Dear Applicant:

Thank you for your interest in applying for a grant under the Fulbright-Hays Faculty Research Abroad (FRA) program. Included in this application booklet are the program introduction, instructions, and forms needed to submit a complete application package to the U.S. Department of Education.

Institutional grants awarded under the FRA program provide fellowships to enable faculty members of institutions of higher education to conduct research overseas in the fields of modern language and area studies for 3-12 months.

This letter highlights a few items in the Fiscal Year (FY) 2008 application package that will be important to you in applying for grants under this program. You should review the entire application package carefully before preparing and submitting your application. Information on the FRA Program is accessible at the U.S. Department of Education (Department) Web site at:

<http://www.ed.gov/programs/iegpsfra/index.html>

Applicants should pay particular attention to the section entitled "Competition Highlights" that outlines the absolute and competitive priorities as well as other program and competition details.

A FRA application must be submitted on behalf of the applicant faculty member by a U.S. institution of higher education (IHE). In order for institutions to apply electronically, representatives from institutions of higher education (e.g., project directors) must register in the e-Application system. Project directors who have not already registered must submit the following information, via e-mail, to: amy.wilson@ed.gov: first and last name of the project director, university, and e-mail address. We recommend that applicant IHEs submit this information as soon as possible to ensure that applicant IHEs obtain access to the e-Application system well before the application deadline date. We suggest that applicant IHEs send this information no later than August 29, 2007, in order to facilitate timely submission of their electronic applications.

A list of FRA institutions and project directors who have registered in e-Application in previous years is included in this application. If an institution is not listed, or the project director has changed, you are still welcome to apply. Please contact Amy Wilson, FRA program officer with the above information as soon as possible.

The Department of Education is requiring that applications for FY 2008 grants under the FRA program be submitted electronically using the Department's e-application system. The e-application system is accessible through its portal page at:

<http://e-grants.ed.gov/egWelcome.asp>

The application must be submitted on or before the deadline date. Electronic submission of applications is required; therefore, you must submit an electronic application unless you follow

the procedures in the Closing Date Notice and qualify for one of the exceptions to the electronic submission requirement. If you think you may need an exception you are urged to review the requirements promptly. Applications submitted late will not be accepted. The Department is required to enforce the established deadline to ensure fairness to all applicants. No changes or additions to an application will be accepted after the deadline date.

You are reminded that the document published in the Federal Register (the Closing Date Notice) is the official document, and that you should not rely upon any information that is inconsistent with the guidance contained in the official document.

We look forward to receiving your application and appreciate your efforts to promote excellence in international education.

Sincerely,

Thomas C. Dawson III
Deputy Assistant Secretary
Higher Education Programs

IV. Application and Submission Information

1. Address to Request Application Package: Both IHEs and faculty applicants can obtain an application package via the

Internet. To obtain a copy via the Internet, use the following address:

<http://www.ed.gov/programs/iegpsfra/applicant.html>

IHEs and faculty applicants can also obtain a copy of the application package by contacting Amy Wilson, International Education Programs Service, U.S. Department of Education, 1990 K Street, NW., suite 6000, Washington, DC 20006-8521. Telephone: (202) 502-7689 or by email: amy.wilson@ed.gov

If you use a telecommunications device for the deaf (TDD), call the Federal Relay Service (FRS) toll-free, at 1-800-877-8339.

Individuals with disabilities can obtain a copy of the application package in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) by contacting the program contact person listed in this section.

2. Content and Form of Application Submission:

Requirements concerning the content of an application, together with the forms you must submit, are in the application package for this program.

Page Limit: The application narrative is where the faculty applicant addresses the selection criteria that reviewers use to evaluate the application. The faculty applicant must limit the application narrative to 10 pages and the bibliography to two (2) pages, using the following standards:

- A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.

- Double space (no more than three lines per vertical inch) all text in the application narrative. However, faculty applicants may single space all text in charts, tables, figures, graphs, titles, headings, footnotes, endnotes, quotations, bibliography, and captions.

- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).

- Use a 10-point font in charts, tables, figures, graphs, footnotes, and endnotes. However, these items are considered part of the narrative and counted within the 10-page limit.

- Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial. An application submitted in any other font (including Times Roman or Arial Narrow) will not be accepted.

The page limits only apply to the application narrative and bibliography. However, faculty applicants must include their complete responses to the selection criteria in the application narrative.

We will reject a faculty applicant's application if a faculty applicant applies these standards and exceeds the page limits.

3. Submission Dates and Times:

Applications Available: August 31, 2007.

Deadline for Transmittal of Applications: October 30, 2007.

Applications for grants under this program must be submitted electronically using the Electronic Grant Application

System (e-Application) available through the Department's e-Grants system. Please note that the application availability date for this competition is August 31, 2007. For information (including dates and times) about how to submit an IHE's application electronically or by mail or hand delivery if an IHE qualifies for an exception to the electronic submission requirement, please refer to Section IV. 6. Other Submission Requirements in this notice.

We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application should contact the person listed under For Further Information Contact in section VII in this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

4. Intergovernmental Review: This program is not subject to Executive Order 12372 and the regulations in 34 CFR part 79.

5. Funding Restrictions: We reference regulations outlining funding restrictions in the Applicable Regulations section in this notice.

6. Other Submission Requirements: Applications for grants under this program must be submitted electronically,

unless an IHE qualifies for an exception to this requirement in accordance with the instructions in this section.

We will reject an application if an IHE submits it in paper format unless, as described elsewhere in this section, the IHE qualifies for one of the exceptions to the electronic submission requirement and submits, no later than two weeks before the application deadline date, a written statement to the Department that the IHE qualifies for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

a. Electronic Submission of Applications.

Applications for grants under the Fulbright-Hays Faculty Research Abroad Fellowship Program -CFDA Number 84.019A must be submitted electronically using e-Application available through the Department's e-Grants system, accessible through the e-Grants portal page at: <http://e-grants.ed.gov>.

While completing the electronic application, both the IHE and the faculty applicant will be entering data online that will be saved into a database. Neither the IHE nor the faculty applicant may e-mail an electronic copy of a grant application to us.

