## REVIEW AND APPROVAL OF STATE CONTRACTS

### DELEGATED AGENCIES

- 1) **Delegation.** Agencies may review and approve State Contracts using a risk-based approach with the approval of the State Controller as set forth in the State Controller's delegation letter. The State Controller will provide the agency controller of approved Agencies the requirements the State Controller delegate shall follow when using the risk-based approach.
- 2) **Risk Categorization.** All contracts shall be categorized as either high-risk or low-risk. Attached to this policy is a list of certain types of contracts classified by the State Controller as **automatic low-risk** and **automatic high-risk**. Contracts included in such list do not require a risk analysis. Agencies shall review contracts not included in such list (**undetermined-risk**) and determine whether they are low-risk or high-risk in accordance with the attached risk review guidelines.
- 3) **Signature Requirements.** Once a contract has been properly categorized as either high-risk or low-risk, the following review, approval, and signature requirements apply:
  - b. **Low-Risk Contracts** – Do not require State Controller review and approval and the agency/institution controller or other delegate may sign them.
  - c. **High-Risk Contracts** - Require review and approval by, and the signature of, the State Controller.
