors. Rejected records are not displayed in the source table or included in any report calculations.

Users can sort on any column in the source table by clicking once on the relevant column header. Note however that the source table does not assume lead zeros because fields are recognized as text in the source table. So, for example, resorting on OBSNumber will cause records to appear out of order.

III. TUTORIAL

	OBSNumber	Individualden	DateOfBirth	Gender	DisabilityStat	Hispanic	NativeAmeric	Asian
▶	514	2514	19470728	1	2	2	(null)	(null)
	515	2515	19470728	1	2	2	(null)	(null)
	415	2415	19470728	1	2	2	(null)	(null)
	416	2416	19470728	1	2	2	(null)	(null)
	417	2417	19470728	1	2	2	(null)	(null)
	418	2418	19470728	1	2	2	(null)	(null)
	419	2419	19470728	1	2	2	(null)	(null)
	420	2420	19470728	1	2	2	(null)	(null)
	421	2421	19470728	1	2	2	(null)	(null)
	422	2422	19470728	1	2	2	(null)	(null)
	423	2423	19470728	1	2	2	(null)	(null)
	424	2424	19470728	1	2	2	(null)	(null)
	425	2425	19470728	1	2	2	(null)	(null)
	426	2426	19470728	1	2	2	(null)	(null)
	427	2427	19470728	1	2	2	(null)	(null)
	428	2428	19470728	1	2	2	(null)	(null)
	429	2429	19470728	1	2	2	(null)	(null)

Step 4—Review Error Reports

When the extract file is loaded, the application reads each record to ensure that all field values are valid based on the record layout and the edit check specifications in Appendix B of the User's Guide. The edit checks ensure that data are in the proper format, values are within the specified range of values, and data are consistent across fields. Duplicate records and any records with missing data in mandatory fields are rejected. Other types of data errors will generate warning messages.

Import Errors can be viewed by clicking **Import** from the menu bar and selecting **Import Errors Report**. The Import Errors report will display with a separate row for each error identified in the import file. Reject errors appear first, followed by warnings.

Up to 15,000 records with reject conditions and 50,000 records with warning conditions will be reported. If the number of errors in the file exceeds these limits,

III. TUTORIAL

the import will abort. Excessive errors may be indicated in the status messages if the processing stalls at the “Checking the data for errors” or “Checking the data for warnings” messages. Excessive errors may also be indicated by a critical error message. If the import aborts due to excessive errors, an error report is still produced and may be used to obtain information for correcting errors in the data. Additional errors will be reported on the next import of the file, as long as errors from the first import are corrected.

Import Errors Report

OBS Number	Individual Identifier	Field Name	Field Value	Error Description	Error Type
99	2099			A. No funding stream is specified.	Reject
100	2100			A. No funding stream is specified.	Reject
444	2444	GoalAttainment10		A-D. Error in Attainment of Goal field caused by one of the following conditions: - Attainment of Goal cannot be blank or 0 if Goal Type is specified. - Attainment of Goal must be blank or 0 if no Goal Type is specified.	Warning

Click on the **printer icon** at the top of the report to print a paper copy. Users will have the option to change the printer name, paper source and layout.

Click on the **envelope icon** to display an Export popup where users can select a name, format and location for the report. For example, the Error Report can be exported to an Excel file, so that the user can sort and organize the errors for analysis. This feature is very helpful when there are a large number of errors.

III. TUTORIAL

The Import Error report is not automatically saved to the DRVS install location folder. To save an error report, the user must export the error report using the envelope icon.

After reviewing error reports generated by the application, users should determine if the extract must be regenerated or reformatted and reloaded. Note that rejected records do not appear in the source table or in any report calculations.

However, records that receive warning errors are displayed in the source table and included in all report calculations. Because warning errors may indicate data problems that impact the calculations, users are strongly encouraged to review and correct warning errors in addition to rejected records. If only a small number of records are rejected, it may not be necessary to re-import the file.

Step 5—View Duplicates

This step allows the user to view the duplicate records identified and rejected by the application. No data entry is required; this option is for analytical purposes only. The duplicate detection criteria are specified in Appendix B as cross-field edit checks.

Click on **Import** from the menu bar and select **View Duplicates**.

A report will display the duplicate records from the import file. DRVS rejects records with duplicate observation numbers and records with the same Individual Identifier that have overlapping periods of program participation based on the Date of Program Participation and Date of Exit. If the user determines it is necessary to fix the import file, the duplicate records must be removed and the file reimported.

III. TUTORIAL

WIA Duplicate Records Report

OBS Number	Individual Identifier/SSN	WIA Participation Date	WIA Exit Date
1	201	20030101	20040131
2	201	20030101	20040131
3	202	20030101	20040731
4	202	20040101	20040331
5	203	20030101	20040131
6	203	20040101	20040430
7	204	20030101	20040131
8	204	20021001	20040101
9	205	20030101	20040131
10	205	20021001	20040331
11	206	20030101	20040131

Click on the **printer icon** at the top of the report to print a paper copy. Users will have the option to change the printer name, paper source and layout.

Click on the **envelope icon** to display an Export popup where users can select a name, format and location for the report. For example, the duplicates report can be exported to an Excel file, so that the user can sort on and organize the errors for analysis. This feature is very helpful when there are a large number of duplicates.

The Duplicate Detection report is not automatically saved to the DRVS install location folder. To save a duplicate detection report, the user must export the report using the envelope icon.

III. TUTORIAL

C. Reporting

The DRVS produces the ETA 9090 quarterly report from the WIASRD formatted import file of participants and exiters from the WIA program. Prior to submitting the ETA 9090 to ETA, states may analyze the ETA 9090 counts and performance rates by viewing the performance outcome groups and the numerators and denominators as described in steps 1 and 2 below.

Step 1—View Report Validation Table

This function allows the user to view the imported records assigned to the Adult, Dislocated Worker, NEG, Older Youth, Younger Youth, and Youth performance outcome groups. The performance outcome groups are specified in Appendix C of this user's guide. No data entry is required; this function is for analytical purposes only.

Click on Report Validation on the menu bar. Select View Validation Tables and then select the appropriate funding stream from the submenu: Adults, Dislocated Workers, NEG, Older Youth, Younger Youth, or Youth.

