^{1/} Includes operations with milk cows.

^{2/} An operation is an place having one or more head of milk cows, excluding cows used to nurse calves, on hand at any time during the year..

^{3/} Information provided by individual State Departments of Agriculture (or its equivalent). The number of commercial operations consists of licensed bovine dairies in each State. 1994 - 2001: Reference date is end of calendar year except Massachusetts which is mid-year (June 30th). 2002: Definition changed to represent the annual average number of dairy farms licensed to sell milk in each State.
