and Environmental Protection
Office of Nuclear Material Safety
and Safeguards

SUBJECT: SUMMARY OF THE APRIL 6, 2004, MEETING BETWEEN THE
NUCLEAR REGULATORY COMMISSION STAFF AND YANKEE
ATOMIC ELECTRIC COMPANY REGARDING THE YANKEE (ROWE)
NUCLEAR POWER STATION LICENSE TERMINATION PLAN

On April 6, 2004, a public meeting was held at the NRC offices between staff from the Nuclear Regulatory Commission (NRC), and Yankee Atomic Electric Company (Yankee) to discuss the status of Yankee's decommissioning efforts and the status of the NRC acceptance review of the License Termination Plan (LTP) for the Yankee (Rowe) Nuclear Power Station.

Discussion issues included: decommissioning status (The site is currently ~ 90% dismantled with the spherical containment being the last significant structure on site); the staff is nearing completion of the acceptance review of the LTP and will be formally notifying the licensee of the results by the end of the month; and the licensee is beginning planning for final status surveys and will coordinate the schedule with the staff and ORISE so that confirmatory surveys can be performed at the same time as the licensee surveys.

The meeting attendance list and a copy of the slides used by the licensee for their presentation is attached. This meeting was noticed on March 23, 2004. No proprietary information was disseminated or presented at this meeting. No regulatory decisions were requested or made.

Docket No. 50-029
