ENDORSEMENT BY U. S. COAST GUARD			COAST GUARD NUMBER: _____		
<input type="checkbox"/> I have examined the fabrication of the completed unit covered by this report at the plant of the manufacturer and have witnessed the required tests. This unit has been accepted and stamped with the above Coast Guard Number as a final assembly.					
<input type="checkbox"/> I have examined the fabrication of the pressure part covered by this report at the plant of the manufacturer and have witnessed the tests as indicated above. This part has been accepted and stamped as a "part".					
<input type="checkbox"/> I have examined the assembly and witnessed the final tests of the unit covered by this report. The attached partial data report(s) for the component part(s) have been checked and found to be in agreement with the part(s). This unit has been checked, accepted and stamped with the above Coast Guard Number.					
DATE		CITY, STATE (<i>OCMI Office</i>)		MARINE INSPECTOR	

INSTRUCTIONS

The manufacturer shall execute and forward: (a) one copy for final reports and; (b) two copies for partial reports, to the Officer-in- Charge, Marine Inspection, having jurisdiction over the fabrication.

A separate form shall be executed for each pressure part, if the final assembly is not accomplished in the plant of original fabrication.

The assembler responsible for the completed field assembly of a unit consisting of component parts shall execute a final report form for that unit.

The complete records for the fabrication of a unit requiring shop inspection shall be maintained in the Marine Inspection Office assigning the Coast Guard Number.

When only a pressure part is reported, the item shall be stamped with the Coast Guard symbol, the Marine Inspection Office identification letters (46 CFR Table 50.10-30), the word "part", the manufacturer's name, serial number, and the maximum working pressure.

The Coast Guard number means that number assigned to boilers and pressure vessels by the Officer-in-Charge, Marine Inspection who makes the final tests and inspections. (46 CFR 50.10-30)
