

AP Proposed GOA Rationalization Alternatives 6/12/03

Because of the number, diversity, and complexity of the fisheries in the GOA, the AP advises that no single alternative below will be appropriate for all fisheries. Mixing and matching should be expected by sector upon further analysis. *Motion passed 20/0*

Alternative 1	Alternative 2	Alternative 3				Alternative 4		Alternative 5		
Status Quo	Harvester Only, IFQ with voluntary cooperatives (4)	Harvester IFQ, Closed class, voluntary coop, no linkage				Sector Allocations with cooperatives with processor linkage (9)		Harvest Shares with closed class of processors with processor linkage (10)		
No change in present management structure	Allocate quotas to individuals	Allocate QS to individuals				Allocate quotas by sector and gear - CV trawl, CV longline, CV pot, CP trawl, CP longline, & CP pot		Allocate quotas to individuals		
		Coops are voluntary				Coops are mandatory		Coops are voluntary		
		Catcher Processors	Trawl CV	H&L, Pot,CV, high producers by gear by species	H&L, Pot,CV, low producers by gear by species	Catcher Processors	Catcher Vessels	Catcher Processors	Catcher Vessels	
		No processor provisions	Closed class processors		Open Delivery	No processor provisions	No processor provisions	Closed class processors IFQ linked to historical processor	No processor provisions	Closed class processors IFQs linked to historical processor
			No processor linkage					Penalty to move between different closed class processors		Penalty to move between different closed class processors
		Vessels that do not join a coop fish IFQs	Vessels that do not join coops fish IFQs under the above provisions				Vessels that do not join a coop fish open access		Vessels that do not join a coop fish IFQs under the above provisions
