Individual Fishing Quota (IFQ) Program for Pacific Halibut and Sablefish; Amendment 72/64 To Revise Recordkeeping and Reporting Requirements

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule to implement Amendment 72 to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (Amendment 72) and Amendment 64 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (Amendment 64) (collectively, Amendments 72/64). This action will revise certain recordkeeping and reporting requirements for the Individual Fishing Quota (IFQ) Program for fixed gear Pacific halibut and sablefish fisheries and the Western Alaska Community Development Quota (CDQ) Program for the Pacific halibut fishery. This action is necessary to improve IFQ fishing operations, while complying with IFQ Program requirements; to improve NMFS' ability to efficiently administer the program; and to improve the clarity and consistency of IFQ Program regulations. This action is intended to meet the conservation and management requirements of the Northern Pacific Halibut Act of 1982 (Halibut Act) with respect to halibut and of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) with respect to sablefish and to further the goals and objectives of the groundfish Fishery Management Plans (FMPs).

DATES: This regulation becomes effective on August 28, 2003.

ADDRESSES: Copies of the Regulatory Impact Review/Final Regulatory Flexibility Analysis (RIR/FRFA) prepared for Amendment 72/64 may be obtained from Lori Durall, NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802, 907-586-7247. SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fisheries in the Exclusive Economic Zone (EEZ) off Alaska according to fishery management plans (FMPs) prepared by the North Pacific Fishery Management Council (Council) under the authority of the Magnuson-Stevens Act. The FMPs are implemented by regulations at 50 CFR part 679. General regulations that also pertain to these fisheries appear in subpart H to 50 CFR part 600.

The commercial halibut fishery in and off Alaska is managed under the Individual Fishing Quota (IFQ) program and the Western Alaska Community Development Quota (CDQ) program codified at 50 CFR part 679. The IFQ Program, a limited access management system for the fixed gear Pacific halibut (*Hippoglossus stenolepis*) and sablefish (*Anoplopoma fimbria*) fisheries in and off Alaska, was approved by NMFS in January 1993 and fully implemented beginning in March 1995. The IFQ Program for the sablefish fishery is implemented by the FMPs and Federal regulations under 50 CFR part 679 under authority of the Magnuson-Stevens Act. The IFQ Program for the halibut fishery and the CDQ program for halibut are implemented by Federal regulations promulgated under the authority of the Halibut Act.

Purpose and Need for Amendment 72/64

This action amends the regulatory text for some of the Recordkeeping and Reporting (R&R) requirements for the groundfish fishery, the IFQ program for halibut and sablefish, and the CDQ program for halibut. Revisions are made to the regulatory text to accommodate the procedural changes.

IFQ Vessel Clearance

Currently, regulations require that vessels with IFQ halibut or sablefish catch leaving the jurisdiction of the Council check in with NOAA Fisheries Office for Law Enforcement (OLE) at a certified "primary" port and have the vessel's hold sealed prior to departure. OLE personnel are not currently able to effectively determine catch quantity at the primary port and are unable to seal a vessel's hold without compromising vessel safety. The requirement for a Vessel Clearance is removed with this action.

IFQ Shipment Report and Product Transfer Report (PTR)

The function of the shipment report and the PTR is to document the movement of fish product. The PTR was designed for completion by a processor manager or operator to report to NMFS the movement of groundfish. The shipment report was designed for completion by a Registered Buyer to report to NMFS the movement of IFQ halibut, CDQ halibut and IFQ sablefish. In many cases, the manager or operator of a processor is also a Registered Buyer. The regulations require that both forms be completed, regardless of any duplication of effort. This action consolidates the shipment report into the PTR. The result is that the operator or manager that is also a Registered Buyer can document all fish in a shipment on one form. The revised PTR also works for the participant that is only an operator, manager or a Registered Buyer. The result for NMFS is one standard form. This action eliminates the shipment report and allows the collection of necessary information with fewer paperwork requirements.

IFQ Prior Notice of Landing (PNOL)

In the IFQ program, fishers are required to notify OLE before IFQ species are offloaded. This requirement provides OLE agents and officers the time necessary to travel to unmanned ports throughout Alaska to monitor specific IFQ offloads and to gather specifics about a vessel's catch prior to landing. In addition, the PNOL helps International Pacific Halibut Commission (IPHC) port samplers meet and interview the skipper during the offload and allows port samplers to optimally sample the landings and collect logbook information.