Please note the following:

- The process for submitting applications electronically under the Fulbright-Hays Faculty Research Abroad Fellowship Program has several parts. The following is a brief summary of

the process; however, all applicants should review and follow the detailed description of the application process that is contained in the application package. In summary, the major parts are as follows: 1) IHEs must e-mail the following information to amy.wilson@ed.gov: name of university and full name and e-mail address of potential project director. We recommend that applicant IHEs submit this information as soon as possible to ensure that applicant IHEs obtain access to the e-Application system well before the application deadline date. We suggest that applicant IHEs send this information no later than August 29, 2007, in order to facilitate timely submission of their applications; 2) Faculty must complete their individual applications and submit them to their IHE's project director using e-Application; 3) Persons providing references for individual faculty must complete and submit reference forms for the faculty and submit them to the IHE's project director using e-Application; and 4) The IHE's project director must officially submit the IHE's application, which must include all eligible individual faculty applications, reference forms, and other required forms, using e-Application. Unless an IHE applicant qualifies for an exception to the electronic submission requirement in accordance with the procedures in this section, all portions of the application must be submitted electronically.

- The IHE must complete the electronic submission of the grant application by 4:30 p.m., Washington, DC time, on the

application deadline date. The e-Application system will not accept an application for this program after 4:30 p.m., Washington, DC time, on the application deadline date.

Therefore, we strongly recommend that both the IHE and the faculty applicant not wait until the application deadline date to begin the application process.

- The regular hours of operation of the e-Grants Web site are 6:00 a.m. Monday until 7:00 p.m. Wednesday; and 6:00 a.m. Thursday until midnight Saturday, Washington, DC time. Please note that the system is unavailable on Sundays, and between 7:00 p.m. on Wednesdays and 6:00 a.m. on Thursdays, Washington, DC time, for maintenance. Any modifications to these hours are posted on the e-Grants Web site.

- Faculty applicants will not receive additional point value because the faculty applicant submits his or her application in electronic format, nor will we penalize the IHE or faculty applicant if it qualifies for an exception to the electronic submission requirement, as described elsewhere in this section, and submits an application in paper format.

- IHEs must submit all documents electronically, including the Application for Federal Education Assistance (SF 424), the ED supplement to the SF 424, and all necessary assurances and certifications. Both IHEs and faculty applicants must attach any narrative sections of the application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If an IHE or a faculty applicant uploads a file type

other than the three file types specified above or submits a password protected file, we will not review that material.

- Both the IHE's and the faculty applicant's electronic application must comply with any page limit requirements described in this notice.

- Prior to submitting your electronic application, you may wish to print a copy of it for your records.

- After the individual faculty applicant electronically submits his or her application to their IHE, the faculty member will receive an automatic acknowledgment. In addition, the applicant IHE's Project Director will receive a copy of this acknowledgment by email. After a person submits a reference electronically, he/she will receive an online confirmation. After the applicant IHE submits its application, including all eligible individual faculty applications, to the Department, the applicant IHE will receive an automatic acknowledgment, which will include a PR/Award number (an identifying number unique to the IHE's application).

- Within three working days after submitting the IHE's electronic application, the IHE must fax a signed copy of the SF 424 to the Application Control Center after following these steps:

- (1) Print SF 424 from e-Application.

- (2) The applicant IHE's Authorizing Representative must sign this form.

(3) Place the PR/Award number in the upper right hand corner of the hard-copy signature page of the ED 424.

(4) Fax the signed ED 424 to the Application Control Center at (202) 245-6272.

- We may request that you provide us original signatures on other forms at a later date.

Application Deadline Date Extension in Case of e-Application

System Unavailability: If an IHE is prevented from electronically submitting its application on the application deadline date because the e-Application system is unavailable, we will grant the IHE an extension of one business day to enable the IHE to transmit its application electronically, by mail, or by hand delivery. We will grant this extension if--

(1) The IHE is a registered user of e-Application and the IHE has initiated an electronic application for this competition; and

(2) (a) The e-Application system is unavailable for 60 minutes or more between the hours of 8:30 a.m. and 3:30 p.m., Washington, DC time, on the application deadline date; or

(b) The e-Application system is unavailable for any period of time between 3:30 p.m. and 4:30 p.m., Washington, DC time, on the application deadline date.

We must acknowledge and confirm these periods of unavailability before granting the IHE an extension. To request this extension or to confirm our acknowledgement of any system unavailability, an IHE may contact either (1) the person listed

elsewhere in this notice under For Further Information Contact (see VII. Agency Contact) or (2) the e-Grants help desk at 1-888-336-8930. If the system is down and therefore the application deadline is extended, an e-mail will be sent to all registered users who have initiated an e-Application.

Extensions referred to in this section apply only to the unavailability of the Department's e-Application system.

Exception to Electronic Submission Requirement: An IHE qualifies for an exception to the electronic submission requirement, and may submit its application in paper format, if the IHE is unable to submit an application through the e-Application system because--

- the IHE or a faculty applicant does not have access to the Internet; or

- the IHE or a faculty applicant does not have the capacity to upload large documents to the Department's e-Application system;

and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), the IHE mails or faxes a written statement to the Department, explaining which of the two grounds for an exception prevent the IHE from using the Internet to submit its application. If an IHE mails a written statement to the Department, it must be postmarked no

later than two weeks before the application deadline date. If an IHE faxes its written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

Address and mail or fax this statement to: Amy Wilson, U.S. Department of Education, 1990 K Street, NW., suite 6000, Washington, DC 20006-8521. FAX: (202) 502-7860.

The IHE's paper application must be submitted in accordance with the mail or hand delivery instructions described in this notice.

b. Submission of Paper Applications by Mail.

