

producer member; Region 2: Delaware, Maryland, New Jersey, Pennsylvania, the District of Columbia, West Virginia, and Virginia—3 producer members; Region 3: Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah, and Washington—2 producer members; Region 4: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, the Commonwealth of Puerto Rico, South Carolina, Tennessee, and Texas—2 producer members; and Region 5: importers; 1 member. Based on data for July 1, 2002, through June 30, 2005, there are about 725 million pounds of mushrooms assessed on average annually under the Order. Currently, the Order's Regions 1, 2, 3, 4, and 5 represent 32 million pounds, 382 million pounds, 133 million pounds, 113 million pounds, and 65 million pounds, respectively. Since Region 1 represents 32 million pounds of mushroom production, the region no longer qualifies for member representation because production within the region falls below the 35 million pounds Order requirement.

Based on data for the July 1, 2002, through June 30, 2005, the Order is revised to reapportion membership of the Council to reflect shifts in the geographic distribution of mushroom production. The annual average production of mushrooms for the Order's Regions 1, 2, 3, 4, and 5 as adopted in this rule will be 168 million pounds, 382 million pounds, 109 million pounds, 0 million pounds, and 65 million pounds. As adopted in this rule, Regions 1, 2, and 3 will be comprised of states with mushroom production, and Region 4 will be comprised of all other states with no mushroom production.

Based on a review of United States mushroom production volume and import volume, this rule adopts amendments to change the four United States geographic regions as follows: Region 1—the States of Colorado, Oklahoma, Wyoming, Washington, Oregon, Florida, Illinois, Tennessee, Texas and Utah; Region 2—the State of Pennsylvania; Region 3—the State of California; and Region 4—all other States including the District of Columbia and the Commonwealth of Puerto Rico. Also, the amendments changes the number of Council member representatives from one member to three members for Region 1 and from two members to zero members for Region 4. Representation for Region 2, Region 3, and importers remain unchanged at three members, two members, and one member, respectively. The amendments, which

represent shifts in mushroom production volume, provides more equitable producer and importer representation on the Council based on U. S. mushroom production volumes and import volumes.

Nominations and appointments to the Council are conducted pursuant to §§ 1209.30 and 1209.230. Nominations for Council positions for terms of office that begin January 1, 2008 will be based on the amendments contained in this rule.

An interim final rule that reapportions the four United States geographic regions, and reallocates Council member representation under the Order was published in the **Federal Register** on March 19, 2007 [72 FR 12701]. The interim final rule provided for a 30-day comment period, which ended on April 18, 2007. One comment was received from the Council supporting the change.

After consideration of all relevant material presented, including the Board's recommendation and other information, the interim final rule as published in the **Federal Register** (72 FR 12701, March 19, 2007) is adopted, as a final rule, without change.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 70

RIN 3150–AH62

Conforming Administrative Changes

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is making conforming changes to citations in the regulatory text. This action is necessary to inform the public of these conforming changes to NRC regulations.

DATES: *Effective Date:* June 27, 2007.

FOR FURTHER INFORMATION CONTACT: Michael K. Williamson, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: (301) 415–6234, e-mail: *mkw1@nrc.gov*.

SUPPLEMENTARY INFORMATION: In September 2000, when part 70 was amended, a new Subpart H to part 70 was added which resulted in former § 70.61 being redesignated as § 70.81 and former § 70.62 being redesignated as § 70.82. Additionally, former § 70.71 was redesignated as § 70.91. NRC is amending its regulations to make conforming changes to citations in the regulatory text by replacing § 70.61 with § 70.81, replacing § 70.62 with § 70.82, and replacing § 70.71 with § 70.91, to update and correct cross-references within 10 CFR part 70. In addition, in September 2000, § 70.14 was redesignated as § 70.17 as referenced in § 70.51.

Because these amendments deal solely with correcting cross references in the regulations, the notice and comment provisions of the Administrative Procedure Act do not apply, under 5 U.S.C. 553(b)(B), because good cause exists to make these ministerial changes without unnecessary notices and public procedure. This amendment will become effective upon publication in the **Federal Register**. Good cause exists to dispense with the usual 30-day delay in the effective date, under 5 U.S.C. 553(d)(3), because this amendment is of a minor and administrative nature.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an

environmental assessment has been prepared for this final rule.

Paperwork Reduction Act

This final rule does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Existing requirements were approved by the Office of Management and Budget (OMB), approval numbers 3150-0009, 3150-0028, and 3150-0056.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.

Regulatory Analysis

A regulatory analysis has not been prepared for this final rule, because this rule is administrative, in that it amends the regulations to reflect administrative conforming changes made to 10 CFR part 70. This is considered a minor non-substantive amendment and will not have a significant impact on NRC licensees or the public.

Backfit Analysis

The NRC has determined that the backfit rule (§§ 50.109, 70.76, 72.62, or 76.76) does not apply to this final rule because this amendment does not involve any provisions that would impose backfits as defined in the backfit rule. This amendment is considered a minor non-substantive amendment; therefore, a backfit analysis is not required.