The PNOL is made by toll-free telephone to OLE a minimum of six hours before landing fish. As part of the PNOL, fishers must name the Registered

Buyer to whom they plan to deliver their fish.

This rule changes the time limit for the PNOL from 6 hours to 3 hours before landing. This action relieves restrictions on vessel operators by providing them additional time to seek markets prior to reporting the time and location of a landing. This rule also changes the requirement from naming a specific Registered Buyer to naming the place of landing. Requiring vessel operators to report a "location of landing" rather than a "Registered Buyer" provides shoreside data-collection and OLE personnel with the location of the landing while not requiring a vessel to deliver to a specific processor. This provides vessels additional flexibility to market their product.

IFQ Departure Report

The departure report was created as a prerequisite notice to a vessel clearance. If a vessel operator intended to obtain a vessel clearance at Bellingham, Washington, he or she would first submit an IFQ departure report to an OLE clearing officer by toll-free telephone. The IFQ departure report was submitted only after completion of all IFQ fishing and prior to departing the waters of the EEZ adjacent to the jurisdictional waters of the State of Alaska, the territorial sea of the State of Alaska, or the internal waters of the State of Alaska. This action removes the vessel clearance, and thus changes the function of the departure report. Instead of being a prerequisite to a vessel clearance, the departure report now will be the complete report submitted to OLE

by a vessel leaving the jurisdiction of the Council.

U.S. Vessel Activity Report (VAR)

A fisher is required to submit a VAR if his or her vessel is carrying fish or fish product onboard before the vessel crosses out of the jurisdiction of the Council. Some changes are made to the regulatory text for this form to incorporate "CDQ halibut" and to compensate for the removal of the vessel clearance.

Response to Comments

A Notice of Availability of Amendment 72/64 was published in the **Federal Register** on October 29, 2002 (67 FR 65941), inviting comments on the FMP amendment through December 27, 2002. NMFS received no comments. On January 24, 2003, the Secretary of Commerce approved Amendment 72/64 in its entirety.

NMFS published a proposed rule in the **Federal Register** on January 24, 2003 (68 FR 3485), which described the proposed regulatory amendment and invited comments from the public. No public comments were received on the proposed rule.

Changes from the Proposed Rule

Some technical, non-substantive changes are made in the final rule that were not presented in the proposed rule. These changes are the result of further review, intended to improve the rule for final publication. Fishery participants have requested guidance from NMFS on where to find separate R&R procedures for groundfish, IFQ and CDQ programs, as these programs become more integrated and thus more complicated.

Overviews are provided of the three programs to assist the reader to find detailed information on specific programs. Clarification is provided on where to find information that already exists in different parts of the regulations.

The changes from the proposed rule are organized in three categories. Each of the three categories affects many paragraphs. The affected paragraphs are arranged below in order of appearance in the 50 CFR part 679 regulatory text.

CDQ Halibut

The IFQ and CDQ permits and cards are issued separately, under the IFQ Program and the CDQ Program. However, the IFQ halibut, CDQ halibut, and IFQ sablefish fisheries are managed and monitored by the IFQ Program. The Registered Buyer permit authorizes receipt of CDQ halibut in the same manner as receipt of IFQ halibut or IFQ sablefish. Some of the revisions clarify the administrative procedures that currently exist for halibut accounting in the IFQ Program and in the CDQ Program but which do not appear in regulatory text. Wherever CDQ halibut formerly was "understood" to be included in the phrase IFQ halibut, the regulatory text is revised to specifically state "CDQ halibut." In addition, a distinction is made between "halibut CDQ," which is a type of fish allocation and "CDQ halibut," which is a type of fish. CDQ halibut is treated the same administratively as IFQ halibut, and has been since the beginning of the CDQ halibut program. The following table 1 shows how CDQ halibut changes are incorporated into the regulatory text.

TABLE 1.—CHANGES TO REGULATORY TEXT DUE TO THE ADDITION OF "CDQ HALIBUT"

Paragraph	From	To
Revise § 679.2, definition for "dockside sale".	Transfer of IFQ transfer of IFQ sablefish	Transfer of IFQ halibut, CDQ halibut or IFQ sablefish.

