

UDY PASTURE
ANNUAL OPERATING INSTRUCTIONS

This is the annual operating plan for the 2008 grazing season for the Udy pasture and will be considered part of the terms and conditions of the grazing permit.

I. Permitted / Authorized Use

Grady Smith							
Term Grazing Permit				Authorized use			
No.	On Date	Off Date	H.M.s	No.	On Date	Off Date	H.M.s
5 hd. Horses	11/01	12/31	NTE 10	5 hd. Horses	11/01	12/31	NTE 10

II. Grazing Schedule and Monitoring Utilization Standards

Actual Grazing Schedule				Allowable Standards	
Unit No.	Unit Name	# head	Dates	Riparian	Uplands
1	Udy Pasture	5	11/01-12/31	NA	50%

The Udy Pasture is comprised of approximately 26 acres of USFS land that is fenced in common with 260 acres of private ground. The 26 acres of federal land is upland range in mid seral condition. This pasture is grazed as one unit from November 1 to December 31. Use on the USFS portion of the allotment will not exceed 10 head months.

**** - It is the permittee's responsibility to insure cattle are moved before utilization levels are exceeded.**

III. PERMITTEE MANAGEMENT RESPONSIBILITIES

WHERE A STATE CLOSURE ORDER EXISTS - Any hay or straw used in association with this permit, will be certified and/or tagged as noxious weed, or noxious weed seed free as directed by the order (#04-00-057, 4/96, according to 36CFR 261.58 (t)) and state law (Idaho Code sec 22 according to IDAPA 02.06.31.001, 7/99).

Cattle that die from a contagious disease, or that die at a location where they may contaminate water or become a public nuisance, must be properly disposed of.

At the end of the grazing season, please mail in the actual use booklet that you have received.

IV. IMPROVEMENT MAINTENANCE/CONSTRUCTION

There are not any USFS range improvements on the pasture. The fence around the pasture will be maintained by the permittee prior to cattle entering the pasture or adjacent Federal lands. **When this maintenance is complete-call us. If verification is not made livestock grazing will not be allowed until an allotment inspection can be made to ensure maintenance has been completed. If livestock problems occur due to lack of maintenance, permittees will be billed for unauthorized use and/or permit action taken.**

V. ACTION SUMMARY

Watch for weeds, knapweed or leafy spurge on your allotment. Please let us know if you see any new infestations or any new species we may not know about.

I have reviewed and accepted these Annual Operating Instructions for the 2008 grazing season. Any changes to these Annual Operating Instructions must be approved by the District Ranger.
