

## Social Networks Problem Indicator Tool

<b>Problem Indicator</b>	<b>Potential Problems</b>	<b>Potential Causes</b>	<b>Potential Solutions</b>	<b>Phase</b>
1. No recruiters enlisted in 30 days.	Recruiters not accepting invitation to participate  Staff not screening potential recruiters  New staff person assigned	Staff may not be delivering the correct message  Screening criteria may be too structured  Staff not trained/oriented on screening criteria	Train/Orient all assigned staff on screening criteria and observe screening sessions  Modify screening criteria	Recruiter Enlistment
2. Recruiters from the wrong target population being enlisted.	Staff's lack of understanding on the profile of potential recruiters.  New staff person assigned	Staff not trained/oriented on screening criteria	Train/Orient all assigned staff on screening criteria and observe screening sessions  Modify screening criteria	Recruiter Enlistment
3. No network associates being enlisted as recruiters	No network associates (NAs) accepted invitation to become a recruiter  No network associates being screened to become recruiters	Staff not providing the correct message to potential recruiters  Staff unaware or lack of understanding of screening network associates to become recruiters	Train/Orient staff on screening criteria for potential recruiters (Previously and newly diagnosed HIV+ persons, and high risk heterosexuals tested as NAs)	Recruiter Enlistment
4. Recruiters are not completing orientation	Orientation too long	Too much information included in the orientation	Develop checklist to discuss most important	Engagement (Orientation)

	<p>Orientation not convenient for recruiter</p> <p>Wrong type of orientation for individual recruiter</p>	<p>Orientation dates and times are inflexible</p>	<p>information to potential recruiters</p> <p>Provide individual orientation to recruiters at times most convenient to them</p> <p>Conduct individual or group orientation</p>	
5. Recruiters not providing names of NAs	<p>Recruiters do not understand confidentiality of information</p> <p>Recruiters do not want to provide names of NAs</p>	<p>Confidentiality not clearly discussed with recruiters in the recruiter enlistment phase</p>	<p>Clarify misunderstanding about confidentiality</p> <p>Coach recruiters on the procedure for network elicitation and discuss other means for providing information, e.g., first names, initials, nicknames, etc.</p>	<p>Engagement (Interview)</p>
6. No follow-up with recruiters	<p>Recruiters are not responsive to follow-up attempts</p> <p>No follow-up attempts are being made</p>	<p>Recruiters not fully participating or not available</p> <p>Staff not recording follow-up attempts.</p>	<p>Close out recruiter records after _____ number of attempts</p> <p>Train staff on importance of progress notes.</p>	<p>Engagement (Coaching/Follow-up)</p>
7. No NAs tested in 30 days	<p>Recruiters are not referring</p> <p>Recruiters conducting outreach referrals to persons not in their personal networks.</p>	<p>All NAs in network have been tested or refused testing</p> <p>Lack of understanding about referrals and incentives</p>	<p>Coach recruiters on procedures for participation in project, assess network referrals, close out records after _____ number of follow-ups.</p>	<p>Recruitment of NAs</p>

	NAs are not coming in for testing	NAs lost CTR card  Need additional support from recruiter to navigate the testing system	Coach recruiters on message to give if NAs if they lose CTR card  Recruiters escort their NAs to testing	
8. Previous positives being tested	Seeking incentives offered to testers	Incorrect information about testing being circulated in networks	Follow-up and coach recruiters on referring persons unaware of their HIV status for testing	CTR
9. No HIV positive persons identified	Recruiters referring NAs for testing who are not at high risk for HIV  Core of network not identified or previously identified	Recruiters lack of understanding of high risk  Staff not assessing network testing	Coach recruiters and review types of persons referred for testing (sexual, social, drug-using) and discuss their risks  Conduct discussions with staff to gain skills in assessing networks.	CTR
10. No referrals to prevention and care services.	Staff not making referrals  Staff not tracking referrals	Staff not trained to make and track referrals.  Referral tracking system not in place or not functional	Train/Orient staff on referral tracking systems and their roles.  Create/Modify referral tracking system	CTR
