

## CATTLE and CALVES

New England's cattle and calf herd totaled 522,500 head on January 1, 2004, virtually unchanged from the previous year. The beef cow inventory was 37,700 head, an increase of three percent from the previous year. The milk cow inventory was 236,300, a decrease of six percent. The six-State region's cattle and calf inventory, as of January 1, 2004, was valued at \$524.3 million, a decrease of five percent from the 2003 value. The value per head decreased five percent from last year to \$1,003. Calves born in New England during 2003 totaled 235,600 head, four percent below the 2002 calf crop. Operations with one or more head at any time during 2003 decreased by four percent from the previous year to 7,870 farms.

w e r e  
2,390 commercial dairies throughout New England in 2003, a decrease of 170 operations from the previous year. The c u r r e n t definition is the average number of dairy farms licensed to sell milk in each State. Prior to 2002, the number represented the number of operations at the end of the calendar year, except f o r Massachusetts, which had a reference date of June 30<sup>th</sup>. In all years, the definition included the number of commercial operations of licensed bovine dairies.

Operations with at least one milk cow during 2003 accounted for 35 percent of all New England farms with cattle. There