If an IHE qualifies for an exception to the electronic submission requirement, the IHE may mail (through the U.S. Postal Service or a commercial carrier) its application to the Department. The IHE must mail the original and two copies of the application, on or before the application deadline date, to the Department at the applicable following address:

By mail through the U.S. Postal Service:

U.S. Department of Education
Application Control Center
Attention: (CFDA Number 84.019A)
400 Maryland Avenue, S.W.
Washington, DC 20202-4260

or

By mail through a commercial carrier:

U.S. Department of Education
Application Control Center - Stop 4260
Attention: (CFDA Number 84.019A)
7100 Old Landover Road
Landover, MD 20785-1506

Regardless of which address the IHE uses, the IHE must show proof of mailing consisting of one of the following:

- (1) A legibly dated U.S. Postal Service postmark,
- (2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service,
- (3) A dated shipping label, invoice, or receipt from a commercial carrier, or
- (4) Any other proof of mailing acceptable to the Secretary of the U.S. Department of Education.

If the IHE mails its application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

- (1) A private metered postmark, or
- (2) A mail receipt that is not dated by the U.S. Postal Service.

If the IHE's application is postmarked after the application deadline date, we will not consider its application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, the IHE should check with its local post office.

c. Submission of Paper Applications by Hand Delivery.

If an IHE qualifies for an exception to the electronic submission requirement, the IHE (or a courier service) may deliver its paper application to the Department by hand. The IHE must deliver the original and two copies of the application,

by hand, on or before the application deadline date, to the Department at the following address:

U.S. Department of Education
Application Control Center
Attention: (CFDA Number 84.019A)
550 12th Street, S.W.
Room 7041, Potomac Center Plaza
Washington, DC 20202-4260

The Application Control Center accepts hand deliveries daily between 8:00 a.m. and 4:30 p.m., Washington, DC time, except Saturdays, Sundays, and Federal holidays.

Note for Mail or Hand Delivery of Paper Applications: If an IHE mails or hand delivers its application to the Department:

(1) The IHE must indicate on the envelope and – if not provided by the Department – in Item 4 of the ED 424 the CFDA number – and suffix letter, if any – of the competition under which the IHE is submitting its application.

(2) The Application Control Center will mail a grant application receipt acknowledgment to the IHE. If the IHE does not receive the grant application receipt acknowledgment within 15 business days from the application deadline date, the IHE should call the U.S. Department of Education Application Control Center at (202) 245-6288.

We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application should contact the person listed under For Further Information Contact in

section VII in this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

V. Application Review Information

Faculty applications are divided into seven categories based on the world area focus of their research projects, as described in the absolute priority listed in this notice. Language and area studies experts in seven discrete world area-based panels will review the faculty applications. Each panel reviews, scores and ranks its applications separately from the applications assigned to the other world area panels. However, all fellowship applications will be ranked together from the highest to lowest score for funding purposes.

Selection Criteria: The following selection criteria for this competition are from 34 CFR 663.21 and are as follows: The maximum score for all of the criteria, including the competitive preference priority is 105 points. The maximum score for each criterion is indicated in parentheses. Quality of proposed project (60 points): In determining the quality of the research project proposed by the applicant, the Secretary considers (1) The statement of the major hypotheses to be tested or questions to be examined, and the description and justification of the research methods to be used (10 points); (2) The relationship of the research to the literature on the topic and to major

theoretical issues in the field, and the project's originality and importance in terms of the concerns of the discipline (10 points); (3) The preliminary research already completed or plans for research prior to going overseas, and the kinds, quality and availability of data for the research in the host country or countries (10 points); (4) The justification for overseas field research and preparations to establish appropriate and sufficient research contacts and affiliations abroad (10 points); (5) The applicant's plans to share the results of the research in progress with scholars and officials of the host country or countries and the American scholarly community (10 points); and (6) The objectives of the project regarding the sponsoring institution's plans for developing or strengthening, or both, curricula in modern foreign languages and area studies(10 points). Qualifications of the applicant (40 points): In determining the qualifications of the applicant, the Secretary considers (1) The overall strength of the applicant's academic record (teaching, research, contributions, professional association activities (10 points); (2) The applicant's excellence as a teacher or researcher, or both, in his or her area or areas of specialization (10 points); (3) The applicant's proficiency in one or more of the languages (other than English and the applicant's native language) of the country or countries of research, and the specific measures to be taken to overcome any anticipated language barriers (15 points); and (4) The applicant's ability to conduct research in a foreign

cultural context, as evidenced by the applicant's previous overseas experience, or documentation provided by the sponsoring institution, or both. (5 points)

VI. Award Administration Information

1. Award Notices: If a faculty application is successful, we notify the IHE's U.S. Representative and U.S. Senators and send the IHE a Grant Award Notifrice (GAN). We may notify the IHE informally, also.

If a faculty application is not evaluated or not selected for funding, we notify the IHE.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section in this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section in this notice and include these and other specific conditions in the GAN. The GAN also incorporates its approved application as part of its binding commitments under the grant.

3. Reporting: At the end of the project period, the IHE must submit a final performance report, including the final reports of all of the IHE's fellows, and financial information, as directed by the Secretary. The IHE and fellows are required to use the electronic reporting International Resource Information System (IRIS) to complete the final report.

4. Performance Measures: Under the Government Performance and Results Act (GPRA), the following measure will be used by the Department in assessing the performance of the Fulbright-Hays Faculty Research Abroad Fellowship Program:

The average language competency score of Fulbright-Hays Faculty Research Abroad fellows at the end of their research period (post-test) minus the average language competency score at the beginning of their research period (pre-test). All grantees will be expected to provide documentation of the improved language proficiency of the fellows through IRIS.

DEPARTMENT OF EDUCATION

34 CFR Parts 606, 607, 611, 637, 648, 656, 657, 658, 660, 661, 662, 663, 664, and 669

Higher Education Programs

AGENCY: Office of Postsecondary Education, Department of Education.

ACTION: Final regulations.

SUMMARY: These final regulations remove all references to points in the selection criteria the Department of Education (Department) uses to evaluate applications submitted under the higher education discretionary grant programs. We are taking this action because the current point assignments are outdated and do not permit sufficient flexibility to establish important program objectives. Taking this action allows us that flexibility and ensures that grant awards are made to high quality applicants. The final regulations also remove the requirement that in competitions for grants under the Partnership and Teacher-Recruitment components of the Teacher Quality Enhancement Grants Program, the Secretary hold a two-stage competition in which applicants must submit a pre-application and a full application. The current structure did not prove effective in producing high quality applications for this program. Removing the requirement for a pre-application reduces burden on applicants and the Department and allows both to target their resources on the full application stage. There are some amendments in these final regulations that are purely technical corrections to the regulations.