In the proposed rule, the wording of this definition was changed to read "Any loading, offloading, shipment or receipt of any IFQ halibut, CDQ halibut, or IFQ sablefish product * * *" This is incorrect because receipt of IFQ halibut or CDQ halibut is not considered a transfer, so the text is corrected in this rule to read "Any loading, offloading, or shipment of any IFQ halibut or CDQ halibut product * * *" The two subparagraphs of the definition of "transfer" are changed such that paragraph (1) refers to IFQ sablefish and any other groundfish, while paragraph (2) refers to IFQ halibut and CDQ halibut.		
Revise § 679.4(d)(3)(i)	To receive and make an IFQ landing by an IFQ permit or card holder.	To receive and make an IFQ landing by an IFQ permit or card holder or to receive and make a CDQ halibut landing by a CDQ permit or cardholder.

Redesignate § 679.32(f)(3) through (5) as § 679.32(f)(2) through (4), respectively.		

Registered Buyer

These revisions correct the term “IFQ Registered Buyer” to read “Registered Buyer.” The term “IFQ” is removed from “IFQ Registered Buyer” everywhere it occurs in the regulatory text. With the inclusion of CDQ halibut

regulatory text, it is necessary to make the term “Registered Buyer” more general. The Registered Buyer permit authorizes receipt of CDQ halibut in the same manner as IFQ halibut. This change is necessary to include “CDQ halibut” in the regulatory text that

describes the functions of a Registered Buyer. Where only this change occurs in a paragraph, it is listed in Table 2, below. If a paragraph has more corrections than the “Registered Buyer” correction, that paragraph is included in either Tables 1 or 3.

Revisions and Adjustments

These revisions shown in Table 3, below, include cross reference

corrections, cross reference additions, improvements in text clarity, addition of an effective date of two paragraphs, removal of obsolete text, replacing

“recordkeeping and reporting” with “R&R” for clarity and brevity, and correction of a typographic error.

Classification

The Administrator, Alaska Region, NMFS, determined that Amendments 72/64 are necessary for the conservation and management of the IFQ Pacific halibut and sablefish fisheries and that they are consistent with the Magnuson-Stevens Act, the Halibut Act, and other applicable laws.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

NMFS prepared an RIR/Initial Regulatory Flexibility Analysis (IRFA) for the proposed amendments that describes the management background, the purpose and need for action, the management alternatives, and the socioeconomic impacts of the alternatives. The public comment period ended on February 24, 2003. No comments on the economic impacts of the proposed rule were received.

NMFS is aware of no existing relevant Federal rules which duplicate, overlap, or conflict with this final rule.

NMFS prepared a Final Regulatory Flexibility Analysis (FRFA) pursuant to Section 604(a) of the Regulatory Flexibility Act, which describes the impact this final rule may have on small entities. The FRFA incorporates the IRFA and its findings. A copy of the FRFA is available from NMFS (see ADDRESSES). A summary of the FRFA follows.

The actions included in this regulatory amendment would potentially affect all individuals, corporations or partnerships, or other collective entities holding QS. This action could also affect all six of the CDQ groups that hold halibut CDQ. At the end of the 2001 IFQ season, 3,485 persons (individuals, corporations, and other entities) held halibut QS; 872 persons held sablefish QS. In addition, all six of the CDQ groups have halibut CDQ allocations. A total of 270

individuals landed CDQ halibut in 2001 and may be affected by this regulation. NMFS/RAM issued 694 permits for Registered Buyers in 2001; of these, 215 reported landings.

An examination of limits on quota share holdings indicates that all of the halibut and sablefish fishing operations are small entities. CDQ operations are small entities because they are non-profits. In the absence of data on employment and affiliation, the registered buyers have been assumed to be small entities.

This regulation does not impose new recordkeeping or reporting requirements on the regulated small entities.

Three alternatives were considered to the action modifying PNOL requirements on fishermen. The status quo, maintaining the PNOL and six hour reporting requirements, was rejected because it did not address the concerns raised by industry with the existing rule. Complete elimination of the PNOL requirement was rejected because, although it would have reduced the burden on small entities, it would adversely affect data-collection, monitoring, and enforcement operations. A third alternative would have reduced the burden on fishermen by randomly applying the PNOL requirements to a sample of vessels. This alternative was rejected because it may have required a new "hail out" report from fishermen as they left port, and communication with fishermen at sea to let them know they had been randomly selected. IPHC port sampling may be adversely affected by this alternative. NOAA enforcement efforts would be complicated.

