Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 17, 2006, the Pacific Exchange, Inc. (“PCX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which items have been prepared by PCX. PCX has designated the proposed rule change as one establishing or changing a due, fee, or other charge, pursuant to Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b-4(f)(2) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposal. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to extend the Pilot Program that applies to Option Strategy Executions until September 1, 2006. The transactions included as part of the Pilot Program include reversals and conversions,⁵ dividend spreads,⁶ box spreads,⁷ short stock interest spreads,⁸ and merger spreads.⁹ Because the referenced Options Strategy Transactions are generally executed by professionals whose profit margins are generally narrow, the Pilot

⁵ Reversals and conversions are transactions that employ calls, puts and the underlying stock to lock in a nearly risk-free profit. Reversals are established by combining a short stock position with a short put and a long call position that shares the same strike and expiration. Conversions employ long positions in the underlying stock that accompany long puts and short calls sharing the same strike and expiration.

⁶ Dividend spreads are trades involving deep-in-the-money options that exploit pricing differences arising around the time a stock goes ex-dividend.

⁷ Box spreads is a strategy that synthesizes long and short stock positions to create a profit. Specifically, a long call and short put at one strike is combined with a short call and long put at a different strike to create synthetic long and synthetic short stock positions, respectively.

⁸ A short stock interest spread is a spread that uses two deep-in-the-money put options of the same class followed by the exercise of the resulting long position in order to establish a short stock interest arbitrage position.

Program caps the transaction fees associated with such executions at \$1,000 for strategy executions that are executed on the same trading day in the same option class. In addition, there is also a monthly cap of \$50,000 per initiating firm for all strategy executions. The Exchange believes that by keeping fees low, the Exchange will be able to attract liquidity by accommodating these transactions. Extending the Pilot Program until September 1, 2006 will allow the Exchange to keep these fees low and thus continue to attract liquidity.

OTP Holders and OTP Firms who wish to benefit from the fee cap will be required to submit to the Exchange forms with supporting documentation (e.g., clearing firm transaction data) to qualify for the cap.

2. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and Section 6(b)(4),¹¹ in particular, in that it provides for an equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

B. Self-Regulatory Organization's Statement on Burden on Competition

PCX believes that proposed rule change will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of

⁹ A merger spread is a transaction executed pursuant to a strategy involving the simultaneous purchase and sale of options of the same class and expiration date, but with different strike prices followed by the exercise of the resulting long option position.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