DATES: These regulations are effective April 20, 2005.

SUPPLEMENTARY INFORMATION: On December 22, 2004, the Secretary
[[Page 13372]]

published a notice of proposed rulemaking (NPRM) for 34 CFR parts 606, 607, 611, 637, 648, 656, 657, 658, 660, 661, 662, 663, 664, and 669 in the Federal Register (69 FR 76636). In the preamble of the NPRM, the Secretary discussed on pages 76636 and 76637 the major changes proposed to the current regulations. These are as follows:

The Secretary proposed removing the mandatory point values from the selection criteria in the regulations associated with the application process for discretionary grant programs. These amendments provide the Secretary with the flexibility to select specific point values from year to year to address current priorities for the programs.

The Secretary also proposed amending 34 CFR part 611, which governs the Teacher Quality Enhancement Grants (TQE) program. This amendment makes discretionary the existing requirement that in competitions for grants under the program's Partnership and Teacher-Recruitment components, the Secretary conduct a two-stage process for selecting applicants involving the submission and review of pre-applications and full applications.

There were no differences between the NPRM and these final regulations.

Analysis of Comments

In response to the Secretary's invitation in the NPRM, the Department did not receive any comments on the changes to the TQE program. Several parties submitted comments on the proposed regulations regarding removal of mandatory point values. An analysis of the comments follows.

Generally, we do not address technical and other minor changes—and suggested changes the law does not authorize the Secretary to make.

Analysis of Comments and Changes

Comments: Several commenters believed that the elimination of points will result in some institutions being denied the opportunity to compete for grants because they will not have enough time to prepare because of the change.

Discussion: The Secretary does not agree that eliminating specific point values from the regulations will reduce the opportunity for potential grantees to compete for grants. The regulations continue to specify the criteria used in making the grants in each program. Moreover, the points to be awarded for each criteria will be specified in a Federal Register notice or in the application package, which will be available in enough time for potential applicants to prepare their applications.

Change: None.

Comment: Several commenters wrote that eliminating points from the criteria will result in a reduced focus on institutions that serve disadvantaged students or programs that serve a particular group.

Discussion: The Secretary understands the concerns of the commenters. We do not believe that the proposed change will lead to reduced focus on institutions that serve disadvantaged students or particular groups of students. Removing point values from the regulations does not change the selection criteria or otherwise change the focus of the programs.

Change: None.

Comment: Several commenters stated that the elimination of points would result in a preference for four-year institutions over two-year institutions.

Discussion: We have no reason to believe that the removal of points from the regulations will result in a preference for four-year institutions over two-year institutions in grant awards. The selection criteria will remain the same, so the removal of points will not effect the selection of applicants.

Change: None.

Executive Order 12866

1. Potential Costs and Benefits

We have reviewed these final regulations in accordance with Executive Order 12866. Under the terms of the order we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the final regulations are those resulting from statutory requirements and those we have determined to be necessary for administering these programs effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of these final regulations, we have determined that the benefits regulations justify the costs.

We have also determined that this regulatory action would not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

2. Summary of Potential Costs and Benefits

We discussed the potential costs and benefits of these final regulations in the preamble to the NPRM in the section titled Supplementary Information.

Regulatory Flexibility Act Certification

The Secretary certifies that these final regulations will not have a significant economic impact on a substantial number of small entities. Small entities affected by these regulations are small institutions of higher education. The changes will not have a significant economic impact on the institutions affected.

Paperwork Reduction Act of 1995

The Paperwork Reduction Act of 1995 does not require you to respond to a collection of information unless it displays a valid OMB control number. We display the valid OMB control numbers assigned to collections of information in these final regulations at the end of the affected sections of the regulations.

Assessment of Educational Impact

In the NPRM we requested comments on whether the proposed regulations would require transmission of information that any other agency or authority of the United States gathers or makes available.

Based on the response to the NPRM and on our review, we have determined that these final regulations do not require transmission of information that any other agency or authority of the United States gathers or makes available.

Frequently Ask Questions – Institution’s Project Director (PD)

Q. How does the Project Director (PD) register in the e-Application system?

A. The registration process for the PD involves two (2) steps. The PD must first request access to the FRA PD screens from US/ED program officers. The PD must submit the following information to program officers by the date specified in the published Closing Date Notice: name, institution, and e-mail address. Once the PD is informed by US/ED program officers that access has been granted, the PD can register in the e-Application system. Obtaining access to the system and registering in the e-Application system are two separate steps.

Q. How many sections are there to the application and who fills out what section?

A. There are two major sections to the e-application – the individual faculty applicant’s section and the Project Director’s (PD) section. Upon completion of the individual component of the application, the faculty member submits all portions of the application (narrative, cv, individual budget, etc.) to the PD. The PD is responsible for reviewing all individual faculty applications, including the submitted institutional support statement and language reference form(s) submitted by the referees, of his/her institution and submitting them in a single submission, along with the required institutional components, to the U.S. Department of Education (US/ED). **Only the PD can submit an application to US/ED.**

Q. When the PD submits the e-application, where does it go?

A. After the PD hits the submit button, the entire application (both the individual and institutional components) is sent electronically to US/ED. The PD will receive a confirmation e-mail that states: “Your application for Fulbright Hays Faculty Research Abroad Program, CFDA 84.019A, was received on XX (the date) at XX (the time submitted) Washington, DC time. This message will include the application’s identifier number (P019A0800XX).

Q. When does the PD hit the submit button?

A. The PD hits the submit button BEFORE 4:30 pm Washington, DC time on the published closing date and after: 1) All institutional and individual components of each individual faculty applicant, including foreign language references and institutional support statements are submitted; 2) The PD has reviewed all individual applications; and 3) The PD has approved each individual application by checking the box next to their name on “Item 22” on Application for Federal Assistance (SF 424).