The NPFMC and NMFS considered one alternative to the status quo "offload window" between 6 a.m. and 6 p.m. This would have extended the offload window requirements so that fishermen would have had to begin

offloading between 6 a.m. and 12 a.m. This alternative would have reduced the burden on small fishing entities compared to the status quo. However, this alternative could adversely affect current port sampling techniques used by the IPHC and increase their overall staffing costs, and potentially increase the labor costs for Registered Buyers. Industry indicated to the Council during the development of this action that extending the offload window would not be necessary if the PNOL were modified.

The status quo was considered as an alternative to the action to relax the requirement that IFQ vessels check in at a NMFS certified port prior to leaving the jurisdiction of the Council, but it was rejected. The status quo would not have addressed industry concerns about the vessel clearance requirements. The preferred alternative will not compromise enforcement activity. Because enforcement personnel are not currently able to effectively determine catch quantity at the vessel clearance port and are unable to seal a vessel's hold without compromising vessel safety, no effective difference occurs between a verbal "departure report" and the verbal vessel clearance report given in a certified port.

The status quo was considered as an alternative to the consolidation of the PTR and the shipment reports, but was rejected. That alternative would not have addressed industry concerns about duplication in reporting requirements. The preferred alternative collects necessary information with fewer paperwork requirements.

This rule contains collection-of-information requirements subject to the Paperwork Reduction Act (PRA) and which have been approved by OMB. These requirements are listed by OMB control number.

OMB No. 0648-0213: 20 minutes for a product transfer report, and 14 minutes for a vessel activity report.

OMB No. 0648-0272: 12 minutes for a prior notice of landing, 18 minutes for an IFQ/CDQ landing report, 6 minutes for IFQ dockside sales receipts, 15 minutes for an IFQ departure report, and 12 minutes for an IFQ transshipment authorization, 30 minutes for Registered Buyer's permit application, 30 minutes for CDQ halibut or IFQ landing card.

Response times include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number. Send comments regarding these burden estimates, or any other aspect of these data collections, including suggestions for reducing the burden, to NMFS (see ADDRESSES) and to OMB at the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: NOAA Desk Officer).

In conclusion, these actions will improve the efficiency of data collection required under existing IFQ regulations and will implement recommendations received from industry, enforcement and management. Based on the foregoing conclusions, these revisions to R&R for the IFQ fisheries and CDQ halibut fishery will not substantively alter environmental impacts already analyzed within existing environmental documents.

The legislative authorities for these actions are the Magnuson-Stevens Fishery Conservation and Management Act, Pub. L. 94-265, 16 U.S.C. 1801 (Magnuson-Stevens Act), and the Northern Pacific Halibut Act of 1982 (NPHA) Pub. L. 97-176, 16 U.S.C. 773c (c).

The vessel operator must have a copy of the halibut CDQ permit on any fishing vessel operated by, or for, a CDQ group that will have halibut CDQ onboard and must make the permit available for inspection by an authorized officer. The halibut CDQ permit is non-transferable and is issued annually until revoked, suspended, or modified.

(3) *Halibut CDQ card.* An individual must have onboard the vessel a valid halibut CDQ card issued by the Regional Administrator before landing any CDQ halibut. Each halibut CDQ card will identify a CDQ permit number and the individual authorized by the CDQ group to land halibut for debit against the CDQ group's halibut CDQ.

(4) *Alteration.* No person may alter, erase, mutilate, or forge a halibut CDQ permit, landing card, Registered Buyer permit, or any valid and current permit or document issued under this part. Any such permit, card, or document that has been intentionally altered, erased, mutilated, or forged is invalid.

 (g) *Product Transfer Report (PTR)*—(1) *General requirements.* Except as provided in paragraphs (g)(1)(i) through

(vi) of this section, the operator of a mothership or catcher/processor or the manager of a shoreside processor or stationary floating processor must

complete and submit a separate PTR for each transfer (shipment or receipt) of groundfish and donated prohibited species caught in groundfish fisheries.

In addition, a Registered Buyer must submit a separate PTR for each transfer (shipment only) of halibut or sablefish for which the Registered Buyer submitted an IFQ landing report or was required to submit an IFQ landing report. A PTR is not required to accompany a shipment or transfer.