For all funding streams, the summary tabs show the total number of records and group characteristics for each performance outcome group. The Performance column on the summary tabs provides the group number corresponding to the performance outcome group numbers in Appendix C.

WIA Adult Performance Group Validation									
WIA Adult Subset Validation									
WIA Participant Detail									
	GroupID	Performance	NumberOfRe	DateOfExit	EmploymentS	EmpQtrPlus1	SourceOfEmp	EmpQtrPlus2	SourceOfEmp
▶	84	A-1(1)	87	10/31/2004	Yes	Yes	UI Wage Rec	Yes	UI Wage Rec
	85	A-1(2)	0	10/31/2004	Yes	Yes	UI Wage Rec	Yes	UI Wage Rec
	86	A-1(3)	4	10/31/2004	Yes	Yes	UI Wage Rec	Yes	UI Wage Rec
	87	A-1(4)	0	10/31/2004	Yes	Yes	UI Wage Rec	Yes	UI Wage Rec

III. TUTORIAL

Depending on the funding stream selected, two or three tabs will be displayed.

- Adult, Dislocated Worker, and Older Youth funding streams: three tabs will display. The tab on the left provides a summary of each entered employment, retention and earnings performance outcome group for the selected funding stream. The tab in the middle displays the performance outcome groups for the employment and credential measure. The tab on the right will display detailed records when the user selects an outcome group on the left or middle tabs.
- NEG funding stream: two tabs will display. The tab on the left provides a summary of each entered employment, retention and earnings NEG performance outcome group. The tab on the right will display detailed records when the user selects an NEG outcome group on the left tab.
- Younger Youth funding stream: three tabs will display. The tab on the left provides a summary of each diploma measure outcome group, the middle tab provides a summary of each retention measure outcome group, and the tab on the right will display detailed records for each outcome group selected from the left or middle tabs.
- Youth funding stream: three tabs will display. The tab on the left provides a summary of each placement and attainment measure outcome group, the middle tab provides a summary of each youth literacy and numeracy outcome group, and the tab on the right will display detailed records for each outcome group selected from the left or middle tabs.

III. TUTORIAL

For all funding streams, click on the far left column to highlight a performance outcome group row on the left or middle tabs. The detailed records for the highlighted group will then be displayed on the participant detail tab, which is always the right-most tab in this function.

WIA Adult Performance Group Validation		WIA Adult Subset Validation		WIA Participant Detail			
	Individual	DateOfBirth	GenderID	DisabilityStat	VeteranStatu	VeteranCamp	VeteranDisabl
▶	2009	7/28/1947	Male	No	No	No	No
	2104	7/28/1947	Male	No	No	No	No
	2105	7/28/1947	Male	No	No	No	No
	2106	7/28/1947	Male	No	No	No	No
	2107	7/28/1947	Male	No	No	No	No
	2208	7/28/1947	Male	No	No	No	No
	2208	7/28/1947	Male	No	No	No	No
	2209	7/28/1947	Male	No	No	No	No
	2209	7/28/1947	Male	No	No	No	No
	2210	7/28/1947	Male	No	No	No	No
	2210	7/28/1947	Male	No	No	No	No
	2211	7/28/1947	Male	No	No	No	No
	2211	7/28/1947	Male	No	No	No	No
	2222	7/28/1947	Male	No	No	No	No

The participant detail table can be sorted by clicking once on the header of the column to sort by. Note however that the table does not assume lead zeros because fields are recognized as text in the report validation table. So, for example, resorting on OBSNumber will cause records to appear out of order.

To increase the width of a column, click the mouse on the intersection of the relevant column heading and drag to the desired width.

The DRVS only assigns records to performance measure cohorts if sufficient time has passed for the state to determine the outcomes for the cohort. If sufficient time has passed and the record is still coded as pending, the application will change the status and assign the record accordingly. This default edit is specified in more detail in Appendix B.

III. TUTORIAL

It is important to note that if the user decides to change the report due date or program year after the file has been imported, and clicks on the Re-Calculate button, the counts displayed in each performance outcome group in the report validation table may not accurately reflect the report period selected. The user must change the program year or the report due date and then re-import the file to obtain the correct performance outcomes.

Step 2—Export Numerators, Denominators, and Counts

This function will create individual files of participant records (with the addition of age and performance outcome group at the end of each record) for the numerators and denominators of each core performance measure. These export files can be used for analytical purposes, or they can be used to generate files to match against wage records. The export file will retain the format of the participant/exiter import file. Functionality to create files of records included in the participant and exiter counts will be provided in a future release.

Click on Report Validation from the menu bar. Then click on Export Numerators, Denominators, and Counts. A message box will ask the user to confirm that the performance groups should be exported. Click on Yes to export.

The application will indicate when the files have been exported by displaying an Export Completed message that specifies the location in which the exported files have been saved. The export files are saved to a subfolder titled “Performance Groups Export” in the DRVS install location. If the DRVS is installed in the

III. TUTORIAL

Step 3—View Facsimiles

The Facsimile function displays the values generated by the DRVS in the format of the ETA 9090 report.

Click on **Report Validation** from the menu bar and select **Facsimiles**. The reports that are available on the Facsimile submenu depend on which report type was selected on the Sign In screen. Select Quarterly Report Form from the Facsimile submenu, as this is the only WIA report available in DRVS 5.2.

Sample Facsimile Report

WIA Quarterly Report (ETA Form 9090)

Report Due Date: 11/15/2005 OMB No. 1205-0420
 Report Quarter End Date: 09/30/2005 Expires: 09/30/2005
 State: AL

Quarterly Report Form - ETA 9090

Performance Items <i>(Time Period to Cumulate Performance Results)</i>	Program Group	Current Quarter (Most Recent)		Cumulative 4-Quarter Reporting Period	
		Value	$\frac{\text{Numerator}}{\text{Denominator}}$	Value	$\frac{\text{Numerator}}{\text{Denominator}}$
Total Participants (10/01/2004_09/30/2005)	Total Adult Participants	1	$\frac{\text{██████}}{\text{██████}}$	1	$\frac{\text{██████}}{\text{██████}}$
	Total Adults (self-services only)	0	$\frac{\text{██████}}{\text{██████}}$	0	$\frac{\text{██████}}{\text{██████}}$

The header of the facsimile indicates the pertinent information from the sign in screen including the type of report, the state name and the report due date. Users

III. TUTORIAL

may note that in DRVS 5.2, some of the facsimile header dates do not match the reporting period entered on the Reporting Options screen. This labeling error does not impact calculations and will be corrected in a future release, together with other facsimile formatting issues.

