**Subject:** Public meetings on discrimination issues

I am interested in knowing how the NRC plans to address the recommendations from the 1994 task force on employee protection and the comments made during the public meetings on that effort. I assume that the task force is thoroughly familiar with the transcripts of those meetings, the recommendations of NUREG 1499, and the agency's treatment of those recommendations. I would hope the new task force will evaluate the impact of the 1994 recommendations and revisit the ones that were not adopted.