(i) *Exemption: Bait sales (non-IFQ groundfish only).* The operator or manager may aggregate individual sales or transfers of non-IFQ groundfish to vessels for bait purposes during a day onto one PTR when recording the amount of such bait product transferred from a vessel or facility that day.

(ii) *Exemption: Retail sales.* For retail sales destined for human consumption and weighing less than 10 lb or 4.5 kilograms, the operator, manager, or Registered Buyer may aggregate and record on one PTR, the amount of such retail product transferred during one calendar day.

(iii) *Exemption: Wholesale sales (non-IFQ groundfish only).* The operator or manager may aggregate and record on one PTR, wholesale sales of non-IFQ groundfish by species when recording the amount of such wholesale species leaving a vessel or facility in one calendar day, if invoices detailing destinations for all of the product are available for inspection by an authorized officer.

(B) A person holding a valid halibut CDQ permit, halibut CDQ card, and Registered Buyer permit may conduct a dockside sale of CDQ halibut with a person who has not been issued a Registered Buyer permit after all CDQ halibut have been landed and reported in accordance with § 679.5(l).

(C) A Registered Buyer conducting dockside sales must issue a receipt to each individual receiving IFQ halibut, CDQ halibut, or IFQ sablefish in lieu of a PTR. This receipt must include the date of sale or transfer, the Registered Buyer permit number, and the weight by product of the IFQ halibut, CDQ halibut or IFQ sablefish transferred. The Registered Buyer must maintain a copy of each dockside sales receipt as described in § 679.5(l).

(vi) *Exemption: transfer directly from the landing site to a processing facility (CDQ halibut, IFQ halibut, or IFQ sablefish only).* A PTR is not required for transportation of unprocessed IFQ halibut, IFQ sablefish, and CDQ halibut directly from the landing site to a facility for processing, provided the following conditions are met:

(A) A copy of the IFQ Landing Report receipt (Internet or transaction terminal receipt) documenting the IFQ landing accompanies the offloaded IFQ halibut, IFQ sablefish, and CDQ halibut while in transit.

(B) A copy of the IFQ Landing Report receipt is available for inspection by an authorized officer.

(C) The Registered Buyer submitting the IFQ Landing Report completes a PTR for each transfer from the processing facility of IFQ halibut, CDQ

halibut and IFQ sablefish transported in this manner.

* * * * *

(k) *U.S. Vessel Activity Report (VAR)—(1) Who needs to submit a VAR?—(i) Fish or fish product onboard.* Except as noted in paragraph (k)(1)(iv) of this section, the operator of a catcher vessel greater than 60 ft (18.3 m) LOA, a catcher/processor, or a mothership required to hold a Federal fisheries permit issued under this part and carrying fish or fish product onboard must complete and submit a VAR by FAX or electronic file to OLE, Juneau,

AK (907-586-7313) before the vessel crosses the seaward boundary of the EEZ off Alaska or crosses the U.S.-Canadian international boundary between Alaska and British Columbia.

(ii) *Combination of non-IFQ groundfish with IFQ halibut, CDQ halibut, or IFQ sablefish.* If a vessel is carrying non-IFQ groundfish and IFQ halibut, CDQ halibut or IFQ sablefish, the operator must submit a VAR in addition to an IFQ Departure Report per paragraph (l)(4) of this section.

(iii) *Revised VAR.* If fish or fish products are landed at a port other than the one specified on the VAR, the vessel operator must submit a revised VAR showing the actual port of landing before any fish are offloaded.

(iv) *Exemption: IFQ Departure Report.* If a vessel is carrying only IFQ halibut, CDQ halibut, or IFQ sablefish onboard and the operator has submitted an IFQ Departure Report per paragraph (l)(4) of this section, a VAR is not required.

(2) *Information required.* Whether original or revised VAR; name and Federal fisheries permit number of vessel; type of vessel (whether catcher

vessel, catcher/processor, or mothership); and representative information (see paragraph (b)(2) of this section).

(i) *Return report*. "Return," for purposes of this paragraph, means returning to Alaska. If the vessel is crossing into the seaward boundary of the EEZ off Alaska or crossing the U.S.-Canadian international boundary between Alaska and British Columbia into U.S. waters, indicate a "return" report and enter:

(A) Intended Alaska port of landing (see Table 14 to this part);

(B) Estimated date and time (hour and minute, Greenwich mean time) the vessel will cross;

(C) The estimated position coordinates the vessel will cross.

