

**AVEMCO** – Proud Supplier of FAA **WINGS** Pins

**ATTENTION ALL Authorized Instructors**  
**The Federal Aviation Administration**  
**Safety Team (FAASTeam)**  
**Strongly Encourages** Your Participation in the  
**WINGS – Pilot Proficiency Program**

It has been shown statistically that a proficient pilot is a safer pilot. Remember, the future of aviation lies in your hands. The example you set as a pilot, and the knowledge and skills you display as an instructor, will be imitated by pilots who fly with you. In addition, we end up with a safer aviation system, and the number of aircraft accidents that occur each year will decrease.

We hope you are taking advantage of the many on-line courses, like our new “Teaching and Performing Pre-Flight Preparations” master level course, and other resources listed on [FAASafety.gov](http://FAASafety.gov). We trust you are referring your students and customers so they can enjoy the many safety-oriented courses and resources, as well. Of course, we strongly encourage your personal participation in the **WINGS** – Pilot Proficiency Program as a pilot and instructor. When you discover the *new emphasis on proficiency*, we are sure you will be excited to refer pilots and other instructors to the new **WINGS** program.

As an authorized instructor you are already part of the **WINGS** program. You are listed on [FAASafety.gov](http://FAASafety.gov) as a **WINGS** Activity Validator. You might want to sign on and read the help files to find out what this means to you and your students. Any questions you have should be directed to your local FAASTeam Program Manager or Representative. You may also email your questions to: [WINGSgensupport@FAASafety.gov](mailto:WINGSgensupport@FAASafety.gov)

If you are one of the **508,000** already using the system, sign on and update your preferences to make sure you are receiving the information that suits your needs; you do not want to miss upcoming events like our **CFI Workshop** series coming to an area near you.

If you are not signed up, we invite you to visit the site <http://www.faasafety.gov> and sign up. Remember you can adjust your preferences to match your needs at any time and it is all FREE!
