

**NEW ENGLAND REPORTS AVAILABLE FROM
New England Agricultural Statistics, NASS, USDA -- Concord, NH**

These reports include New England statistics taken from National publications. Although National reports are the most timely sources of statistics, New England reports may have more local information about crop conditions, etc. New England reports are available through e-mail and the Internet at no charge. **See USDA Agricultural Publications/Customer Service for details.** *Electronic access to these reports is encouraged, but paper publications are still FREE to New England farmers, agribusinesses, news media, government, and educational institutions. Others must pay a user fee as described below.*

- 901
- AGRICULTURAL REVIEW (14 publications per year):** Agricultural statistics in New England are published at the end of each month. This includes information about field crops, potatoes, fruit, vegetables, livestock, poultry, and other special features. You will also receive the annual Cash Receipts report in September and the Fruits and Vegetables Price and Yield Report in February.
[\$12.00 per year]

- 903
- CROP WEATHER (about 25 issues per year):** Summaries of the effect of weather on crops are published the first business day of each week, May through October. This includes planting and harvesting progress, crop development, farm activities, and precipitation, temperature and growing degree days across New England.
[\$12.00 per year]

- 910
- MAPLE SYRUP:** The annual summary of maple syrup production and prices in New England and the United States is published in June.
[\$5.00 per year]

- 960
- POTATO REPORTS:** A summary of Maine potato acreage, yield, size, and grade is published in January. Agriculture Chemical Usage is published in May every other year (includes fertilizer and pesticides).
[\$5.00 per year]

- 961
- CRANBERRIES:** Acreage and production in Maine, Massachusetts, and four other major States is published twice a year. The forecast of production is published in August; final production is published in January.
[\$5.00 per year]

- 962
- WILD BLUEBERRIES:** The forecast of Maine production is published in July; final production is published in January.
[\$5.00 per year]

- 970
- FLORICULTURE CROPS:** Number of growers, growing area, value of sales, and individual crop statistics for Connecticut and Massachusetts are published in May.
[\$5.00 per year]

ANNUAL AGRICULTURAL STATISTICS - (1 publication per year): If you live in New England, please contact your State agricultural commissioner for a copy. See the New England Agricultural Directory on page 155. If you live outside of New England, please make a note on this form to receive a copy. This publication contains agricultural statistics for several recent years. Crop, livestock, economic, and other statistics for all six New England States are included in one issue -- published in spring (publication available here at: <http://www.nass.usda.gov/nh>).
[\$10.00 per year]