Click on the **printer icon** at the top of the report to print a paper copy. Users will have the option to change the printer name, paper source and layout.

Click on the **envelope icon** to display an Export popup where users can select a name, format and location for the report. For example, the facsimile report can be exported to a PDF.

The facsimile is not automatically saved by the software, so the user must export the facsimile report to retain it for future use.

The state can data enter the values from the ETA 9090 report facsimile onto ETA's Enterprise Business Support System (EBSS) to fulfill the state's quarterly ETA 9090 filing requirements. States should contact their regional office or the ETA performance website at www.doleta.gov/performance for more information about procedures for submitting quarterly reports.

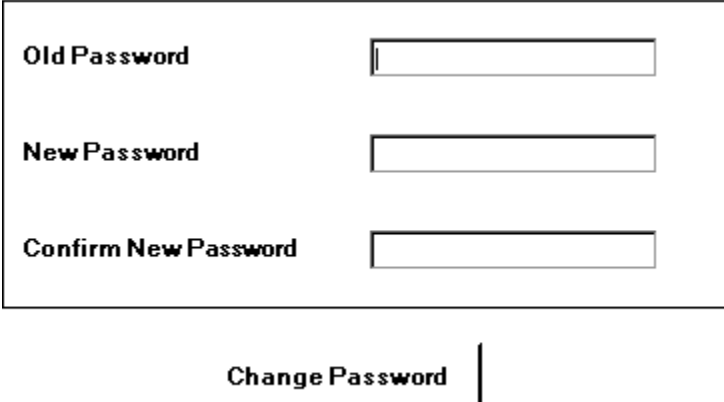

III. TUTORIAL

D. Database Management

When using DRVS for the first time, users are provided access using the default User ID and Password and a blank database (WIA.mdf) is automatically created. This section describes how the user can change his or her own password to maintain database security, and how to create additional databases, open existing databases, and save databases in alternate locations.

Step 1—Database Security

After the initial log in using the default User ID and Password, users can change their own password by selecting the Utilities menu and the Change Password submenu. In the Change Password window, the user should enter old and new passwords, and click on Change Password.

The image shows a dialog box for changing a password. It has three text input fields stacked vertically. The first field is labeled 'Old Password', the second 'New Password', and the third 'Confirm New Password'. Below these fields is a button labeled 'Change Password'.

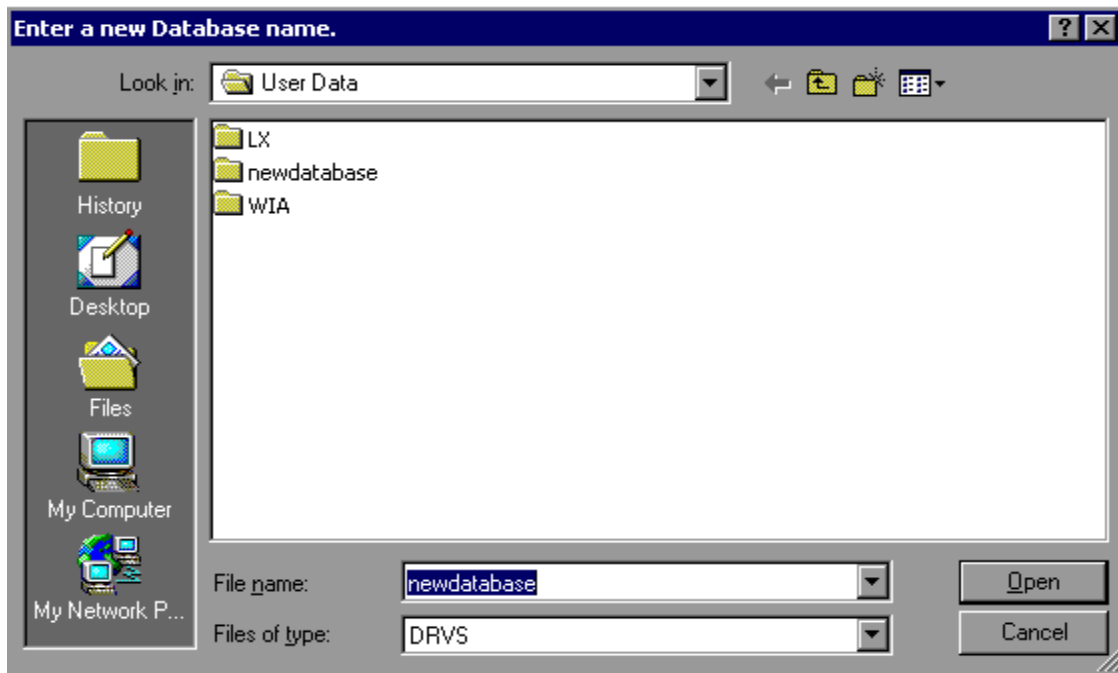

Future versions of the DRVS will allow database administrators to set up and modify multiple DRVS user profiles, each with a unique User ID and Password and access to specified databases.

III. TUTORIAL

Step 2—Create a New Database

To create a new database, go to the File menu and select **New DB**. This opens the Enter a New Database Name dialog box where you can create a new DRVS database in the User Data folder. Type in the name of your new database in the File Name field. Database names must start with a letter, although numbers can be included in the name. Database names cannot include spaces or non-alphanumeric symbols. The DRVS blocks data entry of invalid database names.

Click on Open.

A message box will appear indicating that the new database was successfully created. Click OK.

III. TUTORIAL

The DRVS Login box will display. Enter your User ID and Password (or the default User ID and Password) and click on Login. The new database name should display in the footer of the application screen. If it does not, check the source table to confirm that you are in the new database. The new database will be created in the User Data subfolder of the DRVS install location (default install location is C:\Program Files\DRVS).

Step 3—Open An Existing Database

The DRVS will automatically default to the database you were using the last time you logged out of the application. That database name is displayed in the bottom left footer of the application screen. To open a different database, go to the File menu and select **Open DB**. This opens a dialog box where you can select an existing database to open from the drop down menu.

III. TUTORIAL

Click on the drop down menu to access the list of databases that can be selected. Choose a database and then click on the open database button on the left of this screen. Click on the X button to exit this function and return to the existing database.