Q. How does the PD review and approve the faculty applications for submission to US/ED?

A. The PD is able to review only applications that have been submitted to him/her by individual faculty applicants employed at his/her institution. To review an individual application he/she should consult “Item 22” on Application for Federal Assistance (SF 424) and click on the faculty member’s name. This will link him/her to that individual’s application. After the review of all individual applications have been completed, the PD indicates his/her approval of each application by clicking the acceptance box next to each name. Only PD-approved applications are included in the institutional submission to US/ED.

Q. Whom should the PD contact in the event of technical problems with e-application (e.g., pulling up a form)?

A. If the PD experiences any technical difficulties, he/she should contact the e-application help desk at 1-888-336-8930 (TTY: 1-866-697-2696, local 202-401-8363) Monday-Friday from 8:00 a.m. to 6:00 p.m. Washington DC time.

Q. If the PD has a question specific to the Fulbright-Hays Faculty Research Abroad (FRA) program (e.g., eligibility requirements) whom should he contact?

A. If the PD has program specific questions, he/she should contact Ms. Amy Wilson at (202) 502-7689; amy.wilson@ed.gov.

Q. Who should write the institutional support statement?

A. An administrator of the institution who is knowledgeable about the applicant's abilities and the institution's language and area studies resources should write the institutional support statement. The statement should describe how the project will contribute to the institution's plans for developing and strengthening its program in foreign languages and area studies. It should explain how the institution plans to utilize the faculty member's experience upon completion of the fellowship and must endorse the project on the basis of the candidate's professional competence, personal suitability and availability to accept the award if offered. This will be submitted via the web.

Q. How are the Language Reference Form and Institutional Support Statement submitted?

A: The faculty applicant will submit, via the e-Application, the referees' names and e-mail addresses. The referees will then receive e-mails, which are automatically generated by the e-Application system, with directions for completing and returning the reference forms. The e-mails will contain links to the forms and Personal Identify Numbers (PINs) for the referees. The referees must click on the links and provide the PINs in order to be linked to the faculty member's reference forms. Once the forms are completed, the referees click the submit buttons. After the referees hit the submit buttons, the forms have been submitted to the PD. Both the faculty member and the PD can monitor the submission of, but cannot review, the reference forms by checking the icon next to the reference forms. An icon for a submitted form is a blank piece of paper with a check mark on it. Reference forms must be submitted BEFORE the PD submits the application to US/ED. We suggest that internal deadlines be set by the PD for the submission of references.

Q. Can the PD set his/her own institutional deadline so that he/she can meet the closing date published in the FEDERAL REGISTER?

A. Yes! The PD should set an institutional deadline for faculty members and referees so that he/she will have ample time to review the individual application material, solve technical problems and submit a complete institutional application in a timely fashion as specified in the Federal Register.

Q. If a PD has access to the Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) Program screens, does he also have access to the FRA PD Screens?

A. No! Each program is separate and distinct in e-Application. The PD must register for each program separately in accordance with the instructions outlined in the Closing Date Notices published in the *FEDERAL REGISTER*. IEPS strongly suggests that potential PDs request access to and register in the e-Application system as soon as possible!

Q. Can a faculty applicant be designated as a Project Director (PD)?

A. No! The PD is the individual at the university who will administer the grant, disburse funds, and complete the reporting requirements in accordance with the terms and conditions of the grant should a faculty applicant be selected for a fellowship. He/she is the institutional point of contact for both the FRA fellow and US/ED. He/she can be the chair of a department, a person in the sponsored research/grants office or any other employee so designated by the "authorized representative" of the institution.

Q. What signatures are required for the e-Application?

A. The PD is responsible for submitting all documents electronically, including the Application for Federal Assistance (SF 424), and all necessary assurances and certifications. Within three days after submitting the electronic application, the PD MUST fax a signed copy of the SF 424 to the Application Control Center after obtaining the institution's Authorizing Representative's signature. We ask that Project Directors place the PR/Award Number the PD received electronically upon submission in the upper right hand corner of the hard copy signature page of the SF 424. US/ED may request original signatures on other forms at a later date

Instructions for Faculty

Program Objective

Section 102(b)(6) of the Mutual Education and Cultural Exchange Act of 1961 (Fulbright-Hays Act) has as its objective the promotion, improvement, and development of modern foreign languages and area studies throughout the educational structure of the United States. To help accomplish this objective the Faculty Research Abroad Program provides opportunities for scholars to conduct research overseas in the field of modern foreign languages and area studies.

For the purpose of these programs, area studies is defined as a program of comprehensive study of the aspects of a society or societies, including the study of their geography, history, culture, economy, politics, international relations, and languages.

Research overseas means research outside the United States, Puerto Rico, Guam, American Samoa, and the American Virgin Islands. Research will not be funded in countries in which the United States has no diplomatic representation or which are specifically excluded in the Notice of Closing Date annually published in the *Federal Register* and contained in this application.

For a complete description of the programs, consult the US Department of Education Regulations 34 Code of Federal Regulations Parts 663.

Eligibility Requirements

To be eligible to receive an award under the Faculty Research Abroad Program, a faculty member must:

1. (a) Be a citizen of the United States; or
(b) Be a permanent resident of the United States;
2. Be employed by an institution of higher education as defined in the program regulations.
3. Have been engaged in teaching relevant to his or her foreign language or area studies specialization for the two years immediately preceding the date of the award.
4. Propose research relevant to his or her modern foreign language or area studies specialization which (a) cannot be conducted in the United States or for which a foreign country or region provides significantly superior research facilities; (b) will contribute to the development or improvement of the study of modern foreign languages or area studies in the fields needed for full understanding of the area, regions, or countries in which modern foreign languages are commonly used, and (c) is not dissertation research for a doctoral degree.
5. Possess adequate skills in the language(s) necessary to successfully carry out the project.

Instructions for Fulbright-Hays Training Grants Application Form

In order that each individual applicant be evaluated properly according to the published procedures, eligibility requirements, and evaluation criteria, this specific electronic application package must be completed by each individual scholar applying for the Fulbright-Hays fellowship.

