

SUMMARY OF COUNTY AGRICULTURAL COMMISSIONERS' REPORTS

GROSS VALUES BY COMMODITY GROUPS -- CALIFORNIA 1994-95

1995 SUMMARY

California's counties reported a gain of 2.5 percent in the value of their agricultural production for 1995. Ten of the top counties submitted values of production in excess of 1.0 billion dollars. Fresno County retained the number one spot with a value of production of 3.2 billion dollars, 3.2 percent higher than the previous year.

Notable Changes in County Rankings and Percentages of the State Total:

Milk	-- Tulare number one with a small increase
All Grapes	-- Fresno number one with 19 percent of total
Nursery Products	-- San Diego almost one-fourth of total
Cattle and Calves	-- Tulare number one and increasing
Cotton	-- Fresno with over one-third the State total
Almonds	-- Kern number one followed by Stanislaus and Merced
Lettuce	-- Monterey with over five of every ten dollars
Oranges	-- Tulare number one with over half of total
Strawberries	-- Monterey holding at number one, Ventura second
Flowers and Foliage	-- San Diego dominates with 46 percent of total
Processing Tomatoes	-- Fresno with over one-third the State total
Rice (excluding seed)	-- Colusa number one with Sutter nearby
Lemons	-- Ventura with nearly six of every ten dollars
Eggs (chicken)	-- Riverside nearly one-quarter the State total

NOTES TO THE AGRICULTURAL COMMISSIONER DATA

The gross value of production published in this report includes all farm production whether sold into usual marketing channels or used on the farm where produced. Values placed on pasture and range feed are included, and fresh fruit and vegetable crop values are based on the free on board (f.o.b.) packed price. Values are recorded for all products grown during the calendar year regardless of when they are marketed. The County Agricultural Commissioners' Reports also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized here differs from the cash receipts to farmers estimated by the California Agricultural Statistics Service. The larger total value reported by the Agricultural Commissioners results from the different definitions that are used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, this has not been made a part of the main tables of this summary. The total value reported by the counties including timber is 3.8 percent greater than the \$25.0 billion recorded on page 5 in this bulletin and totals with and without timber are shown on page 1.

Top Ten Crops (Pages 10-14)

Some counties' crops were ranked in Commissioner reports. Those not ranked by counties were ranked by California Agricultural Statistics Service. Timber was omitted in rankings.

COUNTY AGRICULTURAL COMMISSIONER REPORTS

Copies of individual County Agricultural Commissioner Reports may be obtained directly by request from the offices shown in the back of this summary.