Click on the open folder button. The following message will display.

Click OK. The Login box will then display. Enter your User ID and Password and click Login. You will now be in the selected database. The new database name should display in the footer of the application screen. If it does not, check the source table to confirm that you are in the new database.

The open database functionality may be helpful if you:

- Have archived prior quarterly file imports but still want to easily access them through the application.
- Have split the import file into two databases to keep the size manageable in large states.

III. TUTORIAL

Step 4—Save a Database

To save an existing database go to the File menu and select **Save As**. This opens the Save As dialog box where you can save a database and give the database a new name or location.

Enter the new file name for the database and then click on Save. A message box will indicate that the newly named database was successfully saved. Click OK.

The DRVS Login box will display. Enter your User ID and Password and click on Login. The new database name should display in the footer of the application screen. If it does not, check the source table to confirm that you are in the new database. The newly named database will be saved in the User Data subfolder of the DRVS install location (default install location is C:\Program Files\DRVS).

IV. REFERENCE GUIDE

This chapter of the User's Guide provides a condensed list of all the application menus and functions for quick reference.

A. File Menu

Options in this menu include:

1. **New DB** – Opens a dialog box where users can create a new database.
2. **Open DB** – Opens a dialog box where users can select another database to open.
3. **Save As** - Opens a dialog box where users can save a database or file and give the database a new name.
4. **Link to Server**—Opens a window where users can enter the network server name that the client PC should link to, for a limited client/server setup.
5. **e-Submit** – This function will be provided in a future release.
6. **Exit** - Select this to exit the DRVS.

IV. REFERENCE GUIDE

B. Import Menu

Options in this menu include:

1. **Import File**—Select this option to import data into the application. See the source table record layout for the appropriate data record format.
2. **Re-Sample After Import**—This function will be provided in a future release.
3. **Skip Sampling After Import**—This function will be provided in a future release.
4. **View Duplicates**—This selection displays a report that lists the duplicate records identified and rejected by the DRVS when importing the extract file.
5. **View Source Table**—This selection displays all of the records from the extract file that were successfully imported by the DRVS.
6. **Source Table Record Layout**—This selection will be available in a future release. It will display the record layout to be used in developing the state's extract file. The record layout can currently be found in Appendix B of this User's Guide.
7. **Reported Values Record Layout**—This function will be provided in a future release.
8. **Quarterly/Reported Values Record Layout**—This function will be provided in a future release.

IV. REFERENCE GUIDE

- 9. Import Errors Report**—This selection displays the Import Errors Report displaying the field level and cross-field edit check errors. Appendix B includes the import error messages for each edit check.

C. Reporting Options Menu

The only option in this menu is **Change**. This selection opens an expanded version of the Reporting Options screen that allows the user to change the program year, report quarter, due date, state postal abbreviation, program year start and end dates, and to select subsets of participant records for analytical and management purposes. The functionality to change reporting options to generate local level or other substate reports will be provided in a future release.

D. Report Validation Menu

Options in this menu are:

1. View Validation Tables

This selection provides a window to view a summary of each performance outcome group. Highlight a performance outcome group row to view the detailed records for that group.

- 2. Report Validation**—This function will be provided in a future release.

3. Export Numerators, Denominators, and Counts

This selection creates an export file for the numerator and denominator of each performance measure. These export files are saved to the installation directory, and can be used for analyzing the state's performance. Functionality to export participant and exit counts will be included in a future version of the DRVS.

IV. REFERENCE GUIDE

4. **Export Validation Counts**—This function will be provided in a future release.
5. **Facsimiles**— The Facsimile selection produces the quarterly report in the format of the ETA 9090 report.

E. Admin Menu

1. **Add User**—This function will be provided in a future release.
2. **De-Activate User**—This function will be provided in a future release.
3. **Delete User**—This function will be provided in a future release.

F. Utilities Menu

The only function in this menu is **Change Password**. This allows the user to change his or her own password.

IV. REFERENCE GUIDE

G. Help Menu

Options in this menu include:

WIA User's Guide—This feature provides the DRVS 5.0 version of this user's guide on-line.

Contacts—This feature provides contact information for users who would like additional assistance using the application. For questions on installing the software, WIA data files, or performance reports users should e-mail WIATA@mathematica-mpr.com by clicking on the email link. Specify the version of the application being used, the question, and the user's contact information.

About—This feature provides the application version number and version release date for the application.

APPENDIX A. REPORTING SCHEDULE

The following tables provide the program participation and exit date ranges for each quarterly report for program years 2005 through 2007.

Reporting Item	Time Periods to Be Reported Program Year 2005			
	July - Sept.	Oct. - Dec.	Jan. - Mar.	Apr - June
	Report Due Date	14-Nov-05	14-Feb-06	15-May-06
Total Participants	10/1/04 to 09/30/05	01/01/05 to 12/31/05	04/01/05 to 03/31/06	07/1/05 to 06/30/06
Total Exiters	07/01/04 to 06/30/05	10/1/04 to 09/30/05	01/01/05 to 12/31/05	04/1/05 to 03/31/06
Placement in Employment or Education	01/01/04 to 12/31/04	04/01/04 to 03/31/05	07/01/04 to 06/30/05	10/1/04 to 09/30/05
Attainment of Degree or Certificate	01/01/04 to 12/31/04	04/01/04 to 03/31/05	07/01/04 to 06/30/05	10/1/04 to 09/30/05
Literacy and Numeracy Gains State Reporting Option #1	07/01/05 to 09/30/05 ⁽¹⁾	07/01/05 to 12/31/05 ⁽¹⁾	07/01/05 to 03/31/06 ⁽¹⁾	07/01/05 to 06/30/06 ⁽¹⁾
Literacy and Numeracy Gains State Reporting Option #2	State Data Collection and Reporting Begins July 1, 2006			
Skill Attainment Rate	07/01/04 to 06/30/05	10/1/04 to 09/30/05	01/01/05 to 12/31/05	04/1/05 to 03/31/06
Youth Diploma or Equivalent Rate	07/01/04 to 06/30/05	10/1/04 to 09/30/05	01/01/05 to 12/31/05	04/1/05 to 03/31/06
Entered Employment Rate	01/01/04 to 12/31/04	04/01/04 to 03/31/05	07/01/04 to 06/30/05	10/1/04 to 09/30/05
Employment and Credential Rates	01/01/04 to 12/31/04	04/01/04 to 03/31/05	07/01/04 to 06/30/05	10/1/04 to 09/30/05
Employment Retention Rate	07/1/03 to 06/30/04	10/01/03 to 09/30/04	01/01/04 to 12/31/04	04/1/04 to 03/31/05
Six Months Earnings Increase	07/1/03 to 06/30/04	10/01/03 to 09/30/04	01/01/04 to 12/31/04	04/1/04 to 03/31/05

Additional Notes:

(1) Only partial data will be available. Indicates the reporting schedule for states that begin implementing the Literacy and Numeracy Gains common measure on July 1, 2005. Only partial data will be available during the program year for youth who begin participation in the program during PY 2005. States report outcomes as they become available during the year.