(ii) *Depart report*. "Depart" means leaving Alaska. If the vessel is crossing out of the seaward boundary of the EEZ off Alaska or crossing the U.S.-Canadian international boundary between Alaska and British Columbia into Canadian waters, indicate a "depart" report and enter:

(A) The intended U.S. port of landing or country other than the United States;

(B) Estimated date and time (hour and minute, Greenwich mean time) the vessel will cross;

(C) The estimated position coordinates in latitude and longitude the vessel will cross.

(iii) *The Russian Zone*. Indicate whether your vessel is returning from fishing in the Russian Zone or is departing to fish in the Russian Zone.

(iv) *Fish or fish products*. For all fish or fish products (including non-groundfish) on board the vessel, enter: Harvest zone code; species codes; product codes; and total fish product weight in lbs or to the nearest 0.001 mt.

(1) *IFQ halibut, CDQ halibut or IFQ sablefish R&R*. In addition to the R&R requirements in this section and as prescribed in the annual management measures published in the **Federal Register** pursuant to § 300.62 of this title, the following reports and authorizations are required, when applicable: IFQ Prior Notice of Landing, Product Transfer Report (see § 679.5(g)), IFQ Landing Report, IFQ Transshipment Authorization, and IFQ Departure Report.

(1) *IFQ Prior Notice of Landing (PNOL)*—(i) *Time limits and submittal*. (A) Except as provided in paragraph (1)(1)(iv) of this section, the operator of any vessel making an IFQ landing must notify OLE, Juneau, AK, no fewer than 3 hours before landing IFQ halibut, CDQ halibut, or IFQ sablefish, unless permission to commence an IFQ landing

within 3 hours of notification is granted by a clearing officer.

(B) A PNOL must be made to the toll-free telephone number 800-304-4846 or to 907-586-7163 between the hours of 0600 hours, A.l.t., and 2400 hours, A.l.t.

(ii) *Revision to PNOL*. The operator of any vessel wishing to make an IFQ landing before the date and time (A.l.t.) reported in the PNOL or later than 2 hours after the date and time (A.l.t.) reported in the PNOL must submit a new PNOL as described in paragraphs (1)(1)(i) and (iii) of this section.

(iii) *Information required*. A PNOL must include the following:

(G) IFQ permit number(s) that will be used to land the IFQ halibut, CDQ halibut, or IFQ sablefish.

(iv) *Exemption*. An IFQ landing of halibut of 500 lb or less of IFQ weight determined pursuant to § 679.42(c)(2) and concurrent with a legal landing of salmon or a legal landing of lingcod harvested using dinglebar gear is exempt from the PNOL required by this section.

(2) *IFQ Landing report*—(i) *Requirements*—(A) *All IFQ halibut, CDQ halibut and IFQ sablefish catch debited*. Except as provided in paragraph 679.40(g) of this section, all IFQ halibut, CDQ halibut, and IFQ sablefish catch must be weighed and debited from the IFQ permit holder's account or CDQ halibut permit holder's account under which the catch was harvested.

(B) *Single offload site for halibut*. The vessel operator who lands IFQ halibut or CDQ halibut must continuously and completely offload at a single offload site all halibut on board the vessel.

(C) *Single offload site for sablefish*. The vessel operator who lands IFQ sablefish must continuously and completely offload at a single offload site all sablefish on board the vessel.

(D) *Remain at landing site*. Once the landing has commenced, the IFQ cardholder or CDQ cardholder and the harvesting vessel may not leave the landing site until the IFQ halibut, IFQ

sablefish or CDQ halibut account is properly debited (as defined in paragraph (1)(2)(iv)(D) of this section).

(E) *No movement of IFQ halibut, CDQ halibut, or IFQ sablefish*. The offloaded IFQ halibut, CDQ halibut, or IFQ sablefish may not be moved from the landing site until the IFQ Landing Report is received by OLE, Juneau, AK, and the IFQ cardholder's or CDQ cardholder's account is properly debited (as defined in paragraph (1)(2)(iv)(D) of this section).

