August 2000

Summary

California's counties reported an increase of 5.5 percent in the value of their agricultural production for 1999. Eleven counties reported a value of production in excess of 1.04 billion dollars. Fresno County continues to lead all counties with a production value of 3.56 billion dollars, an increase of 9.3 percent from last year's total. Tulare County reported a 5.3 percent increase, raising their value of production above the three-billion dollar mark to 3.07.

Notable Changes in County Ranks and State Totals:

Milk	-- Tulare increases their lead
Grapes, All	-- Fresno is number one with 18 percent of the total
Nursery Products	-- San Diego leads with 18 percent of the total
Cattle and Calves	-- Tulare is number one and growing
Lettuce	-- Monterey leads with more than five of every ten dollars
Cotton	-- Fresno has one-third of the total
Almonds	-- Stanislaus is number one followed by Kern and Merced
Tomatoes, Processing	-- Fresno with more than one-third of the total
Flowers and Foliage	-- San Diego has more than half of the total
Oranges	-- Tulare is first with almost half of the total
Strawberries	-- Ventura captures the lead from Monterey
Hay, Alfalfa	-- Imperial is number one with 17 percent
Rice (Excluding Seed)	-- Colusa is number one followed by Sutter
Broccoli	-- Monterey is number one with more than half
Salad Greens	-- Monterey dominates with over three-fourths of the total

Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The County Agricultural Commissioners' Reports also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by the California Agricultural Statistics Service. The larger total value reported by the Agricultural Commissioners results from the different definitions that are used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties including timber is 3 percent more than the \$28.4 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 1998-99" table on page 7, and the totals with and without timber are shown in the "County Rank by Gross Value of Agricultural Production, 1998-99" table on page 3.

County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioner Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. A listing is at the back of this report.