Note: For Skill Attainment, the date ranges apply to dates of measurable outcomes (i.e., goal attainment dates, exit dates, or one-year anniversary dates). For Literacy and Numeracy Gains, only participants with Dates of First Youth Service in the date range who have achieved a measurable outcome will be included in the measure.

APPENDIX A. REPORTING SCHEDULE

Reporting Item	Time Periods to Be Reported Program Year 2006			
	Report Quarter	July - Sept.	Oct. - Dec.	Jan. - Mar.
Report Due Date	14-Nov-06	14-Feb-07	15-May-07	14-Aug-07
Total Participants	10/1/05 to 09/30/06	01/01/06 to 12/31/06	04/01/06 to 03/31/07	07/1/06 to 06/30/07
Total Exiters	07/01/05 to 06/30/06	10/1/05 to 09/30/06	01/01/06 to 12/31/06	04/1/06 to 03/31/07
Placement in Employment or Education	01/01/05 to 12/31/05	04/01/05 to 03/31/06	07/01/05 to 06/30/06	10/1/05 to 09/30/06
Attainment of Degree or Certificate	01/01/05 to 12/31/05	04/01/05 to 03/31/06	07/01/05 to 06/30/06	10/1/05 to 09/30/06
Literacy and Numeracy Gains State Reporting Option #1	07/01/05 to 06/30/06 ⁽²⁾	07/01/05 to 06/30/06 ⁽²⁾	07/01/05 to 06/30/06 ⁽²⁾	07/01/05 to 06/30/06
Literacy and Numeracy Gains State Reporting Option #2	07/01/06 to 09/30/06 ⁽³⁾	07/01/06 to 12/31/06 ⁽³⁾	07/01/06 to 03/31/07 ⁽³⁾	07/01/06 to 06/30/07 ⁽³⁾
Skill Attainment Rate	07/01/05 to 06/30/06	10/1/05 to 09/30/06	01/01/06 to 12/31/06	04/1/06 to 03/31/07
Youth Diploma or Equivalent Rate	07/01/05 to 06/30/06	10/1/05 to 09/30/06	01/01/06 to 12/31/06	04/1/06 to 03/31/07
Entered Employment Rate	01/01/05 to 12/31/05	04/01/05 to 03/31/06	07/01/05 to 06/30/06	10/1/05 to 09/30/06
Employment and Credential Rates	01/01/05 to 12/31/05	04/01/05 to 03/31/06	07/01/05 to 06/30/06	10/1/05 to 09/30/06
Employment Retention Rate	07/1/04 to 06/30/05	10/01/04 to 09/30/05	01/01/05 to 12/31/05	04/1/05 to 03/31/06
Six Months Earnings Increase	07/1/04 to 06/30/05	10/01/04 to 09/30/05	01/01/05 to 12/31/05	04/1/05 to 03/31/06

Additional Notes:

(2) Only partial data will continue to be reported. Because it takes five calendar quarters for full data to become available on any quarterly youth participant cohort, the reporting schedule reflects the Department's expectation that full outcomes data on youth participants enrolled between July 1, 2005 and June 30, 2006 will be reported on the August 2007 quarterly report.

(3) Only partial data will be available. Indicates the reporting schedule for states that begin implementing the Literacy and Numeracy Gains common measure on July 1, 2006. Only partial data will be available on the quarterly reports for youth who begin participation in the program during PY2006. States report outcomes as they become available.

APPENDIX A. REPORTING SCHEDULE

Reporting Item	Time Periods to Be Reported Program Year 2007			
	July - Sept.	Oct. - Dec.	Jan. - Mar.	Apr - June
Report Due Date	14-Nov-07	14-Feb-08	15-May-08	14-Aug-08
Total Participants	10/1/06 to 09/30/07	01/01/07 to 12/31/07	04/01/07 to 03/31/08	07/1/07 to 06/30/08
Total Exiters	07/01/06 to 06/30/07	10/1/06 to 09/30/07	01/01/07 to 12/31/07	04/1/07 to 03/31/08
Placement in Employment or Education	01/01/06 to 12/31/06	04/01/06 to 03/31/07	07/01/06 to 06/30/07	10/1/06 to 09/30/07
Attainment of Degree or Certificate	01/01/06 to 12/31/06	04/01/06 to 03/31/07	07/01/06 to 06/30/07	10/1/06 to 09/30/07

Additional Notes:

(4) Only partial data will continue to be reported. Because it takes five calendar quarters for full data to become available on any quarterly youth participant cohort, the reporting schedule reflects the Department's expectation that full outcomes data on youth participants enrolled between July 1, 2006 and June 30, 2007 will be reported on the August 2008 quarterly report. This will be the first quarterly report in which the youth reporting cohorts will be aligned for states who choose either reporting option #1 or #2.

APPENDIX B. RECORD LAYOUT AND EDITS

The following table lists the field number, field name, valid values, edit checks, and error messages for every field in the DRVS record layout. The functionality to view record layouts through the software by selecting Import/ Source Table Record Layout will be provided in a future release. See Chapter III for detailed instructions for preparing the import file using the record layout. Also see Appendix A for the reporting schedule and the date ranges of participants and exiters to be included in each quarterly import file.

