

Northeast Fisheries Science Center Reference Document 07-14

# **NEFSC Publications, Reports, Abstracts, and Web Pages/Documents for Calendar Year 2006**

compiled by Laura S. Garner

August 2007

## Recent Issues in This Series

- 06-22 *The Analytic Component to the Standardized Bycatch Reporting Methodology Omnibus Amendment: Sampling Design, and Estimation of Precision and Accuracy*, by SE Wigley, PJ Rago, KA Sosebee, and DL Palka. September 2006.
- 06-23 *Tenth Flatfish Biology Conference, November 29-30, 2006, Water's Edge Resort, Westbrook, Connecticut*, by R Mercaldo-Allen (chair), A Calabrese, DJ Danila, MS Dixon, A Jearld, TA Munroe, DJ Pacileo, C Powell, SJ Sutherland, steering committee members. October 2006.
- 06-24 *Analysis of Virginia Fisheries Effort as a Component in the Development of a Fisheries Sampling Plan to Investigate the Causes of Sea Turtle Strandings*, by CM Legault and KD Bisack. October 2006.
- 06-25 *43rd Northeast Regional Stock Assessment Workshop (43rd SAW): 43rd SAW Assessment Report*. November 2006.
- 06-26 *Protection against Electric Shock in Laboratory Sea-Water Systems*, by JM Crossen, PS Galtsoff, and JA Gibson. November 2006.
- 06-27 *Accuracy and Precision Exercises Associated with 2005 TRAC Production Aging*, by SJ Sutherland, NJ Munroe, V Silva, SE Pregracke, and JM Burnett. November 2006.
- 06-28 *Precision Exercises Associated with SARC 42 Production Aging*, by SJ Sutherland, NJ Shepherd, and SE Pregracke. December 2006.
- 07-01 *Accuracy and Precision Exercises Associated with 2006 TRAC Production Aging*, by SJ Sutherland, NL Shepherd, SE Pregracke, and JM Burnett. January 2007.
- 07-02 *Methodologies of the NOAA National Marine Fisheries Service Aerial Survey Program for Right Whales (*Eubalaena glacialis*) in the Northeast U.S., 1998-2006*, by TVN Cole, P Gerrior, and RL Merrick. January 2007.
- 07-03 *44th Northeast Regional Stock Assessment Workshop (44th SAW). 44th SAW Assessment Summary Report*. January 2007.
- 07-04 *Estimated Bycatch of Loggerhead Sea Turtles (*Caretta caretta*) in U.S. Mid-Atlantic Scallop Trawl Gear, 2004-2005, and in Sea Scallop Dredge Gear, 2005*, by KT Murray. February 2007.
- 07-05 *Mortality and Serious Injury Determinations for Baleen Whale Stocks Along the United States Eastern Seaboard and Adjacent Canadian Maritimes, 2001-2005*, by M Nelson, M Garron, RL Merrick, RM Pace III, and TVN Cole. February 2007.
- 07-06 *The 2005 Assessment of Acadian Redfish, *Sebastes fasciatus* Storer, in the Gulf of Maine/Georges Bank region*, by RK Mayo, JKT Brodziak, JM Burnett, ML Traver, and LA Col. April 2007.
- 07-07 *Evaluation of a Modified Scallop Dredge's Ability to Reduce the Likelihood of Damage to Loggerhead Sea Turtle Carcasses*, by HO Milliken, L Belskis, W DuPaul, J Gearhart, H Haas, J Mitchell, R Smolowitz, and W Teas. April 2007.
- 07-08 *Estimates of Cetacean and Pinniped Bycatch in the 2005 Northeast Sink Gillnet and Mid-Atlantic Coastal Gillnet Fisheries*, by D Belden. May 2007.
- 07-09 *The Analytic Component to the Standardized Bycatch Reporting Methodology Omnibus Amendment: Sampling Design, and Estimation of Precision and Accuracy (2nd Edition)*, by SE Wigley, PJ Rago, KA Sosebee, and DL Palka. May 2007
- 07-10 *44th Northeast Regional Stock Assessment Workshop (44th SAW): 44th SAW assessment report*. May 2007.
- 07-11 *45th Northeast Regional Stock Assessment Workshop (45th SAW): 45th SAW Assessment Summary Report*. July 2007.
- 07-12 *Proposed Vessel Calibration Studies for NOAA Ship Henry B. Bigelow*, by NEFSC Vessel Calibration Working Group. August 2007.
- 07-13 *Monkfish Assessment Summary for 2007*, by Northeast Data Poor Stocks Working Group. August 2007.

