

# HPV and Cervical Cancer: An Update on Prevention Strategies

A National Center for HIV, STD & TB and  
Public Health Training Network Webcast

Program website: <http://www.phppo.cdc.gov/PHTN/HPV-05>

**August 9, 2005 1:00 PM – 2:00 PM ET**

**A Webcast Only**

Genital Human Papilloma Virus (HPV) infection is one of the most common sexually transmitted infections. There is considerable new information about the natural history of HPV infection, the association of different HPV types with various clinical manifestations, HPV transmission, and methods of HPV prevention. In addition, the Food and Drug Administration recently approved the use of a commercially available HPV DNA test for two purposes: 1) for the management of patients with abnormal Pap test results; and 2) as an adjunct to the Pap test for cervical cancer screening in women 30 years and older. Currently, there is recognition that this new information may require different approaches to cervical cancer screening in primary care practices, and when counseling and educating patients and their sex partners. This webcast will provide viewers with information on cervical cancer screening guidelines and strategies for preventing genital HPV infection, including appropriate patient counseling messages.

## Goal

To increase provider knowledge of HPV and its clinical manifestations and to update clinicians on strategies to prevent genital HPV infection and cervical cancer that are consistent with national guidelines.

## Objectives

Upon successful completion of the program, participants will be able to:

- Identify the two types of genital HPV infection.
- Discuss the epidemiology of genital HPV infection in the United States.
- Describe the natural history of genital HPV infection.
- Identify methods used to detect cervical cellular abnormalities for the prevention of cervical cancer.
- Summarize appropriate patient counseling messages for genital HPV infection.
- Identify methods for preventing genital HPV infection.

## Intended Audiences

Obstetricians, Gynecologists, Physicians in Family and General Practice, General Internists, Advanced Practice Nurses, Physician's Assistants, and Nurses

## Presenters

**Julie Louise Gerberding, MD, MPH**

Director,

Centers for Disease Control and Prevention

**John M. Douglas, Jr. MD**

Director,

Division of Sexually Transmitted Disease Prevention

National Center for HIV, STD, & TB Prevention

Coordinating Center for Infectious Diseases

Centers for Disease Control and Prevention

**Mona Saraiya, MD, MPH**

Epidemiology and Applied Research Branch

Division of Cancer Prevention and Control

National Center for Health Promotion

Coordinating Center for Health Promotion

Centers for Disease Control and Prevention

**Thomas C. Wright, MD**

Associate Professor of Pathology

Department of Pathology, College of Physicians and

Surgeons, Columbia University

### **Webcast Information**

This program will be available for viewing on and after August 9, 2005, at <http://www.phppo.cdc.gov/PHTN/webcast/HPV-05>

### **Continuing Education Information**

Continuing Education will be available by registering and completing an evaluation at [www.phppo.cdc.gov/phtnonline](http://www.phppo.cdc.gov/phtnonline). The origination date of this webcast is August 9, 2005. Continuing education credits will be offered for various professions based on 1 hour of instruction.

Course number:

### **Web-on-Demand - WD0075**

CE will be available from August 9, 2005 - August 9, 2008.

### **Contact Information**

We will not be taking questions during this webcast. However, we will be accepting your questions about HPV via e-mail, [cdcinfo@cdc.gov](mailto:cdcinfo@cdc.gov) until June 30. Our panellists will answer some of these questions at the end of the webcast and all responses will be posted on our website at

<http://www.cdc.gov/std/HPV/webcastQA-2005.htm>

You may also submit questions to the same e-mail address after the webcast.

### **Audiobridge Information**

In the event you are unable to receive the signal on program day, you may join by audiobridge. For security reasons, the passcode will be required to join the call.

DATE: August 09, 2005

TIME: 1:00 PM EDT

DURATION: 1 HOUR

TOLL FREE NUMBER: 888-560-6184

TOLL NUMBER: 210-234-6722

PASSCODE: 4972266

If you have problems during your audiobridge conference, you may call 800-728-8232 or International callers dial 404-639-1289.

For a **fax copy of this fact sheet**, contact the CDC Fax Information System at 888-232-3299 (or 877-232-1010 for the hearing impaired). When prompted, enter the document number 130036 and a return fax number.