Item 1-4: Self-explanatory

Item 5: Choose the name of the institution through which you are applying. A faculty member planning to conduct research must apply to the Faculty Research Abroad Program through the university in which he or she is employed. If your university does not appear on this drop down list, please contact your Project Director. Only institutions' whose Project Directors have registered in e-application appear in this list. Please ensure that you choose the correct campus, i.e., University of Texas, Austin vs. University of Texas, Brownsville. A list of registered Project Directors and schools can be located in "Faculty Research Abroad Program – Section D, "Other important information".

Items 6-7: Self-explanatory

Item 8: Indicate all countries in which you plan to conduct research with Fulbright-Hays Faculty Research Abroad support.

Item 9: Indicate all the foreign languages to be used in your research during the fellowship period and submit a completed *Fulbright-Hays Foreign Language Reference Form* for each foreign language listed. Do not list English.

Item 10: Indicate the start and end dates for conducting your research under the fellowship. Activation of the award may be as early as June 1 for faculty members, provided: a US/ED Grant Agreement has been executed, travel has been approved, the appropriate research clearances and research visas have been secured by the individual scholar and, if required, human subject clearance obtained. All research must be completed by December 31 of the year following the year in which the grant is made. Awards for full time research of 3 to 12 months duration will be offered for individual faculty members. Fellowships are not renewable.

Items 11-12: Self-explanatory

Item 13: If resident alien, provide Alien Registration Number, country of birth, and previous citizenship. Please refer to the program's citizenship requirements as cited in the program regulations.

Item 14: Provide all academic degrees awarded, institutions from which they were granted and the disciplines in which they were granted. List the last degree received, first.

Item 15: Self-explanatory

Item 16: Provide an abstract of no more than 120 words describing your proposed research including a summary of research to be conducted as well as institutional and individual affiliations.

Item 17: Self-explanatory

Item 18: Indicate previous relevant foreign travel, period of stay and purpose (e.g., participation in an overseas language program) and specify all previous travel to the proposed host countries listed in item 8.

Items 19- 20: Indicate whether you are in default on any US Department of Education Student Financial Assistance loan, US Department of Education grant or any other Federal loan.

Item 21: Indicate whether you have been the recipient of these fellowships.

Item 22: Indicate current applications for other fellowships (Note: please see **Important Note Regarding Host Country Research Clearances** on Page C4).

Item 23: Enter the name, address and telephone number of the physician or certified nurse practitioner that completed your exam. Do not send a separate medical evaluation.

Item 24a: Enter amount requested for travel for one (1) economy class ticket, and list, in complete detail, starting with the airport closest to your current or permanent address, **all points** of travel related to your proposed project departure from and return to the United States (e.g., Philadelphia, PA - London, UK – Beijing, China - London, UK - Philadelphia, PA). The itinerary should not exceed a 12-month period and must include all countries in which you plan to conduct research with Fulbright-Hays Faculty Research Abroad support. FRA funds can be requested for only ONE (1) round-trip international ticket. All international travel estimates should be based on commercial high season rates for jet economy travel **on U.S. flag carriers**. If approved in advance, international travel by automobile, train, or ship may be authorized in certain cases. The cost of travel by surface carrier may not exceed the cost of jet economy travel via the most direct route for the itinerary listed in the Grant Agreement. Travel by sea also must be on a U.S. flag carrier.

You will not be authorized to travel on grant funds until you have secured the appropriate research visa, research permission, and, if necessary, the appropriate affiliation with a host country institution. All travel must comply with the Fly America Act and be approved by US/ED Program Staff. No support for dependents' travel is provided.

Item 24b: Enter your annual academic year salary at the time of application (excluding summer salary, anticipated increases, or benefits). Do not put commas in the amount you enter. Enter the number of months that you are requesting funds for (3-12 months). (**Monthly maintenance rates equals: annual academic year salary (not including summer salary, anticipated increases, or benefits) at the time of application divided by 9.** This will be computed by the e-application system. Please note that there are no dependents' allowances under the Faculty Research Abroad Program.

Item 24c: Enter the amount of any duplicating support you will receive. This amount will automatically be deducted by the e-application system.

Item 24d: Enter and justify in detail your needs for this allowance which may include expenses such as books, copying, informants, tutoring, translating and interpreting fees, tapes, film, travel within host countries, affiliation fees, etc. This allowance does not cover costs such as hotels and per diem while in the host country(ies), and costs incurred in the United States such as, expenses of passports including photographs or medical expenses such as malaria pills or vaccinations.

The cost of health and accident insurance for a Faculty Research Abroad award recipient and contributions for faculty retirement must be borne by the individual or his/her institution.

Item 24e: Fixed \$100 administrative fee paid to institution.

Item 24f: The e-application will automatically compute the sum of 24a-24e.

Item 25: Self-explanatory.

Item 26: A curriculum vitae needs to be attached to your application through the e-application. The c.v. should be brief and address those previously cited evaluation criteria focused on the qualifications of the individual applicant. You should list relevant course work dealing with your language and area studies specialization; indicate fellowships and honors received; describe your publications record and any other items which, in your opinion, give a panel of scholars a comprehensive view of your past achievements, ability to successfully complete the particular research described in this proposal, and overall promise as a teacher and/or research scholar

Item 27: The project narrative and bibliography needs to be attached to your individual application through the e-application. Please note the page limitations specified in the closing date notice published in the *Federal Register*.

You should develop your narrative taking into account the evaluation criteria provided in the sample Technical Review Form. Given the fact that, in addition to language and area studies scholars, non-specialists are included in the evaluation process and that host country officials will review your application and ultimately decide whether research permission is granted, you may also wish to consider the following factors when developing your project description:

- a. Host country sensitivities and interests.
- b. The use of English, which can readily be understood by well-educated non-specialists.

Awards are not made to applicants planning to conduct research on topics that are determined to be politically sensitive by the host country or unfeasible. It should also be noted that the U.S. Department of Education will not submit to the host country any "dummy" proposal (i.e., proposals which do not accurately reflect the research purpose in the hope of avoiding difficulties with host country acceptance of the proposal).