## Northeast Fisheries Science Center Reference Documents

**This series is a secondary scientific series** designed to assure the long-term documentation and to enable the timely transmission of research results by Center and/or non-Center researchers, where such results bear upon the research mission of the Center (see the outside back cover for the mission statement). These documents receive internal scientific review, and most receive copy editing. The National Marine Fisheries Service does not endorse any proprietary material, process, or product mentioned in these documents.

All documents issued in this series since April 2001, and several documents issued prior to that date, have been copublished in both paper and electronic versions. To access the electronic version of a document in this series, go to <http://www.nefsc.noaa.gov/nefsc/publications/>. The electronic version is available in PDF format to permit printing of a paper copy directly from the Internet. If you do not have Internet access, or if a desired document is one of the pre-April 2001 documents available only in the paper version, you can obtain a paper copy by contacting the senior Center author of the desired document. Refer to the title page of the document for the senior Center author's name and mailing address. If there is no Center author, or if there is corporate (*i.e.*, non-individualized) authorship, then contact the Center's Woods Hole Laboratory Library (166 Water St., Woods Hole, MA 02543-1026).

**This document's publication history is as follows:** manuscript submitted for review July 3, 2007; manuscript accepted through technical review July 26, 2007; manuscript accepted through policy review August 17, 2007; and final copy submitted for publication August 17, 2007. This document may be cited as:

Garner LS, compiler. 2007. NEFSC publications, reports, abstracts, and web pages/ documents for calendar year 2006. U.S. Dep. Commer., *Northeast Fish. Sci. Cent. Ref. Doc.* 07-14; 24 p. Available from: National Marine Fisheries Service, 166 Water Street, Woods Hole, MA 02543-1026.

## Ordering Information

The web version of this document links each bibliographic entry to an e-mail request to the senior NEFSC author or a contact acting in his/her stead, indicated by a [hyperlink](#). To request a copy of a work by postal mail, the address for the senior NEFSC author or contact is associated with the bracketed two-letter code at the end of the bibliographic entry. The key to the codes is as follows:

- MF = NOAA National Marine Fisheries Service, 212 Rogers Ave., Milford, CT 06460-6435
- NB = NOAA/UMass Cooperative Marine Education and Research Program, c/o School for Marine Science & Technology, 706 South Rodney French Boulevard, New Bedford, MA 02744-1221
- NG = NOAA National Marine Fisheries Service, 28 Tarzwell Dr., Narragansett, RI 02882-1199
- NS = NOAA National Marine Fisheries Service, National Systematics Laboratory, Smithsonian Institution, P.O. Box 37012, National Museum of Natural History, Room 57WC, MRC 0153, Washington, DC 20013-7012
- OR = NOAA National Marine Fisheries Service, ASRC Field Station, P.O. Box 190, Orono, ME 04473
- RG = NOAA/Rutgers University Cooperative Marine Education and Research Program, c/o Institute of Marine and Coastal Sciences, P.O. Box 231, New Brunswick, NJ 08903-0231
- RI = NOAA/University of Rhode Island Cooperative Marine Education and Research Program, c/o Graduate School of Oceanography, Narragansett Bay Campus, Narragansett, RI 02882-1197
- SH = NOAA National Marine Fisheries Service, 74 Magruder Rd., Highlands, NJ 07732
- VA = NOAA/Virginia Cooperative Marine Education and Research Program, Virginia Institute of Marine Science, Gloucester Point, VA 23062
- WH = NOAA National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026

## Introduction

The following bibliography consists of three sections: (1) anonymously peer-reviewed publications (“publications”); (2) transparently peer-reviewed and non-peer reviewed publications (“reports”); (3) abstracts for oral presentations and poster displays; and (4) web pages and documents. The bibliography covers works prepared by Northeast Fisheries Science Center (NEFSC) employees which have a 2006 publication date. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 2006, are designated by capital letters.

