Re: FOIA Request S9110153: Sauder Woodworking Company Television Carts / Corrective Action or Recall File CA980039

Dear Mr. Tilley:

Thank you for your Freedom of Information Act (FOIA) request seeking information from the Commission. The records from the Commission files responsive to your request have been processed and copies of the releasable responsive records are enclosed. The enclosed records include file information generated by the Commission itself or its contractors for regulatory or enforcement purposes. These records are from law enforcement investigatory file designated CA980039 Sauder Woodworking Company Television Carts and include correspondence, notes and documents. The Commission has established management systems under which supervisors are responsible for reviewing the work of their employees or contractors. The file information materials are final and have been prepared and accepted by the Commission's staff under such review systems. The Commission believes that it has taken reasonable steps to assure the accuracy of the information. Please note that the Commission's staff, not the Commissioners themselves, made the preliminary determination that this product presented a substantial risk of injury to the public as defined by the Consumer Product Safety Act (CPSA).

The remaining records responsive to your request are contained in the Commission's active law enforcement investigatory files. We must withhold the records pursuant to the Exemptions 3, 4, 5, and 7(E), 5 U.S.C. §§ 552(b)(3), (b)(4), (b)(5), and (b)(7)(E), and sections 6(a)(2) and 25(c) of the CPSA, 15 U.S.C. §§ 2055(a)(2), and 2074(c).

FOIA Exemption 3 provides for the withholding from disclosure of matters that are specifically exempted from disclosure by another statute. In applying FOIA Exemption 3 to these records, we are relying in part on section on CPSA section 6(a)(2) to withhold files that contain proprietary and confidential information. We must withhold pursuant to Exemptions 3 and 4 and section 6(a)(2) of the CPSA. Section 6(a)(2) prohibits the Commission from disclosing information that is exempt from disclosure under Exemption 4 of the FOIA. That exemption protects trade secrets and confidential commercial information directly related to a firm's business that the firm has not made public and whose disclosure could give a substantial commercial advantage to a competitor. The protected records include customer lists, engineering design and quality control information, confidential financial records and other company internal records from pages 296-297, 367, 369-379, 382-388, 431, 450-455, 470 and 475-484.

Certain internal staff memorandum, a preliminary determination sheet, is also being withheld pursuant to FOIA Exemptions 5, and 7(E). Exemption 5 provides for the withholding from disclosure of inter-agency and intra-agency memoranda which would not be available by law to a party other than an agency in litigation with the agency. Exemption 7(E) provides for the withholding from disclosure records or information compiled for law enforcement purposes, to the extent that the production of such law enforcement records or information would disclose techniques and procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. The staff memoranda and analyses being withheld are both predecisional and deliberative, consisting of recommendations, opinions, suggestions and analyses. Any factual materials in the memoranda not covered by some other exemption are inextricably intertwined with exempt materials or the disclosure of the factual materials would itself expose the deliberative process. We have determined that the disclosure of the law enforcement investigatory records responsive to your request would be contrary to the public interest. It would not be in the public interest to disclose these materials because disclosure would (1) impair the frank exchange of views necessary with respect to such matters, and (2) reveal the techniques, guidelines and strategies utilized by the investigative and legal staff in developing the information regarding this investigation and other on-going investigations, which if disclosed would significantly risk circumvention of the statutes and regulations that the Commission administers. .

You will note that in the documents disclosed information that could identify injured parties has been deleted, because section 25(c) of the CPSA, 15 U.S.C. § 2074(c)(1), prohibits such disclosures without the consent of those individuals. In some cases the parties have denied consent or consent has not otherwise been obtained.

According to the Commission's regulations implementing the FOIA at 16 C.F.R. § 1015.7, a partial denial of access to records may be appealed to the General Counsel of the Commission within thirty (30) days of your receipt of this letter. An appeal must be in writing and addressed to: FOIA APPEAL, General Counsel, ATTN: Office of the Secretary, U.S. Consumer Product Safety Commission, Washington, D. C. 20207.

Other records have been removed that are not responsive or pertain to products other than the Sauder television carts from pages 154, 178-184, 430, 456, and 485-487.

Processing this request, performing the file searches and preparing the information, cost the Commission \$120.00. In this instance, we have decided to waive all of the charges.

Sincerely,

Todd A. Stevenson

Re: FOIA Request S9060097: Sauder Woodworking Company Television Carts / Complaints, Reported Incidents and Investigations of Incidents and Corrective Action or Recall File CA980039 / File Search 1989 to Present

Dear Mr. Jacobs:

Thank you for your Freedom of Information Act (FOIA) request seeking information from the Commission. The records from the Commission files responsive to your request have been processed and copies of the releasable responsive records are enclosed. The enclosed records include file information generated by the Commission itself or its contractors for regulatory or enforcement purposes. These records are from law enforcement investigatory file designated CA980039 and include hazard assessment memoranda, correspondence, notes and documents. The Commission has established management systems under which supervisors are responsible for reviewing the work of their employees or contractors. The file information materials are final and have been prepared and accepted by the Commission's staff under such review systems. The Commission believes that it has taken reasonable steps to assure the accuracy of the information. Please note that the Commission's staff, not the Commissioners themselves, made the preliminary determination that this product presented a substantial risk of injury to the public as defined by the Consumer Product Safety Act (CPSA).

