

## USAID's Repositioning Family Planning Online Resource Library

Repositioning Family Planning is a multilateral initiative to mobilize commitment and strengthen family planning services in sub-Saharan Africa, which has some of the highest levels of unmet need in the world. The initiative is working to secure increased political commitment for financial and human resources for family planning; to help strengthen participation and coordination among donors, partners, and the private sector; and to achieve more effective programming of resources.

### USAID Resources for Repositioning Family Planning

Through its many partners, USAID has supported production of numerous briefing papers, tool kits, case studies, and other publications that can help organizations address the need for increased emphasis on family planning in Africa.

**Visit USAID's Repositioning Family Planning Web Site**

**Step 1** ▶ go to [www.usaid.gov](http://www.usaid.gov)

**Step 2** ▶ find the red box **USAID Keyword**

**Step 3** ▶ type in **repositioning** and click go