Works which have a pre-2006 publication date but which were not released until 2006, or which have a 2006 publication date but had not been released at the time this list was published, have been included in this issue. They are noted by an asterisk (\*) next to the publication date.

Editorial treatment of bibliographic entries is based on the Council of Science Editors style manual, seventh<sup>1</sup> edition.

A hyperlinked list of organization acronyms has been included on the Table of Contents page.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. Any initial request for a reprint or photocopy should be directed to the sole/senior NEFSC author of the work. See “Ordering Information” for details.

Bibliographies of publications, reports, and abstracts for earlier years are available online at: <http://www.nefsc.noaa.gov/nefsc/publications/lists/lists.htm>.

1. Council of Science Editors, Style Manual Committee. 2006. Scientific style and format: the CSE manual for authors, editors, and publishers. 7th ed. Reston, VA: The Council; 658 p.

## Acknowledgment

Thanks to Jon Gibson for the years he put into single-handedly building, refining, and maintaining the Center publications lists. His attention to detail and interest in keeping up-to-date on ever-changing bibliographic techniques made this annual volume a comprehensive and very useful document, and greatly eased the transition from paper to internet.

## List of Acronyms

- AFS = [American Fisheries Society](#)
- ASIH = [American Society of Ichthyologists and Herpetologists](#)
- ASLO = [American Society of Limnology and Oceanography](#)
- ICES = [International Council for the Exploration of the Sea](#)
- IEEE = [Institute of Electrical and Electronics Engineers](#)
- IWC = [International Whaling Commission](#)
- NAFO = [Northwest Atlantic Fisheries Organization](#)
- NASA = [National Aeronautics and Space Administration](#)
- NEFSC = [Northeast Fisheries Science Center](#)
- NMFS = [National Marine Fisheries Service](#)
- NOAA = [National Oceanic and Atmospheric Administration](#)
- PICES = [North Pacific Marine Science Organization](#)
- SARC = [Stock Assessment Review Committee](#)
- SAW = [Stock Assessment Workshop](#)
- URI = [University of Rhode Island](#)
- TRAC = [Transboundary Resource Assessment Committee](#)
- WGFAST = [Working Group on Fisheries Acoustics Science And Technology](#)

## Publications

- Able WK, FAHAY MP [retired], Witting DA, [McBRIDE RS](#), Hagan SM. 2006. Fish settlement in the ocean vs. estuary: comparison of pelagic larval and settled juvenile composition and abundance from southern New Jersey, U.S.A. *Estuar Coast Shelf Sci.* 66(1-2):280-290. [WH]

# **Procedures for Issuing Manuscripts in the *Northeast Fisheries Science Center Reference Document (CRD) Series***

---

## **Clearance**

All manuscripts submitted for issuance as CRDs must have cleared the NEFSC's manuscript/abstract/webpage review process. If any author is not a federal employee, he/she will be required to sign an "NEFSC Release-of-Copyright Form." If your manuscript includes material from another work which has been copyrighted, then you will need to work with the NEFSC's Editorial Office to arrange for permission to use that material by securing release signatures on the "NEFSC Use-of-Copyrighted-Work Permission Form."

For more information, NEFSC authors should see the NEFSC's online publication policy manual, "Manuscript/abstract/webpage preparation, review, and dissemination: NEFSC author's guide to policy, process, and procedure," located in the Publications/Manuscript Review section of the NEFSC intranet page.

## **Organization**

Manuscripts must have an abstract and table of contents, and (if applicable) lists of figures and tables. As much as possible, use traditional scientific manuscript organization for sections: "Introduction," "Study Area" and/or "Experimental Apparatus," "Methods," "Results," "Discussion," "Conclusions," "Acknowledgments," and "Literature/References Cited."

## **Style**

The CRD series is obligated to conform with the style contained in the current edition of the United States Government Printing Office Style Manual. That style manual is silent on many aspects of scientific manuscripts. The CRD series relies more on the CSE Style Manual. Manuscripts should be prepared to conform with these style manuals.