(ii) *Time limits*. (A) A landing of IFQ halibut, CDQ halibut, or IFQ sablefish may commence only between 0600 hours, A.l.t., and 1800 hours, A.l.t., unless permission to land at a different time (waiver) is granted in advance by a clearing officer.

(B) A Registered Buyer must submit a completed IFQ Landing Report within 6 hours after all IFQ halibut, CDQ halibut, or IFQ sablefish are landed and prior to shipment or transfer of said fish from the landing site.

(iii) *Information required*. The Registered Buyer must enter accurate information contained in a complete IFQ Landing Report as follows:

(A) Date and time (A.l.t.) of the IFQ landing;

(B) Location of the IFQ landing (port code or if at sea, lat. and long.);

(C) Name and permit number of the IFQ cardholder or CDQ cardholder;

(D) Name and permit number of Registered Buyer receiving the IFQ halibut, IFQ sablefish, or CDQ halibut;

(E) The harvesting vessel's name and ADF&G vessel registration number;

(F) Gear code used to harvest IFQ species;

(G) Alaska State fish ticket number(s) for the landing;

(H) ADF&G statistical area of harvest reported by the IFQ cardholder;

(I) If ADF&G statistical area is bisected by a line dividing two IFQ regulatory areas, the IFQ regulatory area of harvest reported by the IFQ cardholder;

(J) For each ADF&G statistical area of harvest:

(1) Except as provided in paragraph (1)(2)(iii)(J)(2) of this section, the species codes, product codes, and initial accurate scale weight(s) (in pounds or to the nearest thousandth of a metric ton) made at the time of offloading for IFQ halibut, IFQ sablefish, or CDQ halibut sold and retained.

(2) If the vessel operator is the Registered Buyer reporting the IFQ landing, the accurate weight of IFQ sablefish processed product obtained before the offload may be substituted for the initial accurate scale weight at time of offload.

(K) Initial accurate scale weight(s) with or without ice and slime, as

appropriate, of fish as offloaded from the vessel. Fish which have been washed prior to weighing or which have been offloaded from refrigerated salt water are not eligible for a 2-percent deduction for ice and slime and must be reported as fish weights without ice and slime.

(L) If IFQ halibut is incidental catch concurrent with legal landing of salmon or concurrent with legal landing of lingcod harvested using dinglebar gear.

(M) After the Registered Buyer enters the landing data in the transaction terminal or the Internet submission form(s) and receipts are printed, the Registered Buyer, or his/her representative, and the IFQ cardholder or CDQ cardholder must sign the receipts to acknowledge the accuracy of the IFQ Landing Report.

(iv) *Submittals.* Except as indicated in paragraph (1)(2)(iv)(C) of this section, IFQ landing reports must be submitted electronically to OLE, Juneau, AK, either by using an electronic transaction terminal or by using the Internet as indicated below:

(A) *Transaction terminal.* Landing Reports submitted using magnetic strip cards issued by NMFS, Alaska Region, and transaction terminals with printers driven by custom-designed software as provided and/or specified by NMFS, Alaska Region.

(3) The Registered Buyer must enter additional log-in information, including his or her password, and provide landing information requested by the system.

(C) *Manual landing report.* Waivers from the transaction terminal or Internet reporting requirement can only be granted in writing on a case-by-case basis by a local clearing officer. If a

waiver is granted, manual landing instructions must be obtained from OLE, Juneau, AK, at 800-304-4846 (Select Option 1). Registered Buyers must complete and submit manual Landing Reports by FAX to OLE, Juneau, AK, at 907-586-7313. When a waiver is issued, the following additional information is required: whether the manual Landing Report is an original or revised; and name, telephone number, and FAX number of individual submitting the manual Landing Report.

(D) *Properly debited landing.* A properly concluded transaction terminal receipt, or printed Internet submission receipt, or a manual landing report receipt which is sent by FAX from OLE to the Registered Buyer, and which is then signed by both the Registered Buyer and cardholder constitutes confirmation that OLE received the landing report and that the cardholder's account is properly debited. A copy of each receipt must be maintained by the Registered Buyer as described in § 679.5(l).

(3) *Transshipment authorization.* (i) No person may transship processed IFQ halibut, CDQ halibut, or IFQ sablefish between vessels without authorization by a local clearing officer. Authorization from a local clearing officer must be obtained for each instance of transshipment at least 24 hours before the transshipment is intended to commence.