Data Reporting and Validation Software (DRVS) Release 5.0

WORKFORCE INVESTMENT ACT PROGRAMS
Import File Specifications & Edit Checks

IMPORTANT NOTE: This document contains data element specifications and edit checks that will be used to support implementation of the Employment and Training Administration's (ETA) Data Reporting and Validation Software (DRVS) Release 5.0 for WIA Adult, Dislocated Worker (including NEGs), and Youth programs. DRVS for WIA programs is being upgraded to support state implementation of common performance measures and other revised reporting requirements approved by the United States Office of Management and Budget (OMB) beginning PY2005. A crosswalk of the data element numbers, where applicable, from the old WIASRD to the new WIASRD format is also provided. Some of the old WIASRD elements have been eliminated from the WIA program reporting system and are not displayed.

New DRVS Release 5.0 Field No.	New WIASRD No.	Data Element Name	Edit Checks - Valid Values <i>(DRVS will identify invalid codes and display, where appropriate, warning errors for each field.)</i>	Additional Edit Checks	Error Type	ERROR MESSAGES
--------------------------------	----------------	-------------------	--	------------------------	------------	----------------

Additional Global Edit Rules

		Duplicate Record Detection Logic		<p>A. If multiple records have the same Individual Identifier (WIASRD 101), then no record can have a Date of Program Participation (WIASRD 302) or a Date of Exit (WIASRD 303) between the Date of Program Participation and the Date of Exit.</p> <p>B. If multiple records have the same Individual Identifier (WIASRD 101), then no record can have a Date of Program Participation (WIASRD 302) or a Date of Exit (WIASRD 303) between the Date of Program Participation and the Date of Exit plus 90 days (inclusive) of any other record with the same Individual Identifier.</p> <p>Important Note: Edit check B will become effective for all participants who exit on or after July 1, 2006.</p> <p>C. If multiple records have the same Individual Identifier, then only the record with the most recent Date of Program Participation can have a blank Date of Exit.</p>	Reject	
		Required Program Funding Stream Edit Logic		<p>A. WIASRD 304 (Adult (local formula)) must be 1 or WIASRD 305 (Dislocated Worker (local formula)) must be 1 or WIASRD 306 (Date of First Youth Service) must have a valid date or WIASRD 308 (Dislocated Worker (Statewide 15% Activities)) must be 1 or WIASRD 310 (Adult (Statewide 15% Activities)) must be 1 or WIASRD 312 (Rapid Response (Additional Assistance)) must be 1 or WIASRD 313a (NEG Project ID) must not be null.</p>	Reject	A. No funding stream is specified.
		Required Services Received Edit Logic Note: To be added in DRVS 6.0		<p>A. [WIASRD 331 (Received Core Self-Services and Informational Activities) must be 1 or WIASRD 332 (Date of First Staff Assisted Core Service) must not be null or WIASRD 334 (Date of First Intensive Service) must not be null or WIASRD 335 (Date Entered Training) must not be null] if [WIASRD 304 (Adult (local formula)) = 1 or WIASRD 305 (Dislocated Worker (local formula)) = 1 or WIASRD 308 (Dislocated Worker (Statewide 15% Activities)) = 1 or WIASRD 310 (Adult (Statewide 15% Activities)) = 1 or WIASRD 312 (Rapid Response (Additional Assistance)) = 1].</p> <p>B. [WIASRD 330 (Received Disaster Relief Assistance) must be 1 or WIASRD 331 (Received Core Self-Services and Informational Activities) must be 1 or WIASRD 332 (Date of First Staff Assisted Core Service) must not be null or WIASRD 334 (Date of First Intensive Service) must not be null or WIASRD 335 (Date Entered Training) must not be null] if WIASRD 313a (NEG Project ID) is not null.</p> <p>C. [WIASRD 333 (Received Workforce Information Services) must be 1 or WIASRD 343 (Enrolled in Education) must be 1 or WIASRD 344 (Received Educational Achievement Services) must be 1 or WIASRD 345 (Received Employment Services) must be 1 or WIASRD 346 (Received Summer Employment Opportunities) must be 1 or WIASRD 347 (Received Additional Support for Youth Services) must be 1 or WIASRD 348 (Received Leadership Development Opportunities) must be 1] if WIASRD 306 (Date of First Youth Service) is not null.</p>	Reject	

Data Reporting and Validation Software (DRVS) Release 5.0

WORKFORCE INVESTMENT ACT PROGRAMS
Import File Specifications & Edit Checks

IMPORTANT NOTE: This document contains data element specifications and edit checks that will be used to support implementation of the Employment and Training Administration's (ETA) Data Reporting and Validation Software (DRVS) Release 5.0 for WIA Adult, Dislocated Worker (including NEGs), and Youth programs. DRVS for WIA programs is being upgraded to support state implementation of common performance measures and other revised reporting requirements approved by the United States Office of Management and Budget (OMB) beginning PY2005. A crosswalk of the data element numbers, where applicable, from the old WIASRD to the new WIASRD format is also provided. Some of the old WIASRD elements have been eliminated from the WIA program reporting system and are not displayed.