The CRD series uses the American Fisheries Society's guides to names of fishes, mollusks, and decapod

crustaceans, the Society for Marine Mammalogy's guide to names of marine mammals, the Biosciences Information Service's guide to serial title abbreviations, and the ISO's (International Standardization Organization) guide to statistical terms.

For in-text citation, use the name-date system. A special effort should be made to ensure that all necessary bibliographic information is included in the list of cited works. Personal communications must include date, full name, and full mailing address of the contact.

## **Preparation**

Once your document has cleared the review process, the Editorial Office will contact you with publication needs – for example, revised text (if necessary) and separate digital figures and tables if they are embedded in the document. Materials may be submitted to the Editorial Office as files on zip disks or CDs, email attachments, or intranet downloads. Text files should be in Microsoft Word, tables may be in Word or Excel, and graphics files may be in a variety of formats (JPG, GIF, Excel, PowerPoint, etc.).

## **Production and Distribution**

The Editorial Office will perform a copy-edit of the document and may request further revisions. The Editorial Office will develop the inside and outside front covers, the inside and outside back covers, and the title and bibliographic control pages of the document.

Once both the PDF (print) and Web versions of the CRD are ready, the Editorial Office will contact you to review both versions and submit corrections or changes before the document is posted online.

A number of organizations and individuals in the Northeast Region will be notified by e-mail of the availability of the document online.

## **Publications and Reports of the Northeast Fisheries Science Center**

The mission of NOAA's National Marine Fisheries Service (NMFS) is "stewardship of living marine resources for the benefit of the nation through their science-based conservation and management and promotion of the health of their environment." As the research arm of the NMFS's Northeast Region, the Northeast Fisheries Science Center (NEFSC) supports the NMFS mission by "conducting ecosystem-based research and assessments of living marine resources, with a focus on the Northeast Shelf, to promote the recovery and long-term sustainability of these resources and to generate social and economic opportunities and benefits from their use." Results of NEFSC research are largely reported in primary scientific media (*e.g.*, anonymously-peer-reviewed scientific journals). However, to assist itself in providing data, information, and advice to its constituents, the NEFSC occasionally releases its results in its own media. Currently, there are three such media:

*NOAA Technical Memorandum NMFS-NE* -- This series is issued irregularly. The series typically includes: data reports of long-term field or lab studies of important species or habitats; synthesis reports for important species or habitats; annual reports of overall assessment or monitoring programs; manuals describing program-wide surveying or experimental techniques; literature surveys of important species or habitat topics; proceedings and collected papers of scientific meetings; and indexed and/or annotated bibliographies. All issues receive internal scientific review and most issues receive technical and copy editing.

*Northeast Fisheries Science Center Reference Document* -- This series is issued irregularly. The series typically includes: data reports on field and lab studies; progress reports on experiments, monitoring, and assessments; background papers for, collected abstracts of, and/or summary reports of scientific meetings; and simple bibliographies. Issues receive internal scientific review and most issues receive copy editing.

*Resource Survey Report* (formerly *Fishermen's Report*) -- This information report is a regularly-issued, quick-turnaround report on the distribution and relative abundance of selected living marine resources as derived from each of the NEFSC's periodic research vessel surveys of the Northeast's continental shelf. This report undergoes internal review, but receives no technical or copy editing.

**TO OBTAIN A COPY** of a *NOAA Technical Memorandum NMFS-NE* or a *Northeast Fisheries Science Center Reference Document*, either contact the NEFSC Editorial Office (166 Water St., Woods Hole, MA 02543-1026; 508-495-2350) or consult the NEFSC webpage on "Reports and Publications" (<http://www.nefsc.noaa.gov/nefsc/publications/>). To access *Resource Survey Report*, consult the Ecosystem Surveys Branch webpage (<http://www.nefsc.noaa.gov/femad/ecosurvey/mainpage/>).

**ANY USE OF TRADE OR BRAND NAMES IN ANY NEFSC PUBLICATION OR REPORT DOES NOT IMPLY ENDORSEMENT.**
