7 SECTION 3. There is appropriated out of the general
8 revenues of the State of Hawaii the sum of \$50,000 or so much
9 thereof as may be necessary for fiscal year 2006-2007 for
10 research and support services, including reimbursement of
11 expenses for members.

12 The sum appropriated shall be expended by the office of the
13 auditor for the purposes of this Act.

14 SECTION 4. All appropriations, records, equipment,
15 machines, files, supplies, contracts, books, papers, documents,
16 maps, and other personal property heretofore made, used,
17 acquired, or held by the department of the attorney general
18 relating to the functions transferred to the office of the
19 auditor shall be transferred with the functions to which they
20 relate.

1 PART II

2 SECTION 5. Numerous law enforcement agencies in the state
3 have adopted and implemented strategies to address and combat
4 the increasing problem of identity theft. In particular, the
5 department of the attorney general has committed a substantial
6 amount of its resources and has worked closely with almost every
7 criminal enforcement authority in the state in an effort to
8 thwart identity theft. In 2002, the department created the
9 Hawaii high technology crime unit to increase the number of
10 investigations and prosecutions of computer-related crimes. The
11 unit focuses on prosecuting crimes involving Internet fraud and
12 recovering money for victims. The unit also creates and
13 administers task forces, which are composed of federal, state,
14 and county law enforcement agencies. The task forces coordinate
15 investigations, share resources, and provide community outreach.

16 Despite current participation from various departments and
17 agencies, more effort is needed to effectively combat the
18 occurrence of identity theft, prosecute criminals, and enforce
19 penalties. Law enforcement authorities track identity theft
20 crimes in various ways; the current tracking methods do not
21 provide accurate statistical information about identity theft in
22 the state. A uniform system of tracking will provide law

1 enforcement authorities with a better understanding of the depth
2 and pervasiveness of the problem in Hawaii.

3 Once adopted and implemented by law enforcement
4 authorities, the uniform tracking and reporting system will
5 yield better statistics on the range and breadth of identity
6 theft and electronic crimes. The compiled data is intended to
7 be used to support a future U.S. Secret Service application for
8 designation of Hawaii as one of its regional centers for the
9 Electronic Crimes Task Force.

10 SECTION 6. There is appropriated out of the general
11 revenues of the State of Hawaii the sum of \$50,000 or so much
12 thereof as may be necessary for fiscal year 2006-2007 for the
13 high technology crime unit and the crime prevention and justice
14 assistance division of the department of the attorney general to
15 develop a uniform system of tracking identity theft crimes.

16 The sum appropriated shall be expended by the department of
17 the attorney general for the purposes of this Act.

18 SECTION 7. Statutory material to be repealed is bracketed
19 and stricken. New statutory material is underscored.

20 SECTION 8. This Act shall take effect upon its approval;
21 provided that sections 3 and 6 shall take effect on July 1,
22 2006.