The enclosed records include three Epidemiologic Investigation Reports with the underlying and supporting documentation. The Commission has received this information from its formal investigation systems. Through these systems the Commission hopes to learn when specific products are associated with illness, injury or death. The Commission believes that it has taken reasonable steps to assure the accuracy of this information. While conducting the interviews for the investigation reports, Commission staff or contractors have spoken with the individuals involved or with others who witnessed or are familiar with the incidents. Where

possible, Commission staff have examined the products reportedly involved in the incidents. Although the Commission has investigated the incidents described in the investigation reports, the Commission has not necessarily determined the cause of the incidents.

The remaining records responsive to your request are contained in the Commission's active law enforcement investigatory files. We must withhold the records pursuant to the Exemptions 3, 4, 5, and 7(E), 5 U.S.C. §§ 552(b)(3), (b)(4), (b)(5), and (b)(7)(E), and sections 6(a)(2) and 25(c) of the CPSA, 15 U.S.C. §§ 2055(a)(2), and 2074(c).

FOIA Exemption 3 provides for the withholding from disclosure of matters that are specifically exempted from disclosure by another statute. In applying FOIA Exemption 3 to these records, we are relying in part on section on CPSA section 6(a)(2) to withhold files that contain proprietary and confidential information. We must withhold pursuant to Exemptions 3 and 4 and section 6(a)(2) of the CPSA. Section 6(a)(2) prohibits the Commission from disclosing information that is exempt from disclosure under Exemption 4 of the FOIA. That exemption protects trade secrets and confidential commercial information directly related to a firm's business that the firm has not made public and whose disclosure could give a substantial commercial advantage to a competitor. The protected records include financial sales information, customer lists, and engineering design information from pages 296-297, 367, 369-379, 382-388, 431, 450-455, 470, and 475-484.

A certain internal staff memorandum, a preliminary determination sheet, is also being withheld pursuant to FOIA Exemptions 5, and 7(E). Exemption 5 provides for the withholding from disclosure of inter-agency and intra-agency memoranda which would not be available by law to a party other than an agency in litigation with the agency. Exemption 7(E) provides for the withholding from disclosure records or information compiled for law enforcement purposes, to the extent that the production of such law enforcement records or information would disclose techniques and procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. The staff memorandum and analyses being withheld are both predecisional and deliberative, consisting of recommendations, opinions, suggestions and analyses. Any factual materials in the memoranda not covered by some other exemption are inextricably intertwined with exempt materials or the disclosure of the factual materials would itself expose the deliberative process. We have determined that the disclosure of the law enforcement investigatory records responsive to your request would be contrary to the public interest. It would not be in the public interest to disclose these materials because disclosure would (1) impair the frank exchange of views necessary with respect to such matters, and (2) reveal the techniques, guidelines and strategies utilized by the investigative and legal staff in developing the information regarding this investigation and other on-going investigations, which if disclosed would significantly risk circumvention of the statutes and regulations that the Commission administers.

You will note that in the documents disclosed information that could identify injured parties has been deleted, because section 25(c) of the CPSA, 15 U.S.C. § 2074(c)(1), prohibits such disclosures without the consent of those individuals. In some cases the parties have denied consent or consent has not otherwise been obtained.

Other records have been removed that are not responsive or pertain to products other than the Sauder television carts from pages 154, 178-184, 430, 456, and 485-487.

According to the Commission's regulations implementing the FOIA at 16 C.F.R. § 1015.7, a partial denial of access to records may be appealed to the General Counsel of the Commission within thirty (30) days of your receipt of this letter. An appeal must be in writing and addressed to: FOIA APPEAL, General Counsel, ATTN: Office of the Secretary, U.S. Consumer Product Safety Commission, Washington, D. C. 20207.

Processing this request, performing the file searches and preparing the information, cost the Commission \$120.00. In this instance, we have decided to waive all of the charges. Thank you for your interest in consumer product safety.

Sincerely,

Todd A. Stevenson

CPSC, Sauder Woodworking Co. Announce Recall of Television Carts

WASHINGTON, D.C. - In cooperation with the U.S. Consumer Product Safety Commission (CPSC), Sauder Woodworking Co., of Archbold, Ohio, is recalling about 2 million television carts. The carts can tip over and injure children and adults when the cart and the television fall. Sauder has received 13 reports of these carts tipping over and the television falling. Two injuries have been reported. A 3-year-old girl suffered a skull fracture, and an adult woman suffered a bump to the head and a cut finger.

The television carts being recalled are brown oak (model 5155), black oak (model 5055) or white oak (model 5251). The model number is not on the cart, but it is on the instruction booklet that came with the cart. Most of the carts have the name "Sauder" on the casters or on a metal plate on the inside of the cart's door. The carts measure 29.5 inches wide, 25 inches high with casters and 15.5 inches deep. The carts can hold a television and a VCR. The shelf holding the television swivels, and there is a bottom shelf with hinged double doors.

Discount stores, home centers and furniture stores nationwide sold these television carts from March 1989 through September 1998 for about \$35 to \$49. The carts were sold ready-to-assemble.

Consumers should remove their televisions and VCR's from the carts immediately and call Sauder toll-free at (888) 800-4590 between 7 a.m. and 11 p.m. EDT Monday through Friday or access their web site at www.sauder.com. Sauder will help consumers identify if their cart is part of this recall, and send them a free repair kit. The repair kit will help prevent the cart from tipping over.
