Response Plan Work Sheet

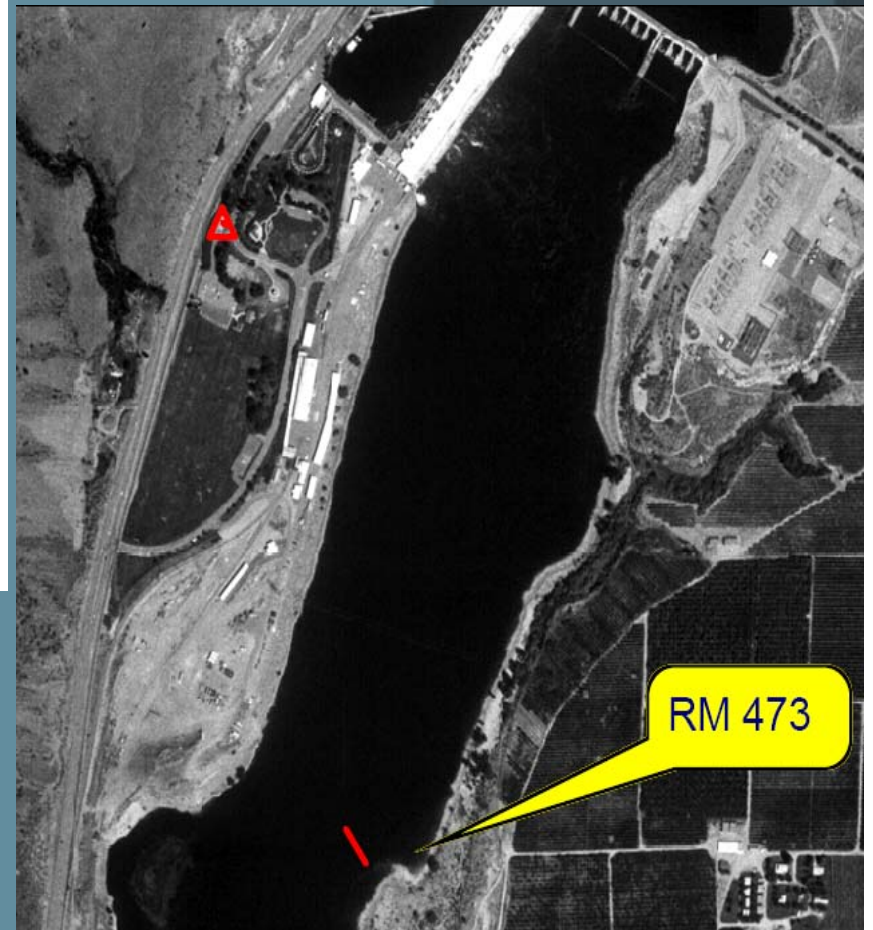

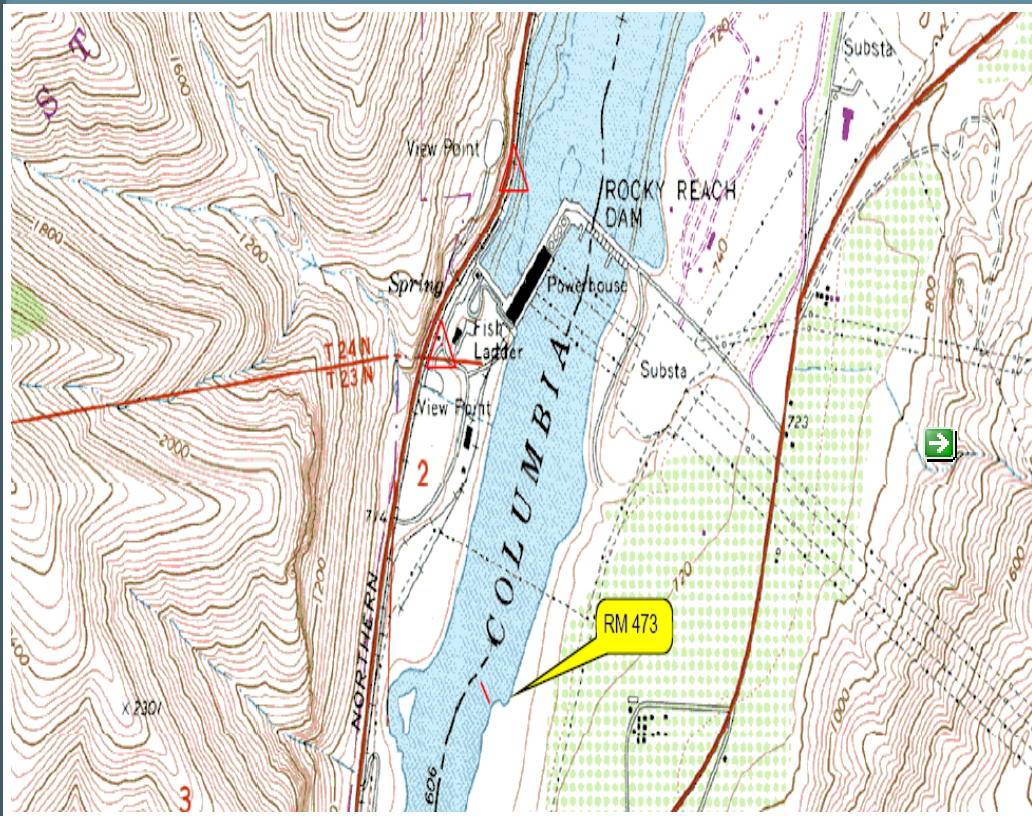

Project Name: The Dalles

example

- Lead Person: Jim Dennis
- Date: January 24, 2005
- **Item 1.** Identify strategies for first priority deployments ahead of Contractor responses. (Contractors are between 2- 6 hours away from Projects)
 - 1. GRP 191.3, 1000 feet of boom. Deflection strategy.
 - 2. The Dalles Marina, 500 feet of boom. Collection strategy.
- **Item 2.** Identify type and quantity of resources needed to accomplish the strategies.
 - 1. While many types and kinds of boom are available, "Super Swamp Boom" was suggested as a proven tool for consideration.
- **Item 3.** Develop a plan and time frame to purchase resources, receive and maintain training, test deployments, and create a specific annex to the Project Specific Spill Plan for Columbia River or Snake River Spills.
 - 1. Equipment will be purchased and in place by July, 2006.
 - 2. Fast Water training (EPA) will be completed by August, 2006.