New DRVS Release 5.0 Field No.	New WIASRD No.	Data Element Name	Edit Checks - Valid Values <i>(DRVS will identify invalid codes and display, where appropriate, warning errors for each field.)</i>	Additional Edit Checks	Error Type	ERROR MESSAGES
		Age Edits for Youth and Non-Youth Funding Streams		<p>A. Age for youth funding stream (calculated at the Date of First Youth Service WIASRD 306) cannot be <14 or >21 if WIASRD 306 has a valid date.</p> <p>B. Age cannot be <14 or >100 if WIASRD 306 is null and Date of Birth (WIASRD Element 102) is not null.</p>	<p>A. Reject</p> <p>B. Warning</p>	<p>A. Participant identified as being served by youth funds is not between 14 and 21 years of age on date of first youth service.</p> <p>B. Invalid age - Participant cannot be younger than 14 or older than 100 years old at participation.</p>
		Edit Check for Employed, Type of Employment Match, and Wages -- 1st Quarter After Exit Quarter		<p>A. If WIASRD 601 (Employed in 1st Quarter After Exit Quarter) is 3 and WIASRD 602 (Type of Employment Match 1st Quarter After Exit Quarter) is 6 and WIASRD 615 (Wages 1st Quarter After Exit Quarter) is 999999.99 and the report quarter is 3 or more quarters after the exit quarter, then change WIASRD 601 to 2, WIASRD 602 to 0, and WIASRD 615 to 0.</p>	Default Warning	<p>A. Employment, Type of Employment Match, and Wages 1st Quarter After Exit Quarter cannot be pending when the report quarter is 3 or more quarters after the exit quarter. Values for these fields have been changed to Unemployed.</p>
		Edit Check for Employed, Type of Employment Match, and Wages -- 2nd Quarter After Exit Quarter		<p>A. If WIASRD 606 (Employed in 2nd Quarter After Exit Quarter) is 3 and WIASRD 607 (Type of Employment Match 2nd Quarter After Exit Quarter) is 6 and WIASRD 616 (Wages 2nd Quarter After Exit Quarter) is 999999.99 and the report quarter is 4 or more quarters after the exit quarter, then change WIASRD 606 to 2, WIASRD 607 to 0, and WIASRD 616 to 0.</p>	Default Warning	<p>A. Employment, Type of Employment Match, and Wages 2nd Quarter After Exit Quarter cannot be pending when the report quarter is 4 or more quarters after the exit quarter. Values for these fields have been changed to Unemployed.</p>
		Edit Check for Employed, Type of Employment Match, and Wages -- 3rd Quarter After Exit Quarter		<p>A. If WIASRD 608 (Employed in 3rd Quarter After Exit Quarter) is 3 and WIASRD 609 (Type of Employment Match 3rd Quarter After Exit Quarter) is 6 and WIASRD 617 (Wages 3rd Quarter After Exit Quarter) is 999999.99 and the report quarter is 5 or more quarters after the exit quarter, then change WIASRD 608 to 2, WIASRD 609 to 0, and WIASRD 617 to 0.</p>	Default Warning	<p>A. Employment, Type of Employment Match, and Wages 3rd Quarter After Exit Quarter cannot be pending when the report quarter is 5 or more quarters after the exit quarter. Values for these fields have been changed to Unemployed.</p>
		Edit Check for Employed, Type of Employment Match, and Wages -- 4th Quarter After Exit Quarter		<p>A. If WIASRD 610 (Employed in 4th Quarter After Exit Quarter) is 3 and WIASRD 611 (Type of Employment Match 4th Quarter After Exit Quarter) is 6 and WIASRD 618 (Wages 4th Quarter After Exit Quarter) is 999999.99 and the report quarter is 6 or more quarters after the exit quarter, then change WIASRD 610 to 2, WIASRD 611 to 0, and WIASRD 618 to 0.</p>	Default Warning	<p>A. Employment, Type of Employment Match, and Wages 4th Quarter After Exit Quarter cannot be pending when the report quarter is 6 or more quarters after the exit quarter. Values for these fields have been changed to Unemployed.</p>

SECTION II - PROGRAM ACTIVITIES AND SERVICES INFORMATION

SECTION II.A - PROGRAM PARTICIPATION DATA

33	301	ETA-Assigned Local Board/Statewide Code	000000	A. The last digit of the ETA-assigned Local Board/Statewide code must end in a 0 or 5 if funded with local Adult, Dislocated Worker or Youth funds (WIASRD 304 = 1, WIASRD 305 = 1, or (WIASRD 306 = valid date and WIASRD 307 [Youth/Statewide 15% Activities]) = 2 or 3). B. Cannot have the last three digits end in 000. C. The last three digits of the ETA-assigned Local Board/Statewide code must end in 903 if funded with statewide (15%) Youth, statewide (15%) Dislocated Worker, or statewide (15%) Adult (WIASRD 307 = 1, WIASRD 308 = 1, or WIASRD 310 = 1) but not local funds--WIASRD 304 [Adult (Local)] # 1, WIASRD 305 [Dislocated Worker (Local)] # 1, and (WIASRD 306 (Date of First Youth Service) is not null and WIASRD 307 [Youth/Statewide 15% Activities]) = 1). D. The last three digits of the ETA-assigned Local Board/Statewide code must end in 901 if funded by National Emergency Grant (WIASRD 313a, 313b, or 313c has a valid four-digit number) but not local or statewide funds--WIASRD 304 [Adult (Local)] # 1, WIASRD 305 [Dislocated Worker (Local)] # 1, and WIASRD 306 (Date of First Youth Service) is null, WIASRD 308 [Dislocated Worker (Statewide (15%) Activities)] # 1, WIASRD 309 [Incumbent Worker (Statewide (15%) Activities)] # 1, and WIASRD 310 [Adult (Statewide (15%) Activities)] # 1. E. The last three digits of the ETA-assigned Local Board/Statewide code must end in 902 if funded with Rapid Response (WIASRD 311 = 1) or Rapid Response (Additional Assistance) (WIASRD 312 = 1), but not local, statewide, or national emergency grants--WIASRD 304 [Adult (Local)] # 1, WIASRD 305 [Dislocated Worker (Local)] # 1, and WIASRD 306 (Date of First Youth Service) is null. F. Must be greater than 1000.	Warning	A-F. The ETA-assigned Local Board/Statewide code is invalid or does not correspond to the funding stream indicated for the participant.
34	302	Date of Program Participation	YYYYMMDD	A. Mandatory field in DRVS version 5.0.	Reject	A. Date of Program Participation is missing or invalid.
35	303	Date of Exit	YYYYMMDD Blank = has not exited	A. Must be blank or greater than or equal to WIASRD 302 (Date of Program Participation). B. Must be a valid date if WIASRD 327 (Other Reasons for Exit) is 01, 02, 03, 04, 05, or 06.	Reject	A-B. Date of Exit must be greater than or equal to the Date of Program Participation, and cannot be blank if Other Reasons for Exit is 01 - 06.