Instructions for preparing the Human Subject Research Narrative

Prepare the required narratives if the project involves Human Subjects Research and/or requires IRB approval, and submit these narratives to the Project Director well in advance of the Closing Date. The instructions regarding Human Subjects Research are located in the ED Supplemental Information for SF424, found in Section B of this application booklet.

Instructions for Fulbright-Hays Foreign Language Reference Form

The language reference form, which is required for this program, should be completed by a specialist in the language and submitted to the project director at the applying college or university. A completed reference for each language listed in item 9 of the *Fulbright-Hays Training Grants Application Form* must be submitted via the web by the referee to the institution's Project Director.

Instructions for Fulbright-Hays Faculty Institutional Support Statement

This statement should be prepared by an administrator of the institution of higher education who is knowledgeable about the applicant's abilities and the institution's language and area studies resources. It should describe how the project will contribute to the institution's plans for developing and strengthening its program in foreign languages and area studies. It should explain how the institution plans to utilize the faculty member's experience upon completion of the fellowship and must endorse the project on the basis of the candidate's professional competence, personal suitability, and availability to

accept the award is offered. A completed statement must be submitted via the web by the referee to the institution's Project Director.

Important Note Regarding Host Country Research Clearances

When Fulbright Commissions or other overseas organizations apply for host country clearance for a FRA fellow's project, US/ED expects that the organization will use the proposal submitted to US/ED by that fellow for the FRA competition. It is not acceptable to "transfer" clearances from a project submitted under one program's competition to a project submitted under another program's competition, in order to expedite clearance. The project that we fund must be the one submitted to US/ED that was reviewed and scored by US/ED peer reviewers according to the FRA program's selection criteria, and has undergone US/ED review procedures. This review process is the whole basis of US/ED funding decisions, and these funding decisions are approved by officials throughout the Department. US/ED understands that the proposals that faculty members submit for other programs may be "basically" the same, but we simply do not have the ability to verify this. The proposals for other programs often have different page limits, requirements and selection criteria, resulting in an application that is really quite different from what was submitted to US/ED. US/ED can only be responsible for funding the projects submitted under the FRA program.

USED urges fellows to begin the clearance process as soon as possible, and to understand that they may have to be flexible with regard to when they begin their research.

Instructions for Assembly, Duplication, and Transmission

You must check with your institution to determine if your institution will be submitting all applications via e-grants as required in the Federal Register, or if it has been granted a waiver from that requirement. All of the institution's applications must be submitted in the same format.

A completed e-Application packet to be submitted by the Project Director, at the applying college/university, to the U.S. Department of Education by 4:30 p.m. Washington DC time on the published closing date, should contain the items specified below:

- 1) Fulbright-Hays Training Grants Application Form(s) submitted by the individual faculty members, via the a-Application.
- 2) One (1) Fulbright-Hays Foreign Language Reference Form, for each language needed to conduct the research outlined, submitted by your referee via e-Application
- 3) One (1) Fulbright-Hays Faculty Institutional Support Form submitted by your referee via e-Application.

A complete institutional application to the Faculty Research Abroad Program is the sum of all completed individual application packets submitted with the *Application for Federal Education Assistance* (Standard Form 424), the *ED Supplemental Information for SF424*, the *Assurances -- Non-Construction Programs* (Standard Form 424B); and *Certification Regarding Lobbying; and Drug-Free Workplace Requirements*; to the U.S. Department of Education. **Failure to meet the deadline published in the *Federal Register* will mean rejection of the application without consideration. There is no appeal of this requirement.**

Frequently Asked Questions - Faculty Applicants

Q: Can I apply independently of my university?

A: No, an eligible applicant is a U.S. institution of higher education. The faculty member's application must be submitted to the institution's Project Director (PD) who is registered in the U.S. Department of Education's e-Application system.

Q. How many sections are there to the e- Application and who fills out what section?

A: There are two primary sections to the e-Application – the faculty member's individual section and the section to be completed by the PD. Upon completion of his/her section, the faculty member submits all components of the faculty member section (parts 1-4) to the PD. The PD is responsible for reviewing the faculty member's section and submitting it, along with the PD section, which contains the required federal forms, to the U.S. Department of Education. Included in this submission are the language reference form and institutional support statement that were transmitted to the PD by the referees. **Only the PD can submit an application to US/ED.**

Q. How are the Language Reference Form and Institutional Support Statement submitted?

A: The faculty applicant will submit, via the e-Application, the referees' names and e-mail addresses. The referees will then receive e-mails, which are automatically generated from the e-Application system, with directions for completing and returning the reference forms. The e-mails will contain links to the forms and Personal Identify Numbers (PINs) for the referees. The referees must click on the links and provide the PINs in order to be linked to the faculty member's reference forms. Once the forms are completed, the referees click the submit buttons. After the referees hit the submit buttons, the forms are submitted to the PD. Both the faculty member and the PD can monitor the submission of the reference forms by checking the icon next to the reference forms. An icon for a submitted form is a blank piece of paper with a check mark on it. Reference forms must be submitted BEFORE the PD submits the application to US/ED. It is suggested that internal deadlines be set by the PD for the submission of references. The Project Director and the reference writers do not have to be the same person.

Q: When the faculty member clicks the “submit” button in the e-Application system, where does his application go?

A: The faculty member's application is transmitted to his/her institution's PD for review and submission to US/ED. A faculty applicant is not able to transmit his/her application directly to US/ED.

Q: When should a faculty member's application be submitted?

A: The PD determines the internal deadline by which all sections of the application must be submitted. It is the responsibility of the faculty member to ensure that the language reference(s) and institutional support statement are submitted by referees no later than the established internal deadline.

Q: To whom does the published Closing Date apply?

A: The published Closing Date is the date by which the PD must submit all components of the application to US/ED via e-Application. It is recommended that the PD have access to all sections of the application well in advance of this date. Application materials cannot be submitted after the published closing date.

Q: Can a faculty applicant be designated as a Project Director (PD)?

