

The Division of Bioresearch Monitoring, Office of Compliance, Center for Devices and Radiological Health, Food and Drug Administration (FDA) coordinates clinical and non-clinical inspections of biomedical research involving medical devices. Inspection results support the safety and effectiveness of a broad range of medical devices pending approval before the agency. As a member of a team of interdisciplinary scientists, the student serves in a position in FDA's program of pre-market evaluation of medical devices and enforcing safeguards for the testing of experimental devices in humans.