SECTION III.C - EDUCATION, CREDENTIAL, AND SKILL ATTAINMENT DATA							
102	619	Type of Recognized Credential	1 = High School Diploma/GED 2 = AA or AS Diploma/Degree 3 = BA or BS Diploma/Degree 4 = Occupational Skills Licensure 5 = Occupational Skills Certificate or Credential 6 = Other Recognized Educational or Occupational Skills Credential/Certificate 0 = Individual received training, but no recognized credential received. Blank = Individual did not receive training.	Important Note: The following edit checks differ by program funding stream: A. Must be 0-6 if WIASRD 340 (Type of Training Service #1) = 1-6 or WIASRD 341 (Type of Training Service #2) = 1-6 and the report date is after the end of the third quarter after the quarter of exit (Adults and Dislocated Workers only). C. Must not be 1 if WIASRD 129 (School Status at Participation) is 3 or 5	Reject	A-D. Error in Type of Recognized Credential field caused by one of the following conditions: - Type of Recognized Credential and School Status at Participation values are contradictory. - If the report date is after the end of the third quarter after the exit quarter, Type of Recognized Credential cannot be blank for Older Youth or any other participant for whom Type of Training Service is specified.	
103	620	Goal #1 Type	1 = Basic Skills 2 = Occupational Skills 3 = Work Readiness Skills Blank or 0 = goal #1 is not set	A. Must be 1, 2, or 3 if WIASRD 129 (School Status at Participation) is 1 or 2, or WIASRD 129 is 3 and WIASRD 130 (Basic Skills Deficient) is 1 (for Younger youth only).	Warning	A. Goal Type 1 cannot be blank or 0 if participant is in School or Basic Skills Deficient at Participation (WIASRD Elements 129 and 130).	

Data Reporting and Validation Software (DRVS) Release 5.0

WORKFORCE INVESTMENT ACT PROGRAMS
Import File Specifications & Edit Checks

IMPORTANT NOTE: This document contains data element specifications and edit checks that will be used to support implementation of the Employment and Training Administration's (ETA) Data Reporting and Validation Software (DRVS) Release 5.0 for WIA Adult, Dislocated Worker (including NEGs), and Youth programs. DRVS for WIA programs is being upgraded to support state implementation of common performance measures and other revised reporting requirements approved by the United States Office of Management and Budget (OMB) beginning PY2005. A crosswalk of the data element numbers, where applicable, from the old WIASRD to the new WIASRD format is also provided. Some of the old WIASRD elements have been eliminated from the WIA program reporting system and are not displayed.

New DRVS Release 5.0 Field No.	New WIASRD No.	Data Element Name	Edit Checks - Valid Values <i>(DRVS will identify invalid codes and display, where appropriate, warning errors for each field.)</i>	Additional Edit Checks		Error Type	ERROR MESSAGES A-B. Improper correspondence between Goal #1 Type and Date Goal #1 Was Set. A-D. Error in Attainment of Goal #1 field caused by one of the following conditions: - Attainment of Goal #1 cannot be blank or 0 if Goal #1 Type is specified. - Values in the Goal #1 Attainment fields (WIASRD Elements 622 and 623) are contradictory. - Attainment of Goal #1 must be blank or 0 if no Goal #1 Type is specified. - Attainment of Goal #1 cannot be 3 (pending) if participant has a Date of Exit. A. Date Attained Goal #1 is missing or is before Date Goal #1 Was Set.
				Edit Check Logic <i>(all references refer to new DRVS field numbers)</i>			
104	621	Date Goal #1 Was Set	YYYYMMDD Blank = goal #1 is not set	A. Must be valid date (YYYYMMDD) if WIASRD 620 (Goal #1 Type) is 1, 2, or 3. B. Must be blank if WIASRD 620 (Goal #1 Type) is blank or 0. C. Must be greater than or equal to WIASRD 306 (Date of First Youth Service) (Younger Youth only) (Note: To be implemented in DRVS 6.0)		Warning	
105	622	Attainment of Goal #1	1 = Attained 2 = Set, but not attained 3 = Set, but attainment is pending Blank or 0 = goal #1 is not set	A. Must be 1, 2, or 3 if WIASRD 620 (Goal #1 Type) is 1, 2, or 3. B. Must be 1 if WIASRD 623 (Date Attained Goal #1) is a valid date. C. Must be blank or 0 if WIASRD 620 (Goal #1 Type) is blank or 0. D. Must not be 3 if WIASRD 303 (Date of Exit) is a valid date.		Warning	
106	623	Date Attained Goal #1	YYYYMMDD Blank = goal #1 is not set	A. Must be greater than or equal to WIASRD 621 (Date Goal #1 Was Set) if WIASRD 622 (Attainment of Goal #1) is 1.		Reject	
107	624	Goal #2 Type	1 = Basic Skills 2 = Occupational Skills 3 = Work Readiness Skills Blank or 0 = goal #2 is not set	No additional edit checks.			
108	625	Date Goal #2 Was Set	YYYYMMDD Blank = goal #2 is not set	A. Must be greater than or equal to WIASRD 621 (Date Goal #1 Was Set) if WIASRD 624 (Goal #2 Type) is 1, 2, or 3. B. Must be blank if WIASRD 624 (Goal #2 Type) is blank or 0.		Warning	A-B. Error in Date Goal #2 Was Set field caused by one of the following conditions: - Date Goal #2 Was Set is missing or is before the Date Goal #1 Was Set. - Participant has a Date Goal #2 Was Set, but no Goal #2 Type is specified. A-D. Error in Attainment of Goal #2 field caused by one of the following conditions: - Attainment of Goal #2 cannot be blank or 0 if Goal #2 Type is specified. - Attainment of Goal #2 must be blank or 0 if no Goal #2 Type is specified. - Attainment of Goal #2 cannot be 3 (pending) if participant has a Date of Exit.
109	626	Attainment of Goal #2	1 = Attained 2 = Set, but not attained before 1 year anniversary date 3 = Set, but attainment is pending Blank or 0 = goal #2 is not set	A. Must be 1, 2, or 3 if WIASRD 624 (Goal #2 type) is 1, 2, or 3. B. Must be blank or 0 if WIASRD 624 (Goal #2 type) is blank or 0. C. Must not be 3 if WIASRD 303 (Date of Exit) is a valid date.		Warning	
110	627	Date Attained Goal #2	YYYYMMDD Blank = goal #2 is not set	A. Must be greater than or equal to WIASRD 625 (Date Goal #2 Was Set) if WIASRD 626 (Attainment of Goal #2) is 1. B. Must be blank if WIASRD 626 (Attainment of Goal #2) is 2, 3, 0 or blank.		Warning	A-B. Date Attained Goal #2 must correspond to the values specified for the other Goal #2 fields (WIASRD Elements 624-627).
111	628	Goal #3 Type	1 = Basic Skills 2 = Occupational Skills 3 = Work Readiness Skills Blank or 0 = goal #3 is not set	No additional edit checks.			

Data Reporting and Validation Software (DRVS) Release 5.0

WORKFORCE INVESTMENT ACT PROGRAMS
Import File Specifications & Edit Checks