A: No! The PD is the individual at the institution who will administer the grant, disburse funds, and complete the reporting requirements in accordance with the terms and conditions of the grant should a faculty applicant be selected for a fellowship. He/she is the institutional point of contact for both the FRA fellow and US/ED. He/she can be the chair of a department, a person in the sponsored research/grants office or any other employee so designated by the “authorized representative” of the institution.

Q: How do I know who the PD is?

A: Check the Project Directors listed in this application package. If your institution has submitted applications for FRA funding in the past, chances are that an experienced PD has been appointed. If your institution is a new applicant, it will be necessary for your institution's administration to appoint a PD and ensure that he/she registers in the e-Application system.

Q: How will a faculty member know that his PD has access to his application?

A: After the faculty member has submitted his/she e-application, he/she will receive an e-mail that stating that his/her application has been received by the PD at his/her institution. The PD will be copied on the e-mail notification; nevertheless, the faculty member may want to contact the PD in addition to the e-mail notification. If the PD did not receive this e-mail, please contact US/ED's Help Desk immediately.

Q: How do I know that the PD has submitted the application to US/ED?

A: A faculty member will not receive a notification e-mail when the PD transmits his/her application to US/ED. Only the PD will receive such a notification e-mail. A faculty member must check with his/her institution's PD to determine whether the application has been submitted.

Q. Who should write the institutional support statement? Should the PD?

A: The institutional support statement may be written by the PD, but does not have to be. It should be written by an administrator of the institution who is knowledgeable about the applicant's abilities and the institution's language and area studies resources. It should describe how the project will contribute to the institution's plans for developing and strengthening its program in foreign languages and area studies. It should explain how the institution plans to utilize the faculty member's experience upon completion of the fellowship and must endorse the project on the basis of the candidate's professional competence, personal suitability and availability to accept the award if offered. This reference will be submitted via the e-Application.

Q: How important is the page limit cited in the Closing Date Notice?

A: The page limit is extremely important. If the faculty member's application narrative exceeds the page limit, the application will be disqualified and will not be reviewed for funding. Please adhere strictly to the page limit guidelines contained in the published Closing Date Notice.

Q: Should references, footnotes, endnotes, or the bibliography be included in the narrative? How long should they be?

A: References, footnotes, endnotes and the bibliography will certainly strengthen an application. However, they will be considered part of the application narrative, and subject to the page limit restrictions. Please check the Closing Date Notice for more information regarding these.

Q: What if a faculty member proposed to use a much less commonly taught language and cannot find someone to evaluate his foreign language proficiency?

A: Please call Amy Wilson at 1-202-502-7689. We will gladly assist you in finding a qualified evaluator. An application is significantly less competitive if a foreign language reference form is not included.

Q: Should Letters of Affiliation from overseas host institutions or organizations be included in an application?

A: Yes, these letters are helpful to the panel in evaluating an application. Please upload to the appropriate place in the e-Application. These letters may not be mailed.

Q: Do the provisions of the “Fly America Act” apply to this program?

A: Yes. International travel budget estimates ought to be based on jet economy high season rates on U.S. Flag carriers where available.

Q. Does the international travel allowance provide funds for dependent’s travel?

A: No, it does not.

Q: What signatures are needed for the e-Application?

A: No signatures are required for the faculty member’s application. However, signatures from your doctor/nurse practitioner may be requested at a later date.

Q: If a faculty member experiences technical difficulties or has questions regarding the e-Application system, whom does he contact for assistance?

A: Contact the e-Grants Help Desk at 1-888-336-8930. US/ED program officers are not able to answer technical questions about e-Application.

Q: If a faculty member has programmatic questions, whom should he contact?

A: He/she should contact US/ED program officer Amy Wilson at amy.wilson@ed.gov or via telephone (202) 502-7689.

Q: When will selections be announced?

A: Awards are usually announced in April. It is the responsibility of the institution to inform a faculty member of his/her status.

Q: When may fellowships be activated?

A: A fellowship may be activated after a Grant Award Notification (GAN) has been issued, host country visa and research requirements have been met, and human subject research clearance, if required, has been given by the employing institution, and travel approval has been obtained by the PD from US/ED. The GAN will specify the performance and budget periods. All research must be completed during these periods.

Q: Must a faculty member apply for his own visa and research clearance?

A: Yes.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in***

the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked “Yes” for item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the

designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s)**: If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4250, telephone: (202) 245-6120, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site: <http://www.ed.gov/about/offices/list/OCFO/humansub.html>

GOVERNMENT PERFORMANCE AND RESULTS ACT (GPRA)

What is GPRA?

The Government Performance and Results Act of 1993 (GPRA) is a straightforward statute that requires all federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report their progress to the Congress. In so doing, it is expected that the GPRA will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

How has the Department of Education Responded to the GPRA Requirements?

As required by GPRA, the Department of Education has prepared a strategic plan for 2007-2012. This plan reflects the Department's priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the U.S. The Department's goals, as listed in the plan, are:

- Goal 1: Increase student achievement, reward qualified teachers, and renew troubled schools so that every student can read and do math at grade level by 2014, as called for by the No Child Left Behind Act.*
- Goal 2: Encourage more rigorous and advanced coursework to improve the academic performance of our middle and high school students.*
- Goal 3: Work with colleges and universities to improve access, affordability, and accountability, so that our higher education system remains the world's finest.*

The performance indicators for the International Education Programs are part of the Department's plan for meeting Goal 3.

What is the Performance Indicator for the Fulbright Hays Faculty Research Abroad Program?

The Fulbright-Hays Faculty Research Abroad (FRA) program provides grants to institutions of higher education to fund faculty to maintain and improve their area studies and language skills by conducting research abroad for periods of 3- to- 12 months.

FRA Performance Measures:

- a. The average language competency score of Fulbright-Hays Faculty Research Abroad program recipients at the end of their period of instruction minus their average language competency at the beginning of the period..
- b. Percentage of all Fulbright-Hays Faculty Research Abroad program projects judged to be successful by the program officer, based on a review of information provided in annual performance reports.

The information provided by grantees in their performance reports submitted via the electronic International Resource Information System (IRIS) will be the source of data for this measure.
